Notice to ASX **30 August 2021**

BOUGAINVILLE COPPER LIMITED (BOC)

The directors of Bougainville Copper Limited announce the following results of the company for the six months ended 30 June 2021 together with comparable results for the six months to 30 June 2020. An update of recent events is also included. The results have been independently reviewed.

The result for the six months ended 30 June 2021 for the group was a net operating loss of K3.3 million (AUD$1.2m) compared to net loss of K4.5 million (AUD$2.0m) in the corresponding period last year.

The results of the Bougainville Copper Foundation Limited have been consolidated.

Financial Results	**Consolidated 2021 K'000**	**Consolidated 2020 K'000**
Income		
Interest	-	5
Dividends	1,815	1,538
	1,815	1,543
Less: General and administration expenses	4,757	5,564
Depreciation	378	520
Net Profit / (loss) after tax	(3,320)	(4,541)
Average AUD$/Kina exchange rate for the period	0.3622	0.4357
Equivalent net loss in AUD$'000	$(1,203)	$(1,978)

Total administration expenditure in the first half of 2021 decreased compared to the corresponding period in 2020 resulting in savings of K807,000. Stakeholder engagement, travel, community projects and exchange rate losses were key areas where costs were reduced. This was in part a reflection of the restricted operating environment due to the impact on operations of the ongoing global coronavirus pandemic and cost restraint measures.

Dividend income from the Company's investments in ASX listed shares increased in Kina value however remained similar in AUS$ value compared to 2020.

Investments of K1.7 million were realised during the period with the K0.9 million fair value gain previously accumulated in reserves transferred within equity to retained earnings. The Company will need to realise further investments in the second half of 2021 to fund ongoing operations.

The value of ASX listed investments held by the Company increased during the period resulting in the Net assets of the Group increasing to K123.4 million from K121.0 million in December 2020.

Events of Significance

Overview

Bougainville Copper maintained an active presence in Bougainville during the first half of 2021, but faced operational constraints as a result of the ongoing coronavirus pandemic.

The Company continued its support for worthwhile community projects and activities. It also maintained positive relations among customary heads, the agents authorised to represent landowners in the Panguna project area.

Bougainville Copper also remains committed to respectful and constructive engagement with the Autonomous Bougainville Government (ABG) regarding the future of the Panguna mine.

The ABG under President Ishmael Toroama remains engaged in consultations with the PNG national government regarding the outcome of Bougainville's historic 2019 referendum, in which 98 per cent voted for independence from PNG.

Legacy Impact Assessment

The Company welcomes and supports an agreement reached by Rio Tinto (which previously majority-owned Bougainville Copper) and residents of mine-affected communities to identify and assess legacy issues linked to the closed Panguna mine.

The proposed Panguna Mine Legacy Impact Assessment, announced on 21 July, will identify and assess actual and potential environmental and human rights impacts and develop recommendations for addressing them.

The process is to be overseen by a multi-stakeholder committee and the Assessment will be conducted by an independent third-party company or consortium with requisite expertise.

The Assessment will be mostly funded by Rio Tinto with Bougainville Copper agreeing to contribute, provided the process and methodology is endorsed by the multi-stakeholder committee; the work can be safely completed, and an appropriate funding mechanism can be agreed.

EL1 Tenure

The Judicial Review of the decision by the Autonomous Bougainville Government (ABG) to refuse an extension of the Company's Exploration Licence (EL1) is expected to proceed in the PNG National Court in the second half of 2021.

The directors of the Company remain committed to taking all steps to protect tenure. As the matter remains unresolved, the Exploration Licence is deemed to continue until a determination by the court.

Company Shareholdings

Following the referendum on Bougainville's political future in December 2019, PNG Prime Minister James Marape, committed to transferring the Independent State of PNG's 36.4 per cent shareholding in Bougainville Copper to the people of Bougainville.

Mine-affected landowners believe 17.4 per cent of the shareholding should be distributed among their nine landowner associations. The share transfer process remains ongoing.

Community Engagement

Bougainville Copper has continued to maintain positive relations with the project area's customary landowners, including the Panguna Development Company Limited (PDCL), whose membership comprises legally appointed block agents from the project area.

The PDCL earlier this year confirmed that it, along with eight of nine mine-affected landowner associations, community leaders and chiefs were united and had taken steps to commence dialogue with the ABG regarding the future of the Panguna mine.

The group expressed support for Bougainville Copper being involved in this process given the Company is majority owned by the people of Bougainville and PNG and continued to have a positive presence on Bougainville. It has also expressed support for the awarding of EL1 to Bougainville Copper.

Bougainville Copper has also continued to provide support and sponsorship for a range of activities on Bougainville in areas such as sport and culture, education and training.

2021 Dividend

The Directors have not declared a dividend in respect of the six months ended 30 June 2021.

Borrowing

No borrowings were outstanding as of 30 June 2021.

Stock Exchange

The standard Appendix 4D half yearly report and Independent Auditors Review Report is attached in accordance with the Australian Stock Exchange official listing requirements.

Segment reporting

(Information on the business and geographical segments of the entity must be reported for the current period in accordance with *IFRS 8: Operation Segment* and for half year reports, *IAS 34: Interim Financial Reporting*. Because entities employ different structures a pro forma cannot be provided. Segment information in the layout employed in the entity's +accounts should be reported separately and attached to this report.)

Bougainville Copper Limited operates in one segment only.

Comments by directors

(Comments on the following matters are required by ASX or, in relation to the half yearly report, by *IAS 34: Interim Financial Reporting*. The comments do not take the place of the directors' report and statement and may be incorporated into the directors' report and statement. For both half yearly and preliminary final reports, if there are no comments in a section, state NIL. If there is insufficient space to comment, attach notes to this report.)

Basis of financial report preparation

19.1 This is a half yearly report, it is a general purpose financial report prepared in accordance with the listing rules and IAS 34: Interim Financial Reporting. ***It should be read in conjunction with the last annual report and any announcements to the market made by the entity during the period.*** *The financial statements in this report are "condensed consolidated financial statements" as defined in IAS 34: Interim Financial Reporting. This report does not include all the notes of the type normally included in an annual financial report.*

For more details on the accounting policies, please refer to the annual report of Bougainville Copper Limited for the year ended 31 December 2020. These policies have been consistently applied to all periods presented. There were no changes in significant accounting policies in the current half year period.

At 30 June 2021, the Investments disclosed in the condensed consolidated balance sheet include:

- Investment assets of K122.5 million held by the Company consisting of ASX listed shares, and therefore have no fixed maturity date or coupon rate. The fair value of financial instruments traded in active markets is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are categorised as level 1 within the fair value hierarchy.
- Investment assets of K1.1 million held by the subsidiary represent unlisted units held in the Pacific Balanced Fund and are classified as level 3 within the fair value hierarchy due to the use of unobservable inputs. The financial statements of the Pacific Balanced Fund or similar data for period to 30 June 2021 were not readily available to allow for the management to determine the fair valuation at balance date. The units are not traded. The carrying amount as disclosed above was determined based on an historic buy-back price of K2.75 per unit.

There were no transfers between fair value hierarchy during the period.

19.2 Material factors affecting the revenues and expenses of the economic entity for the current period. In a half yearly report, provide explanatory comments about any seasonal or irregular factors affecting operations.

1. Tenement EL1

The Autonomous Bougainville Government passed the Bougainville Mining Act 2015 (BMA) on 1 April 2015. This legislation may seek to challenge the company's control of the mine assets and may reflect an expropriation of assets for the purpose of the Bougainville Copper Act.

The BMA converted the Special Mining Lease held by the company to an Exploration Licence (EL) for a period of two years from 8 September 2014, the date the Transitional Mining Act was created. In July 2016 the company applied to extend the EL. The ABG commenced the processing of the application in October 2017 and on 16 January 2018 issued a Notice of refusal to grant a renewal for the following reasons:

1. The required majority consent of the landowners was not evident during the Mining Wardens hearing and shows BCL does not have the social licence to operate the mine.
2. The reopening of the Panguna Mine is a divisive issue and has the potential to adversely affect the ABG's preparation for the conduct of the referendum given that it was BCL's past operation of Panguna Mine that ignited the Bougainville crisis which resulted in the loss of about 20,000 lives. Hence, it is in Bougainville's best interest to maintain peace and unity.

The company commenced an action in the National Court of Papua New Guinea seeking leave for a Judicial Review of the renewal application process. Leave was granted on 10th April 2018. A stay was granted against the ABG, from giving effect to or relying on the decision to refuse the application by BCL for extension of EL1.

Panguna Minerals Limited (PML), a company 50% owned by SMLOLA and 50% by Central Exploration Pty Ltd (a company 70% owned by RTG Mining Inc) was joined to the proceedings on 22 August 2018. BCL applied for leave to appeal the joinder decision. The leave to appeal was dismissed on 11 March 2019. The application for leave to appeal the joinder was then heard by a three-person bench of the Supreme court on 27 June 2019 and again refused on 6 February 2020. BCL noted that the difficulty of the question was reflected in the fact that the members of the three-person-bench were split as to the proper outcome. PML is now definitely a defendant to the proceeding, and its activities given due scrutiny.

BCL welcomes the certainty that the ruling brings and looks forward to the prosecution of its claims against the defendants, and remains confident of our tenement position and believe the court proceedings will uphold our rights.

The Judicial Review of the renewal application process has not yet proceeded and is expected to be listed for hearing in the last quarter of 2021.

Bougainville Copper Limited while adhering to the requirements of the Bougainville Mining Act 2015, also recognises and maintains the tenements in accordance with the PNG National legislation and the Bougainville Copper agreement.

The directors of the company continue to take all possible steps to protect tenure in Bougainville.

2. Investment in Unlisted Investment Fund

On 24 November 2016, the Company acquired a subsidiary (Bougainville Copper Foundation Limited). The subsidiary holds an investment in an unlisted investment fund. The investment has a carrying value of K1.1 million.

Management have not been provided with the 2018, 2019 and 2020 audited financial statements of the investee and the investee is unable to confirm the value of units held by the various investors.

Accordingly, the Company has been unable to determine the fair value of the investment and accordingly whether the carrying value of the investment of K1.1 million is fairly stated.

For personal use only

19.3 A description of each event since the end of the current period which has had a material effect and which is not already reported elsewhere in this Appendix or in attachments, with financial effect quantified (if possible).

Nil

19.4 Franking credits available and prospects for paying fully or partly franked dividends for at least the next year.

Nil

19.5 Unless disclosed below, the accounting policies, estimation methods and measurement bases used in this report are the same as those used in the last annual report. Any changes in accounting policies, estimation methods and measurement bases since the last annual report are disclosed as follows. (Disclose changes and differences in the half yearly report in accordance with *IAS 34: Interim Financial Reporting*. Disclose changes in accounting policies in the preliminary final report in accordance with *IAS 8*: Accounting Policies, Changes in Accounting Estimates and Errors.

Nil

19.6 Revisions in estimates of amounts reported in previous interim periods. For half yearly reports the nature and amount of revisions in estimates of amounts reported in previous +annual reports if those revisions have a material effect in this half year.

Nil

19.7 Changes in contingent liabilities or assets. For half yearly reports, changes in contingent liabilities and contingent assets since the last + annual report.

The company has made provision for statutory compensation for the 1990 year of operation, inclusive of interest. Payments commenced in February 2017 and 89.1% has been paid up to 31 July 2021 (88.9% 31 July 2020). A further claim has been made from another mine affected landowner group. Discussions with the land group to determine the amount, if any, of statutory compensation that may be due, have been put on hold until the judicial review as noted in 19.2.1 is resolved. No provision has been made for any liability that may arise from this further claim.

Report on review of condensed interim consolidated financial information

to the Directors of Bougainville Copper Limited

Introduction

We have reviewed the accompanying condensed consolidated balance sheet of Bougainville Copper Limited (the Company) and its subsidiary (together the Group) as at 30 June 2021 and the related condensed consolidated statements of comprehensive income, changes in equity and cash flows for the six-month period then ended and other explanatory notes. The Directors are responsible for the preparation and presentation of this condensed interim consolidated financial information in accordance with International Accounting Standard 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed interim consolidated financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of interim financial information performed by the independent auditor of the entity'. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for qualified conclusion

The Group holds an investment in an unlisted investment fund with a carrying value of K1.1 million at 30 June 2021. Management has not been provided with audited financial statements of the investee at 30 June 2021 and there is currently no active market for the sale of units in the investment fund. As a result, we have been unable to satisfy ourselves as to the valuation of K1.1 million of the investments recognised at 30 June 2021.

Qualified conclusion

Based on our review, with the exception of the matter described in the preceding paragraph, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial information of the Group is not prepared, in all material respects, in accordance with International Accounting Standard 34, 'Interim Financial Reporting'.

Emphasis of matter

Without qualifying our conclusion, we draw attention to Section 19.2 of Appendix 4D which describes the continued significant uncertainty surrounding the future of the Panguna mine and related assets particularly in relation to the Company's rights to those assets. The mine assets were fully depreciated or impaired in previous financial years. Our conclusion is not qualified in respect of this matter.
