

25 July 2019

QUARTERLY ACTIVITIES REPORT FOR PERIOD ENDED 30 JUNE 2019

WESTERN AUSTRALIA

During the quarter the Company continued to consider options for its Second Fortune mining project. The company has received interest from several parties in relation to either acquiring the project outright or participating in a joint venture with Anova Metals Ltd. Access to the project data room has been provided to these parties for due diligence purposes and discussions are continuing with certain parties. The Company will keep the market updated on any developments with any of the interested parties.

The Second Fortune project is currently on care and maintenance whilst project evaluations are being undertaken. The camp site is currently occupied by a mining contractor which helps reduce a component of the fixed site costs. This arrangement is expected to continue for the next 6–12 months subject to requirements.

BIG SPRINGS

The Big Springs divestment process continues to be led by experienced Canadian resources advisors Haywood Securities Inc. During the quarter further interested parties have entered the data room and site visits have been undertaken by interested parties. Several alternate options are also being investigated including joint venture arrangements, farm-in and merger opportunities. The recent gold price improvement has created further interest in the project which is being progressed.

There is no certainty that the process will lead to the divestment of the Big Springs Gold Project and any agreement, once entered into, will be disclosed and be subject to any necessary regulatory approval process including any approvals required by the ASX.

CORPORATE

In the quarter the Company received \$380,000 as proceeds of the Research and Development Tax Incentive related to financial year 2018.

Subsequent to quarter end, Anova completed an agreement for the sale of its interest in the Bar Twenty Project to a private WA mining company. Proceeds of \$250,000 are due by the end of the September 2019 quarter.

The Company continues to maintain reduced expenditure where possible and together with the recent disposals, provides sufficient financial capacity for the Company to meet its current financial obligations whilst maintaining the core Big Springs and Second Fortune tenements.

2. This statement gives a true and fair view of the matters disclosed.

Mr Steven Jackson

Company Secretary

Date: 25 July 2019

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
