Firm Commitments Received for \$4.75m Placement & Canaccord Genuity appointed Equity Capital Markets Advisor to lead LSE Dual Listing strategy in 2HCY2019

MGC Pharmaceuticals Ltd (ASX: MXC, 'MGC Pharma' or 'the Company'), a European based 'Seed to Pharmacy' bio-pharma company focused on developing and commercialising cannabinoid derived medicines, is pleased to announce it has secured commitments to raise \$4.75 million by way of a share placement to sophisticated and professional investors (**Placement**) at an issue price of \$0.04 per share (**Issue Price**). The Company will also undertake an offer of shares to eligible existing shareholders under a Priority Offer (**PO**) to raise up to an additional \$1.0 million at the Issue Price.

The Company has engaged the services of Canaccord Genuity in Australia to act as the Company's equity capital markets advisor, and in the UK to lead the Company's planned dual-listing on the London Stock Exchange (**LSE**). During 2019 the Company has materially advanced its dual-listing strategy with Canaccord, and is actively progressing towards a listing on the LSE in 2HCY2019. Following the introduction of medicinal cannabis legislation in November 2018 in the UK, MGC Pharma is positioned to be one of the first medicinal cannabis companies to be listing on the LSE or any major exchange in the United Kingdom.

Key Highlights:

- MGC Pharma has received binding commitments from sophisticated and professional investors to raise \$4.75 million (before costs), via a placement of shares at an issue price of \$0.04 per share
- Canaccord Genuity (Australia) Limited has been appointed to act as equity capital markets advisor to the Company
- Canaccord Genuity Limited and other key advisers in the UK are working with the Company to actively progress a dual listing on the LSE, targeted for 2HCY2019
- Up to an additional \$1 million (before costs) to be raised under a Priority Offer, pursuant to which eligible existing shareholders may subscribe for up to \$25,000 worth of shares, at the same issue price as the Placement
- Up to \$5.75 million to be raised through the Placement and Priority Offer will be used to fund the Company's ongoing operations for production and sales of pharmaceutical grade cannabinoid derived medicines, initial construction works on its Malta GMP Pharma facility and costs towards undertaking a possible dual listing on the LSE

Roby Zomer, Co-founder and Managing Director of MGC Pharma, commented: "The level of interest from new and existing investors in MGC Pharma is a testament to the opportunity that our business offers investors in providing exposure to the fast-growing medical cannabis market and our unique 'Seed to Pharmacy' strategy. We have had an incredibly busy period of late where we have rapidly advanced the business, delivering material results through ground-breaking research and development, increasing our distribution channels globally, opening new markets, strengthening our partnerships with academic institutions and widening our growing and manufacturing capabilities.

“Recent research on the effectiveness of cannabinoids on brain cancers is potentially transformative; the reaching of the 100 patient treatment milestone in Australia in a relatively short time frame is incredibly encouraging; and the commencement of the construction of the Maltese GMP compliant R&D and manufacturing facility will be pivotal to providing a gateway to key European and global markets. With our leading clinical and commercial position in Europe, and an increasing presence and patient uptake in the UK, we look forward to updating shareholders on further developments, both commercially and in the UK Capital Markets, over the coming months.”
