## DIRECTORS' COMMENTS

Family Insights Limited (**Family Insights Group** or the **Company**) is pleased to present its Preliminary Final Report for the year ended 30 June 2019 (**Period**).

Family Insights Group has developed technologies that combine advanced network subsystems to accelerate data transfer over mobile networks, whilst incorporating real-time data capture and storage methods to enable advanced cloud-based data analytics. Data intelligence generated is utilised to power useful consumer mobile applications as well as business intelligence and analytics capabilities.

To date the Family Insights Group has developed two mobile based applications; Wangle Mobile VPN and Family Insights, with a third application having commenced development, Frugl Grocery.

Wangle Mobile VPN is a Virtual Private Network (**Wangle VPN**) and a network optimiser combined that provides mobile network acceleration and improves the total experience while accessing the internet from portable devices. Wangle VPN also reduces data usage while enhancing security and privacy.

Family Insights (**FI**) is the new face of Parental Control software. Developed in collaboration with researchers from Telethon Kids Institute, FI analyses real-time network behaviours, determines risk patterns and identifies potential threats. Real-time alerts are sent to the parent portal where experts in childhood internet safety provide research backed insights, education and resources to support children and their families as they learn to safely navigate the internet.

Frugl Grocery (**FG**), a grocery comparison application that was acquired by Family Insights Group in January, has been undergoing redevelopment in readiness for a re-launch in F20. The consumer-facing comparison engine will not only allow families and other shoppers to find the best prices across major supermarket retailers for the weekly shopping basket, but will introduce tools to help shoppers optimise their shopping lists for health and wellness, incorporating allergens, ingredients and nutritional value into profile based alerts and warnings.

### OPERATIONS UPDATE

On 4 July 2018, the Company entered into an Affiliate Heads of Agreement with SkoolBag (**SkoolBag**) (a subsidiary of ASX listed entity MOQ Limited) in support of its child protection software, Family Insights.

SkoolBag is Australia's leading school communication platform, used by over 2,700 primary and secondary schools nationally to update over 1 million parents. Its offering includes a mobile app for schools to communicate with parents, white labelled school websites, and eNewsletter distribution to parents.

The Company announced the appointment of Mr Mathew Walker as a Director of the Company on 9 July 2018. Mr Walker is a businessman and entrepreneur with extensive experience in the management of public and private companies, corporate governance and in the provision of corporate advice. In a management career spanning three decades, Mr Walker has served as executive Chairman or Managing Director for public companies with operations in North America, South America, Africa, Eastern Europe, Australia and Asia.

On 17 September 2018, the Company announced the successful lodgement of the Company's Research & Development Claim for a refundable offset under the Federal Government's

Research Development Tax Incentive Scheme for the amount of \$1.2 million (**R&D Refund**). The Company received its R&D Refund on 22 October 2018.

It was announced by the Company on 20 September 2018 that the Company had commenced public beta testing ahead of the major re-launch and renaming of its family cyber safety software suite, Family Insights.

The Company announced on 17 October 2018 it had successfully launched a major update to its Family Insights cyber safety platform on the Apple App Store, following a major usability review and redesign project.

Following the Company announcement on 17 October 2019 of the successful relaunch on the Apple Store, the Company announced the successful relaunch on the Android App Store on 24 October 2019.

On 30 October 2018, the Company announced it had entered into an agreement to acquire Frugl Group Limited (**Frugl**) with a combination of cash and equity consideration. Frugl is a grocery price comparison platform with advanced analytics capabilities, that collects and process numerous data streams including behavioural shopper and browsing data, in real time, across any device. Frugl provides shoppers with up-to-date products, promotions and pricing information to find the lowest price each week across Australia's leading supermarkets. Settlement of the acquisition of Frugl occurred on 22 January 2019.

The Company announced on 14 December 2018 the upcoming global launch of a ground-breaking educational book for parents in support of its cyber safety software platform Family Insights. Written by the Company's education team lead by cyber-safety expert Robyn Treyvaud, the book offers crucial guidance to families for the digital safety and wellbeing of their children as they become further immersed in the internet.

A Company Update was announced on 9 April 2019, which provided the market with an update on Company operations, parental control platform Family Insights, and development and deployment of its grocery comparison engine Frugl.

Accompanying this announcement was the appointment of Alistair McCall to the position of Chief Data Officer (**CDO**). Mr McCall is a data professional with almost two decades of experience across the retail, advertising, telecommunications and leisure industries. He has been responsible for realising the full commercial value of data assets for major brands including several years within the Woolworths Group as Head of Customer Management and most recently with Australia's leading data agency MercerBell as Director of Data Strategy.

On 26 April 2019, the Company announced the launch of a new schools-based digital wellbeing initiative in support of its parental control platform Family Insights. The Company had reached agreement to launch a Digital Wellbeing initiative for all parents of the St Bernardine's School Regents Park (Qld).

Being offered and driven by the St Bernardine's Parents and Friends Association on behalf of all parents of the schools 700+ children, the initiative provides a comprehensive parental awareness and education program as well as access to and use of Family Insights cyber safety platform at scale over the course of the 2019 school year.

## FINANCIAL UPDATE

On 17 September 2018, the Company announced the successful lodgement of the Company's Research & Development Claim for a refundable offset under the Federal Government's Research Development Tax Incentive Scheme for the amount of \$1.2 million.

The Company announced on 22 October 2018 it had received a total \$1,215,315 as a R&D Refund.

## CHANGES TO SECURITIES

The Company announced the Shortfall Placement had closed fully subscribed on 26 July 2018. The Shortfall Placement raised \$2,545,953 (before costs) through the issue of 848,650,970 pre-consolidated fully paid ordinary shares at a price of \$0.003 per share.

On 31 August 2018, the following three classes of unlisted options expired unexercised:

# NOTES TO THE FINANCIAL STATEMENTS

for the financial year ended 30 June 2019

## 1. GENERAL INFORMATION

Family Insights Group Limited (the Company and controlled entities) is a limited company incorporated in Australia. The principal activity in the course of the financial year was the development, compliance and commercialisation of the Family Insights Application and the Frugl Website.

## 2. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

These unaudited preliminary consolidated financial statements are general purpose financial statements which have been prepared in accordance with the *Corporations Act 2001*, Accounting Standards and Interpretations, and comply with other requirements of the law.

The financial statements comprise the unaudited preliminary consolidated financial statements of the Company and its controlled entities (collectively the Group).

The financial statements were authorised for issue by the directors on 30 August 2019.

### 2.1. BASIS OF PREPARATION

The financial statements comprise the unaudited preliminary consolidated financial statements of the Group. For the purposes of preparing the unaudited preliminary consolidated financial statements, the Group is a for-profit entity. Material accounting policies adopted in the preparation of these financial statements are presented below. They have been consistently applied unless otherwise stated.

#### 2.1.1. Statement of compliance

These financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (**AASB**) and International Financial Reporting Standards (**IFRS**) as issued by the International Accounting Standards Board (**IASB**), and the *Corporations Act 2001* (Cth).

Australian Accounting Board Standards (**AASBs**) set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. Compliance with AASBs ensures that the financial statements and notes also comply with IFRS as issued by the IASB.

#### 2.1.2. Financial position

The Directors have reviewed the business outlook and cash flow forecasts and are of the opinion that the use of the going concern basis of accounting is appropriate as the Directors believe the Group will be able to pay its debts as and when they fall due.

The financial statements are normally prepared on the assumption that the Group is a going concern and will continue in operation for the foreseeable future. Hence, it is assumed that the Group has neither the intention nor the need to liquidate or curtail materially the scale of its operations; if such an intention or need exists, the financial statements may have to be prepared on a different basis, and, if so, the basis used is disclosed.

The Statement of Comprehensive Income shows the Group incurred a net loss of \$(2,494,291) (2018: \$6,004,172) during the year ended 30 June 2019 which included a reversal of impairment to capitalised development expenditure of \$542,081.

The Statement of Financial Position as at 30 June 2019 shows that the Company had cash and cash equivalents of \$192,653 (30 June 2018: \$288,197) and a net current liability position of \$241,008 (30 June 2018: \$349,004 net current liability).

Under the Research and Development Tax Incentive Scheme, the Company is eligible to receive a cash rebate of up to 43.5% of the Group's development expenditure. Previous cash rebates for the years ended 30 June 2016, 30 June 2017 and 30 June 2018 have been \$739,870, \$1,198,899 and \$1,215,315, respectively. The Company is expecting to receive a refund for the 30 June 2019 year within this range.

The board has reviewed the Group's financial position and forecast cash flows and have assessed that the Group will be required to raise additional funds by way of issuing equity or other alternative funding arrangements.

The directors reasonably expect that the Group will be able to meet future costs associated with its operating and development activities for at least the next 12 months. The directors are therefore of the opinion that the use of the going concern basis is appropriate in the circumstances.

Should the Group not be successful in obtaining adequate funding, there is material uncertainty as to the ability of the Group to continue as a going concern and it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business and at amounts different to those stated in the financial statements. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount of liabilities that might result should the group be unable to continue as a going concern and meet its debts as and when they fall due.

### 2.1.3. Use of estimates and judgments

The preparation of unaudited preliminary consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. These estimates and associated assumptions are based on historical experience and various factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

## 2.2. PRINCIPLES OF CONSOLIDATION

As at reporting date, the assets and liabilities of all controlled entities have been incorporated into the unaudited preliminary consolidated financial statements as well as their results for the year then ended. Where controlled entities have entered (left) the Consolidated Group during the year, their operating results have been included (excluded) from the date control was obtained (ceased).

### 2.2.1. Business combinations

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. Control exists when the Group is exposed, or has rights, to variable returns from its involvement with another entity and has the ability to affect those returns through its power over the entity.

The Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
  - the recognised amount of any non-controlling interests in the acquisition; plus
  - if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree;
- less**
- the net recognised amount of the identifiable assets acquired, and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss. The consideration transferred does not include amounts related to settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Costs related to the acquisition, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

Any contingent consideration payable is recognised at fair value at the acquisition date. If the contingent consideration is classified as equity, it is not remeasured, and settlement is accounted for within equity. Otherwise, subsequent changes to the fair value of the contingent consideration are recognised in profit or loss.

### 2.2.2. Subsidiaries

Subsidiaries are entities controlled by the Company. The financial statements of subsidiaries are included in the unaudited preliminary consolidated financial statements from the date that control commences until the date that control ceases.

The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Company. Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

### 2.2.3. Loss of control

Upon the loss of control, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date control is lost. Subsequently it is accounted for as an equity-accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

### 2.2.4. Transactions eliminated on consolidation

All intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the unaudited preliminary consolidated financial statements.

## 2.2.5. Foreign currency transactions and balances

### *Functional and presentation currency*

The functional currency of each of the Group's entities is measured using the currency of the primary economic environment in which that entity operates. The unaudited preliminary consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

### *Transaction and balances*

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the profit or loss except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised directly in other comprehensive income to the extent that the gain or loss is directly recognised in other comprehensive income, otherwise the exchange difference is recognised in the profit or loss.

### *Group companies and foreign operations*

The financial results and position of foreign operations whose functional currency is different from the Group's presentation currency are translated as follows:

- assets and liabilities are translated at year-end exchange rates prevailing at that reporting date;
- income and expenses are translated at average exchange rates for the period; and
- retained earnings are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations are transferred directly to the Group's foreign currency translation reserve in the statement of financial position. These differences are recognised in the profit or loss in the period in which the operation is disposed.

## 2.3. SEGMENT REPORTING

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' results are regularly reviewed by the Group's Managing Director to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

In relation to the current organisational structure of Family Insights Group Limited and its consolidated entities, funding requirements at subsidiary level are supported through intercompany loans from the parent company. Funds transferred to the Australian based subsidiary company (Wangle Operations Pty Ltd) are in accordance with the operation budget of the Group.

The operation budget has been prepared in consultation with the board of directors and key management personal. Funds are sent through a cash call process which complements the operation budget. Expenditure incurred at subsidiary level is primarily development costs associated with the Family Insights App Wangle App and as a result expenditure is capitalised.

During the period, \$285,814 was recognised as a provision for impairment on the intellectual property and capitalised development costs. This was based on a conservative review of the recoverable value of the relevant assets using a value-in-use model. Based on a 5-year present value net cash flow, the asset was deemed to have a carrying value of approximately nil as at 30 June 2018. Therefore, a full impairment has been recognised.

## 9. BUSINESS COMBINATION

### ACQUISITION COMBINATION AND ACQUISITION OF NON-CONTROLLING INTERESTS

#### ACQUISITIONS IN 2019

##### ACQUISITION OF FRUGL GROUP LIMITED

On 22 January 2019, the Group acquired 95.71% of the voting shares of Frugl Group Limited, a non-listed company based in Perth, Australia. Frugl is a grocery price comparison platform with advanced analytics capabilities, that collects and process numerous data streams including behavioural shopper and browsing data, in real time, across any device. Frugl provides shoppers with up-to-date products, promotions and pricing information to find the lowest price each week across Australia's leading supermarkets.

The Group has elected to measure the non-controlling interest in the acquiree at fair value.
