Half Year FY20 Highlights (unaudited)

- 1H FY20 **Total Operating Revenues** of **\$6.8m, up 45%** versus 2H FY19. The increase in revenue was driven by strong organic growth and recognition of the Beonic revenues (acquisition completed 9 July, 2019)
- Half year FY20 **Recurring Revenues** of **\$4.4m, up 92%** versus 1HFY19
- Skyfii expects to deliver a **1H FY20 Operating EBITDA** of **c.\$0.8m, up 100%** on 2HFY19 based on unaudited financial numbers.

Commenting on the December quarter results, Skyfii CEO and Managing Director Wayne Arthur said:

"Skyfii continues to deliver strong and consistent quarter on quarter revenue growth. The December quarter marks the Company's 6th consecutive quarter of recurring revenue growth of >10% quarter on quarter, with our annualised recurring revenue run rate now at \$10m.

We have continued to attract top tier talent, recently hiring a Chief Marketing Officer and VP of Channel and Strategic Alliances, with both roles based in our largest market opportunity, North America.

In addition we are very pleased with both the performance of the Beonic business, following the acquisition completed on the 9th July 2019, which is providing a strong contribution to the business at both the topline and recurring revenue lines, in addition to generating a significant pipeline of new opportunities for Skyfii globally."

Types of revenues generated by the Skyfii business model:

1. **Recurring Revenues** are generated from ongoing subscription fees for access to Skyfii's 'IO' data intelligence platform
2. **Services Revenues** are generated from the payment of projects undertaken by both Skyfii's Data Consultancy Services (DCS) and Marketing Services (MS) divisions. Revenues generated from Services are received as either recurring or fixed fee projects
3. **Non-recurring Revenues** are generated from deployment of hardware and infrastructure, implementations and upfront setup fees, which underpin recurring revenues including: Installation of Wireless Access Points, 2D and 3D cameras and People Counting sensors

Cash position

As at 31 December 2019, the Company maintained a cash position of \$3.74m, up from \$1.09m at the end of the previous quarter (ending 30 September 2019).

The Company expects to maintain a strong cash balance in the coming quarters, whilst investing for growth.

On 11 December 2019, SKF placed 15 million new shares to institutional investors, raising gross proceeds of \$2.25m. The shares were placed at \$0.15/share representing a 9% discount to the last traded price pre-placement of \$0.165/share. The funds from the placement will enable the company to;

- Scale up and execute on its overseas growth opportunities more efficiently
- Increase the size of its business development and marketing team to focus on lead generation efforts, particularly within our international markets
- Meet the increased working capital requirements for the Company as it continues to expand its product and services offering and its growth trajectory

Continued Investment in International Growth

Post quarter end the Company made two high profile hires based in the USA. We have welcomed Patricia Rilling onboard as the new VP of Channel & Strategic Alliances. Trish was formerly the global head of Ruckus Partner Alliances program and will lead and manage Skyfii's global partner program with a focus on growth through our strategic partners.

In addition, we welcome Jason Weaver to the business in the role of Chief Marketing Officer. Jason has successfully built and exited several of his own Marketing technology companies and will be focussed on driving our marketing strategy with a particular focus on building further awareness, increasing lead generation and adoption for our products and services in all markets.

Signed contracts announced during the quarter

ISPT (Australia)

Three-year Master Services Agreement signed with leading Australian Property Trust ISPT. The contract includes the provision of Skyfii IO Platform services (SaaS) including IO Connect (Guest WiFi) and IO Insight (data analytics) across 31 retail shopping centres and commercial office towers Australia wide. ISPT is a leading Australian commercial, retail, logistics, warehousing and residential property investor and developer.

Notable international contracts signed during the quarter

During the period the Company secured a range of new contract wins across a range of geographies and sectors. The below are a selection of the more notable contract wins secured in our International markets:

Macerich (USA)

Skyfii successfully concluded a Master Services Agreement with Macerich, one of America's largest operators of retail real estate. Macerich currently owns and operates 47 commercial real estate properties across the USA.

In December 2019, Skyfii deployed its IO Connect (Guest Wifi) services across 15 Macerich shopping centres on an initial 12 month contract term, with the opportunity to extend the services across the balance of the portfolio, with the potential for additional Skyfii services to be added.

TJ Morris (UK)

Skyfii has commenced rolling out its IO Connect (Guest Wifi) services into UK retailer TJ Morris in collaboration with a UK reseller. The contract is for an initial three-year term with a planned deployment across +500 stores.

BetFred (UK)

BetFred is a UK gambling company operating +1500 high street stores across the UK. Skyfii has commenced a roll-out across an initial 100 stores deploying its IO Connect (Guest Wifi) services on an initial three year term and will continue further roll-out during calendar year 2020.

30 January 2020

El Dorado (USA)

Skyfii successfully signed a Master Services Agreement with El Dorado Furniture, a leading large format furniture retailer in the USA. The Company has agreed to an initial 1 year term for its IO Connect (Guest Wifi) & IO Insight (analytics) services across 13 retail furniture outlets.

Outlook

The strong first half financial and operating results have positioned Skyfii to deliver another record result for the FY20 full year.

In addition to a continued focus on growing both the Topline and Recurring Revenues, the Company aims to continue to maintain its positive EBITDA position for the full year. The international markets pipeline presents a substantial conversion opportunity and the Company will continue to invest into its operating model to sufficiently deliver on these opportunities.

Furthermore, the Company will continue to build out its product offering to deliver more value to its existing client base. The inclusion of new data sources, such as those now core services from Beonic, provide a clear competitive advantage and increase the opportunity to sell additional products and services to our current and prospective customer base.

Key areas of focus for Skyfii for the remainder of FY20 include:

- Conversion of key contracts within our International markets, which will drive an increased level of revenue contribution to The Company for FY20
- Maintain strong growth in topline and recurring revenues for the full year FY20
- Focus on cash management and maintaining positive EBITDA growth
- Continue to increase the number of datasets represented in the IO platform to provide further growth within existing customer accounts
- Further build out our global partner ecosystem to accelerate growth opportunities and unlock new markets

About Skyfii

As the world's most trusted omnidata intelligence company, Skyfii collects and analyses billions of data points each month from a range of venue types across five continents.

Our SaaS cloud-based solution, the IO Platform, helps venues visualise, measure, predict, and influence customer behaviour, creating better experiences for their visitors and customers.

The IO Platform provides location and behaviour based communications software and tools to manage guest Wi-Fi, 2D and 3D cameras, people counting technology, weather and social media data across multiple locations.

Skyfii further augments insights generated by the IO Platform with its Data & Marketing Services offering: a team of data science and marketing consultants who help clients effectively gain more value from their data.
