Appendix 4E and Commentary for FY 2019

Strong growth in key metrics as OpenLearning successfully transitions to SaaS business model

Financial Highlights (all financial amounts are in AUD unless otherwise stated)

- 90.5% year-on-year (YoY) increase in accrued SaaS revenue to \$723k
- 77% YoY increase in annualised recurring revenue (ARR)¹ to \$944k at the end of FY19
- 170% YoY increase in B2B SaaS clients to 62 at the end of FY19
- 2.8% YoY increase in gross sales to \$1.94m, while successfully transitioning to SaaS model
- 20.36% YoY increase in cash receipts to \$2.24m
- Strong cash position at end of FY19 of \$7.74m

Business Highlights:

- Completed transition to a SaaS business model, successfully restructured to invest in sales/marketing and listing on ASX in December 2019
- SaaS revenue is now the Company's largest revenue stream, accounting for 37% of gross sales
- Company's growth strategy as outlined in prospectus is fully funded
- Expansion of sales and marketing teams underway, strong pipeline of quality clients with a number of opportunities progressing through the sales process

Sydney, Australia, February 28, 2020: Higher education software as a service (SaaS) company **OpenLearning Limited** ('OpenLearning' or 'the Company') is pleased to provide its Appendix 4E preliminary annual financial statements for the year ended 31 December 2019 (FY19), along with the following update. The Company's fiscal year coincides with the calendar year.

As of the end of FY19, OpenLearning has had over 2.54 million enrolments from 1.74 million registered learners across 7,900 courses provided by 62 education providers, making it one of the world's largest online education platforms.

OpenLearning is pleased to report that it completed its transition to a SaaS business in FY19. As a result of a restructure carried out in Q3 19, the Company was able to reduce operational cash burn and operating costs in Q4 19. This provided a strong tailwind to the Company's FY19 results.

In FY19, the Company's sales increased by 2.8% YoY to \$1.94m with operating cash receipts increasing 20.36% to \$2.24m. A strong result considering the Company's change to a scalable plug and play SaaS business model and less on one-off transactional services. The Company achieved a 90.5% YoY increase in high margin SaaS fees, which accounted for 37% of gross sales. The Company's underlying loss after tax (excludes non-cash expenses and costs of the IPO) for FY19 increased 2.1% YoY to \$4.40m from \$4.31m. OpenLearning had cash at bank of \$7.74m at 31 December 2019.

¹ Annualised recurring SaaS revenue, calculated by utilising the generally accepted industry standard, which involves multiplying the monthly accrued SaaS revenue in the month at the end of the quarter by 12 (months). The ARR calculation does not take into account the future expiry of the term of any contract under which SaaS revenue is generated or any customer lost during the relevant month.

Sales from the Company's online marketplace, which includes fees paid by learners through the OpenLearning platform, increased 108% YoY to \$586k, driven by an increase in utilisation of the platform by education providers to deliver professional development courses to fee-paying learners.

In line with the Company's transition to a B2B SaaS model for education providers and its shift away from professional services in Southeast Asia, sales from the Company's learning services division declined to \$632k.

Solid growth in annualised recurring revenue and customer acquisition

As previously announced, OpenLearning ended the year strongly, with ARR increasing by 77% YoY to \$944k as a result of new B2B SaaS clients being onboarded in the quarter and an increase in usage (learners taking courses on the platform) amongst existing clients.

The following charts show the growth in B2B SaaS Customers, SaaS annualised recurring revenue (ARR), cumulative unique users, and cumulative enrolments over the past seven quarters.

Images 1 - 4 : B2B SaaS Customers, SaaS ARR, Cumulative Unique Users, and Cumulative Enrolments Growth, June 2018 – December 2019

OpenLearning has a strong and advanced pipeline of potential clients in Australia and Malaysia with a number of additional clients already secured and more expected in the near term.

Successful listing on the ASX

OpenLearning commenced trading on the Australian Securities Exchange (ASX) under the ticker code 'OLL' on December 12 following an oversubscribed Initial Public Offering (IPO).

The IPO attracted significant interest, receiving applications from investors well in excess of the maximum raise of \$8 million, including a strategic investment of \$1 million from the Australian Catholic University.

The funds raised from the IPO are being utilised to accelerate sales and marketing activities to universities and other higher education providers in Australia and Malaysia. In addition, the Company is investing in initiatives to increase brand awareness, ensuring that the OpenLearning platform remains cutting edge and is able to attract education providers from outside its target markets.

Strong sector tailwinds

The Company is seeing increased demand and is in discussions with a number of higher education providers to design and deliver both non-accredited and accredited courses online as a result of recent disruptions in the higher education sector that have prevented a substantial number of international students from entering Australia before the start of the 2020 academic year.

Additionally, the potential impact on higher education providers' revenue from a potential decline in international students has led to renewed interest in diversifying their sources of revenue by offering short courses and micro-credentials to working professionals.

OpenLearning is well placed to support higher education providers as they explore online learning as a means of delivering both accredited and non-accredited courses domestically in Australia, mainland China and around the world.

OpenLearning Group CEO & Managing Director Adam Brimo said: "FY19 was a transformative year for OpenLearning with fundamental changes to our business model, operations and corporate structure. I'm grateful for the support of our team and shareholders as we've executed our strategy, which positions the business very well for continued growth well into the future. The Company's growth strategy for FY20 is fully funded and we are seeing strong tailwinds in the higher education sector. We have a robust pipeline of potential clients in our target markets and are focused on growing SaaS revenue while managing costs appropriately to deliver a sustainable and scalable business."

Commentary on the Results for the Period

Results for financial year 2019 ("FY2019"):

- gross sales of \$1,940,762, an increase of 2.8% year-on-year ("y-o-y");
- revenue of \$1,602,613, a decline of (9.2)% y-o-y;
- underlying loss after tax of \$(4,398,704), no significant change y-o-y;
- statutory loss after tax of \$(7,719,951), an increase in losses of 75.8% y-o-y.

Revenue for FY2019 declined by (9.2)% compared to the comparative FY2018 to \$1,602,613 due to the decline in Services sales. In July 2019, the Company restructured its operations in Australia and Malaysia to focus on growing Platform SaaS revenue by expanding its sales, marketing and customer success teams, and significantly reducing the headcount of its Services division by no longer offering learning design services in Malaysia and reducing the scope of its Services division in Australia. This change in strategy resulted in a decline in Services revenue in FY 2019 as compared to FY 2018 but led to strong growth in Platform SaaS and Marketplace sales, which grew by 91% and 108% respectively y-o-y.

Gross sales for FY2019 increased by 2.8% y-o-y, despite the reduction in Services sales, due to strong growth in Platform SaaS and Marketplace sales.

Statutory net loss for FY2019 increased 75.8% y-o-y to \$(7,719,951) due to incurrence of the following major cost elements:

- operating costs to increase market share in the online education space;
- costs related to rationalisation exercise;
- costs related to pre-IPO and IPO expenses.

There was no significant change y-o-y in the underlying loss after tax for FY2019 at \$(4,398,704). A reconciliation of statutory loss to underlying loss is appended below.

	2019 \$	2018 \$
Underlying loss after tax	(4,398,704)	(4,313,610)

Control Gained or Lost over Entities in the Year

The Group undertook the transactions described below in FY2019 as part of a corporate reorganisation to facilitate the listing of the Company on the ASX.

The Company acquired the entire issued and paid-up share capital of OLG Australia Investors Pte Ltd ("OLGAI") from all its shareholders ("OLGAI Shareholders") via the entry and execution of a share exchange agreement made between the OLGAI Shareholders and the Company ("OLGAI Share Exchange Agreement").

OLGAI together with a group of minority shareholders ("OLGSG Minority Shareholders") owns the entire issued and paid-up share capital of OpenLearning Global Pte Ltd ("OLGSG"). OLGSG in turn owns the entire issued and paid-up share capital in Open Learning Global Pty Ltd ("OLGAU") and OpenLearning Global (M) Sdn Bhd ("OLGMY"). OLGAU and OLGMY are the operating subsidiaries of the Group providing a cloud-based social learning platform, learning design services and sale of education courses through a global marketplace.

The Company, together with the execution of the OLGAI Share Exchange Agreement, also acquired the entire issued and paid-up share capital of OLGSG via the entry and execution of a share exchange agreement made between the OLGSG Minority Shareholders and the Company ("OLGSG Share Exchange Agreement").

Pursuant to the OLGAI Share Exchange Agreement and the OLGSG Share Exchange Agreement (collectively, the "Group Share Exchange Agreements"), both the OLGAI Shareholders and the OLGSG Minority Shareholders sold and transferred all their respective shares in OLGAI and OLGSG to the Company in exchange for the Company allotting to each of the OLGAI Shareholders and OLGSG Minority Shareholders new shares in the Company representing all the issued and paid-up shares of the Company.

Following the completion of the Group Share Exchange Agreements, the Company further issued shares (i) pursuant to conversion of convertible notes, (ii) to advisors and a director for services rendered and (iii) for the initial public offering of shares on the ASX.

Following the completion of the Group Share Exchange Agreements, the Company held the following subsidiaries as at 31 December 2019:

1. Corporate Reorganisation

The Group undertook the transactions described below in FY2019 as part of a corporate reorganisation to facilitate the listing of the Company on the ASX.

The Company acquired the entire issued and paid-up share capital of OLG Australia Investors Pte Ltd (“OLGAI”) from all its shareholders (“OLGAI Shareholders”) via the entry and execution of a share exchange agreement made between the OLGAI Shareholders and the Company (“OLGAI Share Exchange Agreement”).

OLGAI together with a group of minority shareholders (“OLGSG Minority Shareholders”) owns the entire issued and paid-up share capital of OpenLearning Global Pte Ltd (“OLGSG”). OLGSG in turn owns the entire issued and paid-up share capital in Open Learning Global Pty Ltd (“OLGAU”) and OpenLearning Global (M) Sdn Bhd (“OLGMY”). OLGAU and OLGMY are the operating subsidiaries of the Group providing a cloud-based social learning platform, learning design services and sale of education courses through a global marketplace.

The Company, together with the execution of the OLGAI Share Exchange Agreement, also acquired the entire issued and paid-up share capital of OLGSG via the entry and execution of a share exchange agreement made between the OLGSG Minority Shareholders and the Company (“OLGSG Share Exchange Agreement”).

Pursuant to the OLGAI Share Exchange Agreement and the OLGSG Share Exchange Agreement (collectively, the “Group Share Exchange Agreements”), both the OLGAI Shareholders and the OLGSG Minority Shareholders sold and transferred all their respective shares in OLGAI and OLGSG to the Company in exchange for the Company allotting to each of the OLGAI Shareholders and OLGSG Minority Shareholders new shares in the Company representing all the issued and paid-up shares of the Company.

Following the completion of the Group Share Exchange Agreements, the Company further issued shares (i) pursuant to conversion of convertible notes, (ii) to advisors and a director for services rendered and (iii) for the initial public offering of shares on the ASX.

The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

2.2 *Going concern*

The financial statements have been prepared on the going concern basis which assumes the Company and the Group will have sufficient cash to pay its debts, as and when they become payable, for a period of at least 12 months from the date the financial report was authorised for issue.

The successful listing of the Company on the ASX on 12 December 2019 raised total proceeds of \$8.0 million for the Group.

The Company believes that the proceeds raised from the IPO, together with the on-going sales collection, will enable the continuation of its business. Therefore, the financial statements do not include adjustments relating to the recoverability and classification of recorded asset amounts, nor to the amounts and classification of liabilities that might be necessary should the Company and the Group not continue as going concerns.

2.3 *Principles of consolidation*

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at the end of the reporting period. The financial statements of the subsidiaries used in the preparation of the consolidated financial statements are prepared for the same reporting date as the Company. Consistent accounting policies are applied for like transactions and events in similar circumstances.

All intra-group balances, income and expenses and unrealised gains or losses resulting from intra-group transactions are eliminated in full.

The consolidated financial statements have been prepared in accordance with the pooling of interest method as the Group is a continuation of the existing business of OpenLearning Global Pte Ltd and its subsidiaries. The assets and liabilities of the combining entities are reflected at their carrying amounts as reported in the consolidated financial statements. Any difference between the consideration paid/transferred and the equity acquired is reflected within equity as merger reserve. The consolidated income statements and consolidated statements of comprehensive income reflect the results of the combining entities for the entire periods under review, irrespective of when the combination took place. Apart from the above, subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

2 Summary of significant accounting policies (cont'd)

2.4 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is made. Revenue is measured at the fair value of consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty. The following specific recognition criteria must also be met before revenue is recognised:

(a) Platform SaaS fees

Revenue from platform SaaS fees is recognised over the period during which customers are granted access to the platform.

(b) Marketplace sales

Revenue from marketplace sales is recognised when customers subscribe for the courses and the course is delivered. For courses sold on behalf of third parties, revenue is recognised based on revenue sharing arrangements.

(c) Services sales

Revenue from the provision of services is recognised by reference to the stage of completion of the transaction at the end of the reporting period and where outcome of the contract can be estimated reliably. Stage of completion is determined with reference to the services performed to date as a percentage of total anticipated services to be performed. Where the outcome cannot be estimated reliably, revenue is recognised only to the extent that related expenditure is recoverable.

Platform SaaS fees and Services sold to customers in advance, which are yet to be utilised, are recognised initially in the balance sheet as deferred income and released to revenue in line with the above recognition criteria.

2.5 New and Amended Accounting Policies Adopted by the Group

Initial application of AASB 16

The Group has adopted AASB 16: *Leases* retrospectively with the cumulative effect of initially applying AASB 16 recognised at 1 January 2019. In accordance with AASB 16, the comparatives for the 2018 reporting period have not been restated.

The Group has recognised a lease liability and right-of-use asset for all leases (with the exception of short-term and low-value leases) recognised as operating leases under AASB 117: *Leases* where the Group is the lessee.

The lease liabilities are measured at the present value of the remaining lease payments. The Group adopted a discount rate of 2.0% p.a. to discount the lease payments.

The right-of-use assets for the Group's leases were measured and recognised in the statement of financial position as at 1 January 2019 by taking into consideration the lease liability and prepaid and accrued lease payments previously recognised as at 1 January 2019 (that are related to the lease).
