**Resource Base Limited**  
**Directors' report**  
**31 December 2019**

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity') consisting of Resource Base Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 31 December 2019.

**Directors**

The following persons were directors of Resource Base Limited during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

Peter Kelliher  
Angelo Siciliano  
Michael Kennedy

**Principal activities**

During the financial half-year the principal continuing activities of the consolidated entity consisted of:

- assessment of exploration and commercial opportunities to leverage off Resource Base's existing assets.

**Review of operations**

The loss for the consolidated entity after providing for income tax amounted to \$481,953 (31 December 2018: \$340,445).

During the period, shares in the company continued to be suspended from trading on the ASX.

Discussions continued with various parties concerning the potential to utilise the idled Broula King processing site. These parties have mineral deposits within reasonable trucking distance of the Broula King site, and have potential to accelerate development by utilising the existing facilities at Broula King.

The most advanced of these discussions concerns the nearby (12 km) magnetite deposit previously operated by Abterra Australia Pty Ltd (in administration). Discussions with the administrator, and the various regulatory authorities, have defined the way forward, including meeting the regulatory requirements.

The company completed a programme of exploration work on its Exploration Licence 8509 during the period. EL 8509 covers an area of approx. 140 km<sup>2</sup>, and encompasses the Mining Lease at Broula King (M.L 1617) and the Mining Lease containing the magnetite deposit (M.L 1616) cited above. The work programme was undertaken by a specialist exploration company, Rangott Mineral exploration Pty Ltd, who are well acquainted with the regional geological setting.

Exploration work carried out included landholder liaison and access negotiations, review of previous exploration reports and analysis of historic geological data, and field work incorporating geological reconnaissance and rock chip geochemical sampling. Final analytical results from various of the samples are awaited.

In addition to focus on properties that are located reasonably proximate to the Broula King site, discussions have also been held with parties in respect of prospects located elsewhere around Australia. In particular, approaches have been received in respect of mineral exploration opportunities, and especially gold bearing prospects. This reflects the continued high A\$ gold price, and the general high level of corporate activity throughout the gold sector. The company continues to investigate all opportunities.

**Significant changes in the state of affairs**

There were no significant changes in the state of affairs of the consolidated entity during the financial half-year.

**Auditor's independence declaration**

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 4.

**Resource Base Limited**  
**Directors' report**  
**31 December 2019**

This report is made in accordance with a resolution of directors, pursuant to section 306(3)(a) of the Corporations Act 2001.

**Note 1. General information**

The financial statements cover Resource Base Limited as a consolidated entity consisting of Resource Base Limited and the entities it controlled at the end of, or during, the half-year. The financial statements are presented in Australian dollars, which is Resource Base Limited's functional and presentation currency.

Resource Base Limited is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is:

Unit 1B, 205-207 Johnston Street  
Fitzroy VIC 3065

A description of the nature of the consolidated entity's operations and its principal activities are included in the directors' report, which is not part of the financial statements.

The financial statements were authorised for issue, in accordance with a resolution of directors, on 13 March 2020.

**Note 2. Significant accounting policies**

These general purpose financial statements for the interim half-year reporting period ended 31 December 2019 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2019 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

**New or amended Accounting Standards and Interpretations adopted**

The consolidated entity has adopted all of the new, revised or amending Australian Accounting Standards (AASs) and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the consolidated entity.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

**Going concern**

The consolidated financial report has been prepared on a going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

For the six months ended 31 December 2019, the consolidated entity incurred a loss of \$481,953 and had negative cash flows from operations \$448,391.

As at 31 December 2019 the consolidated entity had a working capital deficiency of \$3,006,314 and net asset deficiency of \$2,489,462.

These events and condition indicate that a material uncertainty exists which may cast significant doubt as to whether the consolidated entity will continue as a going concern.

The Board and management of the Company continue to evaluate new business opportunities that have potential to grow and diversify sources of production and increase shareholder wealth.

The Directors are satisfied with the consolidated entity's current financing position and are of the view that the continued application of the going concern basis of accounting is appropriate due to the following factors:

**Note 2. Significant accounting policies (continued)**

- The company has received a letter from its major shareholder, Asipac Group Pty Ltd, indicating that Asipac will provide financial support sufficient for the Company to meet its financial commitments. On 3 February 2020, the consolidated entity received an additional \$150,000 by way of loan of funding under this agreement. Refer to Note 9.;
- The Board is of the opinion that the company will be able to access equity capital markets for any additional working capital requirements;
- The consolidated entity retains the ability, if required, to wholly or in part dispose of mining plant and equipment; and
- The ability of the consolidated entity to scale back certain activities, if required.

The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or to the amounts and classification of liabilities that might be necessarily incurred should the consolidated entity not continue as a going concern.

**Note 3. Operating segments**

*Identification of reportable operating segments*

The consolidated entity is organised into one operating segment, being the assessment of exploration and commercial opportunities to leverage off Resource Base's existing assets in Australia. This operating segment is based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources.

Carrying amount at the start of the half-year	500,000
Increase in expected rehabilitation costs	<u>72,000</u>
Carrying amount at the end of the half-year	<u>572,000</u>

The increase in the provision for rehabilitation has been predominantly caused by an increase in the expected costs to restore the tailings dam at the Broula King mine site.

**Note 8. Equity - dividends**

There were no dividends paid, recommended or declared during the current or previous financial half-year.

**Note 9. Events after the reporting period**

On 3 February 2020, the consolidated entity received an additional \$150,000 by way of loan of funding from its major shareholder Asipac Group Pty Ltd to fund its immediate working capital requirements. The loan is unsecured and is repayable on 24 April 2020. Interest is payable at 12% per annum.

No other matter or circumstance has arisen since 31 December 2019 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

**31 December 2019**

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 31 December 2019 and of its performance for the financial half-year ended on that date; and
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 303(5)(a) of the Corporations Act 2001.

On behalf of the directors

## Independent Auditor's Review Report To the Members of Resource Base Limited

We have reviewed the accompanying half-year financial report of Resource Base Limited ("the consolidated entity") which comprises the consolidated statement of financial position as at 31 December 2019, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

### *Directors' Responsibility for the Half-Year Financial Report*

The directors of Resource Base Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2019 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Resource Base Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### *Independence*

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Resource Base Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

### *Material Uncertainty Related to Going Concern*

We draw attention to Note 2 to the financial statements which indicates that as at 31 December 2019 the consolidated entity's current liabilities exceeded its current assets by \$3,006,314. Also, for the half year ended 31 December 2019 the consolidated entity incurred a loss of \$481,953 and reported negative operating cash flows of \$448,391. As stated in Note 2, these conditions, along with other matters as set forth in Note 2, indicate that a material uncertainty exists which may cast significant doubt on the consolidated entity's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

### *Conclusion*

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Resource Base Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2019 and of its performance for the half-year then ended; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.
