

28 July 2020

June 2020 Quarterly Activities Report

Highlights

- Change of Name to American Rare Earths Limited (ASX: ARR)
- Focus on La Paz Rare Earth Project
- Appointment of La Paz Rare Earth CEO
- Updated NI 43-101 on La Paz Rare Earth asset

Following its market announcement made 12 March 2020 “ BPL Market Update Rare Earth Project”, American Rare Earths Limited (ASX: ARR) (formerly Broken Hill Prospecting Limited ASX: BPL) (Company) is pleased to report progress with ARR’s continued development in the USA of our Rare Earth Project at La Paz in Arizona.

Change of Name to American Rare Earths Limited (ASX: ARR)

As announced 29 June 2020, the Company has changed its name to American Rare Earths Limited (ASX: ARR). This change in name is to reflect the company’s focus on its La Paz Rare Earth tenements in Arizona, North America.

Focus on La Paz Rare Earth Project

We believe the opportunity to capitalize on growing interest by Government in the REE market is substantial, as the sector continues to evolve, and domestic supply is prioritized. The transformation of your Company from explorer to developer of a world class Rare Earth Project is our priority. Rare Earth Elements remain a key U.S strategic resource, which through its domestic development is designed to provide input for U.S based processing.

We believe that localizing the management and operations of the Company in the U.S, is an important step in ensuring the enhancement of value in the Project and your Company.

New Chief Executive Officer CEO

To progress our Rare Earth Project the company has appointed a new Chief Executive Officer, CEO, Marty Weems. Marty brings a wealth of experience to the company with startup leadership and business development skills together with a background in leading presentations for government agencies , capital raisings and investor updates, he has a Master of Science (MS) and a Masters of Business Administration (MBA), on behalf of shareholders I welcome him to the team.

American Rare Earths Limited June 2020 Quarterly Activities Report

Update on La Paz Rare Earths Activities

Significant progress has also been made with La Paz exploration under the direction of John Petersen Vice President Exploration, La Paz LLC.

The company has completed an internal analysis which reviews all previous exploration, sampling and assay data. The report brings together the most recent mapping and sampling undertaken in October 2019 through March 2020.

As announced on 27 July 2020 "[La Paz Rare Earth Project NI 43-101 Upgrade](#)", the review is completed and results validated.

The significance of this report is the identification of the various rock types within the resource area. Petrographic analysis of all samples has provided details of the most prolific mineralized rocks containing Rare Earth Elements (REE) and Scandium which also resides within the mineralized zones.

Now with a better understanding of the genesis of the REE's together with the contained Scandium the resource geologists are producing 3D models which will provide a pathway to the next steps in planning Reverse Circulation Drill targets to further define the resource within the expanded La Paz mineralized system.

In the previous quarter, a trenching program was conducted between the 2 mineralization zones which have been divided by alluvium. The purpose of the trenching was to reach bedrock from which more samples could be taken and to identify the underlying rock types. Pending assay returns, the initial identification of rock types shows the potential of linking the original resource to the new expanded locations. Further work is being undertaken to support the belief that the two zones are in fact one very large mineralized system which significantly adds to the La Paz footprint.

Update on Australian Tenements Activities

Following our strategic review, during the June 2020 quarter, the Company rationalised its Murray Basin tenement holdings - to focus on our North American rare earth elements holdings.

The Company's Arizona mining claims (AMCs) and Broken Hill region tenements have not changed.

The following NSW, Murray Basin tenements have been relinquished: EL 8558, EL 8559, EL 8649, EL 8650 and EL 006139.

Update on Corporate Activities

During the quarter, a number of one-off costs were incurred in relation to the capital raising, the appointment of the CEO and the engagement of technical experts involved in the update and release of the NI 43-101 report. These costs are unique and not reoccurring

This market announcement has been authorized for release to the market by the Board of American Rare Earths Limited.

F Creagh O'Connor AM

Chairman

This ASX announcement refers to information extracted from the market announcements, which are available for viewing on ARR's website <https://americanrareearths.com.au>

ARR confirms it is not aware of any new information or data that materially affects the information included in the original market announcements, and, in the case of estimates of Mineral Resources, that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. BPL confirms that the form and context in which the Competent Person's findings presented have not been materially modified from the original market announcements.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
