STRATEGY

The disruption caused by COVID-19 to the education sector will be a key driver of the Company's growth going forward and is likely lead to fundamental and long-lasting changes to the higher education sector. The accelerated shift to online education is creating new opportunities for the Company, requiring a level of flexibility to ensure that the Company secures opportunities that enhance the medium to long term value of the Company.

KEY FOCUS AREAS TO ACCELERATE ITS REVENUE GROWTH:

→ Platform for delivering high quality education

The Company's focus is on growing SaaS revenue by enabling education providers to deliver quality online education through its purpose-built platform and learning services division as the medium/long term solution for education providers to move online.

→ Leader in micro-credentials and short courses

The launch of OpenCreds and the OpenCreds Investment Fund, along with the agreements that the Company has signed with Open Universities Australia, have positioned the Company to become the leader in the fast-growing and strategically important Australian micro-credential market.

→ Strategic partnerships

The Company continues to actively pursue partnerships with companies that offer complimentary products that fit into the OpenLearning ecosystem, resellers in new markets or sectors in which the Company does not currently operate and with higher education providers themselves to accelerate the development of high value courses and qualifications that have a strong business case and would create long term value for all parties.

The Board is confident in the Company's growth strategy and believes that the business has a strong platform from which to expand. The OL Group's growth initiatives are designed to support its vision to further consolidate our position as Australia's largest online education platform through leveraging its core business strengths.
