IntelliHR Best of Breed Ecosystem

intelliHR actively pursues integrations with other apps that can generate new customer leads and that position the intelliHR SaaS platform at the centre of a best-of-breed people management technology ecosphere.

- We established key integration partnership during FY20 with Zapier, Lever, GO1.com, Keypay, Job Adder and Xero
- Integrations: put intelliHR in these SaaS app marketplaces; and are a preferred distribution strategy due to lower customer acquisition costs
- Integrations enhance the value proposition for intelliHR's existing customer base as well as attracting new customers

Strategic Focus...

...upon maintaining market leading position with continued R&D investment while scaling up the operations to acquire subscribers in both existing markets and new offshore markets.

Grow Channels and Territories

- ✓ Accelerate global expansion beyond existing 25% of ARR accounted for by offshore activities
- ✓ Increase marketing investment in the Americas following the recent launch of the intelliHR Toronto Canada
- ✓ Additional sales staff to be brought on-line as required to meet growth opportunities

Execute Business Strategy

- ✓ Continue to grow domestic and international customer base, aiming to increase subscribers beyond 30,000 users
- ✓ Continue to execute new 'land and expand' business model, maintaining focus on the SME full digital transformation marketplace
- ✓ Continue focus on building out the international technology partner ecosystem and marketplace
- ✓ Continue to support the global shift to 'Work from Home', which organisations can better manage using intelliHR's platform tools for continuous feedback, performance enablement and wellness capabilities

Maintain Product Leadership

- ✓ Continue investment in developing prescriptive analytics capabilities, specifically insight generation using machine learning and artificial intelligence (AI)
- ✓ Further investment in artificial intelligence (AI) across the full intelliHR people management platform aimed at further differentiating intelliHR's product offering
- ✓ Invest further into localisation (e.g. user language preference customisation) to support expanding intelliHR's global reach

The Next Growth Cycle

...as set out 12 months ago, will see continued revenue growth in new and existing markets with further investment in both R&D and sales and marketing resources to capitalise on a large and fast-growing global market.
