The Period in Review

It has been a year of change for the Company. As outlined at last year's Annual General Meeting, the Board and management identified three key strategic initiatives to drive the turnaround of the business and the year has been highly focused on executing these initiatives.

Firstly, we rationalised the product portfolio which included the exit of the unprofitable toy distribution and apparel divisions and streamlined the business to focus on product ranges offering growth potential. These included Funtastic own branded products such as Chill Factor, confectionery including our own X-treme range of products and the Razor range of outdoor scooters. As a result of this range review, the Company announced a restructuring of the business that is now largely complete and has delivered significant reductions in the fixed cost base of the business. Further cost reduction activity has included the implementation of a new ERP system delivering process improvement, increased efficiency and additional significant costs savings. Further cost reduction initiatives are ongoing in the drive to return the business to profitability.

The second strategic initiative was to introduce new product ranges, again with strong growth potential, within Funtastic's core market of families with kids. During the year Funtastic successfully launched the Mochies range of smart watches for kids. Mochies provides a child's first mobile phone while giving parents peace of mind and confidence in their child's security. In addition to the traditional sale and distribution of product through retail channels, Mochies provides the Company with a recurring revenue stream. Other new product ranges successfully introduced during the year include the Learning Resources range of kid's educational products and a children's range of arts and crafts products.

The final strategic initiative was to seek new businesses that met strict criteria in emerging growth sectors around families with kids. As recently announced, as part of this initiative the Company is currently in discussions regarding the potential acquisition of certain businesses that align with the Company's strategic direction. If this potential transaction were to proceed, the Company may undertake a capital raising to support the potential transaction. Discussions remain ongoing and there is no certainty whether the potential transaction will proceed. The Company expects to be able to provide an update regarding the potential transaction in the coming weeks.

Highlights for the year ended 31 July 2020 include:

- Restructured product categories:
 - Exit of unprofitable product ranges
 - Focus on product ranges offering margin and growth potential
 - Introduction of new, high potential, product category with reoccurring revenue stream
- Right sizing of the business:
 - Headcount reduction aligned with refreshed product categories
 - Implementation of a new ERP system to reduce costs and improve process efficiency
 - Relentless focus on cost containment and efficiency improvements
- Continued expansion of retail footprint into specialty channels:
 - Reduced concentration in DDS
 - Growth of independent channels
 - Revenue growth via direct to consumer online channels

The Board's key strategic initiatives to improve performance include:

- Driving organic growth through the refreshed product portfolio:
 - Grow confectionery and treats business through range extensions
 - Focus Razor toward the growing kids electric scooter market
 - Continued expansion into the fast-growing kids' wearable tech product sector
 - Expand presence in learning and educational (STEM) products
 - Continue to grow international distribution of lifestyle products
 - Capitalise on the growing direct to consumer ecommerce channel
- Introducing new products:
 - Secure distribution of high margin products complementary to existing portfolios
- Seeking to own wanted brands or popular franchises in the emerging growth sectors of Families with Kids
 - Learning in a fun, engaging and educational way
 - Keeping fit and staying healthy
 - Staying safe
- Seek strategic opportunities for acquisition or merger that will deliver inorganic profit growth

The Group initiated several cost management strategies in the early stages of the COVID-19 pandemic including a reduction in Board salaries and fees, a reduction in employees hours, a cessation of travel as well as rent reductions negotiated with

the landlord. The Group qualified and received \$300,000 in government assistance to ensure that eligible staff received JobKeeper support.

On behalf of the Board I would like to take the opportunity to thank our loyal shareholders who have stood steadfastly behind the company during the past financial year and especially JASZAC Investments Pty Ltd whose loan facility enabled the Company to successfully deliver our strategic initiatives and who have played an invaluable role in the planned acquisition of the Hobby Warehouse Group. We would also like to express our sincere thanks to our valued customers, business partners, suppliers, bankers and advisors for their continued support. We especially thank the management and entire staff of Funtastic for their undivided commitment, dedication and loyalty and notably David Jackson who successfully steered the Company through a period of significant change and transformation and has left the business in a far stronger position than when he joined us. We look forward to your continued support and contribution as we continue to work together to improve the Company's performance and shareholder value moving forwards.

Audit report

While the accounts are in the process of being audited, the accounts are likely to contain an independent audit report that is subject to an emphasis of matter in relation to the material uncertainty related to going concern. The ability for the Group to continue as a going concern is dependent upon the following factors:

- Sustaining the improved financial results through normal trading and achieving budgeted results
- Implementation of strategic initiatives to drive profitable growth
- Securing additional funding either through debt, equity or a combination of both
- Continued support of creditors and customers through appropriate trading terms

The directors believe that the Group will be able to achieve the improved results and deliver the strategic initiatives and are satisfied that the Group will continue as a going concern. Accordingly, the financial report has been prepared on a going concern basis.
