

QUARTERLY ACTIVITIES REPORT FOR PERIOD ENDING 30 SEPTEMBER 2020

Triton Minerals Limited (ASX: TON) ("**Triton**" or "**the Company**") provides its activity report for the three-month period ending 30th September 2020 ("**the Quarter**").

During the quarter, the Company continued to progress its flagship Ancuabe Graphite Project ("**Ancuabe**" or "**the Project**") in North East Mozambique. The Company also completed a fully underwritten option placement that closed heavily oversubscribed, funds used will enable Triton to focus on debt financing, permitting and engineering activities at Ancuabe.

ANCUABE GRAPHITE PROJECT

Located within the established graphite region of Cabo Delgado in north eastern Mozambique, Ancuabe is closest to port of all East African graphite projects.

The Ancuabe Project is the only large scale, large flake graphite project in the region and its high-purity, large flake graphite (suited to the emerging EV and electric storage markets), commands a market price premium over smaller flake products.

Figure 1. Location of TON's Graphite Portfolio

Triton is aiming at becoming the next East African graphite producer, currently targeting production of 60,000 tonnes of high purity, large flake graphite concentrate per annum.

Late in 2019 a \$19.5 million investment by state-owned enterprise Jinan Hi Tech (“JHT”) was completed to provide financing support for the early construction activities at Ancuabe. This investment brought JHT to become TON’s major shareholder with a 34.01% interest.

The Company has signed binding offtake agreements with Tianshengda Graphite and Chenyang Graphite each for up to 16,000 tonnes of annual Ancuabe graphite concentration production, equating to over 50% of anticipated annual production from Ancuabe.

A Definitive Feasibility Study (“DFS”) (ASX December 2017) completed by Triton confirms Ancuabe to be a high quality, long life, high margin graphite project and was underpinned by a Maiden JORC Compliant Ore Reserve of 24.9Mt at 6.2% TGC that supported the DFS evaluation period of 27 years.

MCC International Incorporation Limited has been awarded the Engineering, Procurement and Construction contract for the mineral processing facility and other infrastructure at Ancuabe.

FINANCING

During the quarter, the Company progressed financing for the bulk earthworks contract. The Triton board acknowledges that the financing timeframe is beyond that previously anticipated and assures shareholders that completing financing as soon as possible remains its core focus. The Company now anticipates mobilization to site to commence construction of the raw water dam will commence in 1H 2021. In parallel to financing, senior management have been working closely with MCC International and the team mobilised by the Chairman of its largest shareholder to identify further optimisation of costs within the Ancuabe Project capital expenditure which would further enhance the project economics.

OPTION PLACEMENT

In September, the Company advised it has completed a fully underwritten placement of TONOE Options (ASX Code: TONOE) (the Offer) at \$0.002 per option. The placement closed heavily oversubscribed having received very strong support from eligible option holders. Each TONOE Option has an exercise price of \$0.10 and expires on 25 September 2021.

The 170,168,765 TONOE Options to be issued under the Offer will raise a total of \$340,337 before expenses (and not including any funds received on exercise of the TONOE Options).

Commenting on the Offer, Triton Managing Director Peter Canterbury stated:

“We are very pleased with the successful closing of the Offer and the applications received and the oversubscription demonstrates the continuing strong support from our securityholders. The funds raised under the Offer enable Triton to continue its focus on debt financing, permitting and engineering activities at our world class Ancuabe Graphite Project in Mozambique.”

CORPORATE INFORMATION

At 30 September 2020, the Company had 3,722 shareholders and 1,134,468,067 shares on issue. The top 20 shareholders held 58.47% of the issued ordinary shares. The top 20 shareholders are attached to this report.

At 30th September, the Company had cash at bank of approximately \$3.1 million. The cash at bank excludes the cash backed construction guarantee of approximately \$2.6 million lodged with INAMI in November 2019.

EXPENDITURE
