New Century Resources Limited (NCZ, New Century or the Company) (ASX:NCZ) is pleased to announce the undertaking of a ~US\$15 million (A\$20.7 million) placement (Placement) and a non-renounceable pro-rata entitlement offer for up to approximately US\$10 million (A\$14.0 million) (Entitlement Offer) (together, the Capital Raising).

The issue price of the shares to be issued under the Capital Raising (New Shares) will be A\$0.155 per share (Issue Price), representing a 6% discount to the most recent closing share price (A\$0.165 per share) and a 9% discount to the 5-day VWAP (A\$0.17 per share).

Secured Debt Reduction Profile

Over the course of 2020, the Company has been successful in progressively reducing its existing senior secured facilities (original total US\$70.9 million across Facilities A and B from Varde Partners), with ~US\$22.5 million (~32%) repaid to date. Approximately US\$48.4 million remains outstanding as per the repayment schedule in the Figure below.

The funds from the Capital Raising are intended to be used to expedite the debt repayment profile and improve the overall balance sheet of the Company, through the partial or complete retirement of Facility A (current balance US\$25.0 million), pending the uptake level of the Entitlement Offer.

In retiring Facility A, the debt balance will reduce by 67% from its original level, with a manageable repayment profile for the remaining secured debt (US\$23.5 million) over the next seven quarters of the life of Facility B (average US\$3.4 million per quarter).

While operations have delivered positive operational cashflow (A\$13.2 million adjusted EBITDA) in the September 2020 quarter, with a strong exit rate and improving macro-economic conditions, the heavy weighting of the secured debt repayment schedule to the near-term (i.e. US\$27.2 million in repayments September 2020 quarter to March 2021 quarter) represents an unsatisfactory risk to maintaining a sufficient liquidity buffer for the business to properly manage irregular shipping and invoicing cycles.

The retirement of debt therefore alleviates significant business and financial risk for New Century while also providing the opportunity for capital allocation toward exploration opportunities.

Current Secured Debt Repayment Profile

Secured Debt Repayment Profile Following Proposed Facility A Retirement

The Company notes the level of proposed debt retirement remains subject to Entitlement Offer uptake. There is no guarantee that the full amount of the Entitlement Offer will be raised.

The proposed early retirement of Facility A will assist in reducing overall interest repayments associated with the senior secured debt of up to US\$1 million, pending timing of repayments.
