ASX Announcement / Media Release

## **Quarterly Activities Report for the Quarter Ending 30 September 2020**

---

- **COVID-19 continues to adversely impact US economy**
- **Connected IO secured nearly \$400K AUD in Purchase Orders**
- **SaaS sales to start in Q2 FY2021**
- **Frontier Communications approved Connected IO's mobile back-up solution for deployment in 2021**
- **A strategic review has been commenced to explore the development of compatible Internet of Things businesses and markets outside of the USA**

The US economy continues to be adversely impacted by the COVID-19 pandemic. Connected IO's revenues have decreased due to its major customers being in a holding pattern awaiting the recovery of certain parts of the economy. In addition, Cash Receipts have been impacted by \$100K AUD in receivable invoices that were due in September but not paid until October and therefore not included in Cash Receipts for Q1 FY2021.

During the quarter, the Company secured nearly \$400K AUD in Purchase Orders, which is likely a result of pent up demand for CIO's product that the Company expects to continue increasing over the next 6 months.

During the quarter, Connected IO entered into an agreement with Grande Communications and its parent company RCN Corporation to begin offering SIM based mobile back-up solution to Grande's cable customers. The mobile back-up solution will be billed as a monthly subscription with a 1-year or 2-year service agreement. Grande and Connected IO are currently working with several other cable operators and internet service providers on similar offerings and expect to begin field trials with at least two of them in Q3 FY2021.

The Company was approved by Frontier Communications to offer SIM based mobile back-up solution to Frontier's 3.8 million broadband customers. This program is to begin in Q3 FY2021 and will be billed as a monthly subscription with a 1-year or 2-year service agreement. It is proposed that Connected IO will drop-ship the devices directly to Frontier's customers.

With the ongoing uncertainty around the continuing impact of the COVID-19 pandemic on the US economy and in particular key CIO customers, the board has commenced a strategic review to investigate opportunities to develop compatible Internet of Things businesses and markets outside of the USA.

### Quarterly Cash Flow Summary

At the end of the quarter the Company held cash of \$229,000, with \$195,000 received from customers. Operating cash outflows for the quarter were mainly associated with product manufacturing and operating costs (\$110,000), staff costs (\$205,000) and administration and corporate costs (\$135,000). The related party payments reported in Item 6.1 of the Appendix 4C relate to executive director remuneration (\$40,000) paid during the period.

### ABOUT CONNECTED IO

Connected IO Limited has its operations based in Dallas, in the USA. Its business is a wireless technology innovator and manufacturer operating in the multi-trillion-dollar “IoT” (Internet of Things) sector. 1. Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: Yes. COVID-19 continues to adversely impact the US economy. Connected IO's revenues have decreased due to its major customers being in a holding pattern awaiting the recovery of certain parts of the economy.

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Yes. The Company is currently reviewing its fundraising options to determine what is in the best interests of the Company to further fund and develop its business units.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. The Company believes that the activities detailed in item 2 above will enable it to meet its business objectives.
