# FINANCIAL AND OPERATIONS REVIEW

For the financial period ended 30 September 2020

## Overview

FY2021 began with significant headwind and a challenging operating landscape, the global pandemic, a slide in the global economy, uncertain macro-economic and geopolitical environment around the world.

Since the previous financial year, the Group has made conscious efforts in restructuring and refining its business operations through a number of initiatives, cost management and digitalisation strategy which was expedited with the COVID-19 pandemic, thus bringing the Group into recovery in the first half of FY2021.

Within the first half of FY2021, the Group recorded a revenue and investment gain of S\$17.9 million as compared to S\$4.8 million in 1HFY2020, while net profit for the same period was recorded at S\$7.2 million as compared to a loss of S\$1.5 million in the previous corresponding period.

The improvement in revenue and investment income is mainly attributable to the improved performance of the restructured Hidden Champions Fund as well as the strong growth of our FinEduTech division digitally while contending with the various lockdown and movement restriction amid the global pandemic. The FinEduTech division registered a 114% increase in revenue from S\$4 million in the previous financial period to S\$11 million in the current financial period while the Financial Asset Management division registered a S\$7 million increase in investment income from investment loss of \$0.5 million in the previous period to investment gain of S\$6.5 million in the current financial period.

Apart from returning to profitability in the 1HFY2021, the Group maintained a sound financial position. As of 30 September 2020, the Group improved its cash position with cash and cash equivalents of S\$23.5 million from S\$18.4 million since end of FY2020.

## Business Segment Report

**FinEduTech**  
– 8VI Holdings Limited

As part of the Group's business model refinement, the original financial technology and financial education businesses have been enhanced and incorporated under the VI brand in January 2020, representing the Group's strategic shift into FinEduTech. Following shareholders' approval at the Annual General Meeting in July 2020, the Company's name has also been changed to "8VI Holdings Limited" to reflect the alignment of its brand and position with effect from 27 July 2020.

8VI started its operations in FY2021 with a rapid shift and expansion of its operations and services online with the rise and spread of COVID-19. This successful speedy transition was executed as part of our long-term business plan and strategy.

With seamless integration of acquisition, retention and technology capabilities on the VI platform, the Group continued with the sale and subscription of its proprietary smart investing analysis tool, VI App, and its range of VI College financial educational programmes and activities online that allowed efficient delivery of products and services beyond geographical boundaries with the adoption of technological application and solution, despite the global pandemic, generating high-quality revenue, positive cashflow and healthy cash receipt from customers.

Continuing with strategies outlined by 8VI in its FY2020 annual report; Acquisition, Retention and Technology Development remain the core focus. By expanding the digital financial education programmes and training as well as integrating the community support fully within VI App to reach a wider audience and meet evolving consumer habits, a customer is now a VI Community member tapping into our platform and products for life-long, repeat learning opportunities.

## Business Segment Report (continued)

### Financial Asset Management – Hidden Champions Fund (Asia)

#### Fund Performance

	HCF Asia	MSCI Asia Pac	STI	KLCI	Heng Seng
Last 6 mths	37.0%	24.3%	-0.6%	11.4%	-0.6%
YTD	25.0%	-0.6%	-23.6%	-6.6%	-16.9%

It has been an eventful 2 years since we started with ground zero to restructure Hidden Champions fund. While we made many mistakes along the way, we also took a hard look at what went wrong and analysed how we could have done better. After each learning experience, we found ourselves to be more mindful of our selection in the next round. As it was intentional that we did not deploy all the funds but to hold more cash in the first year, the results was flattish. The second year saw us going against all odds when COVID-19 hit unexpectedly, yet it was also the time that we finally reaped the fruits of our labour. With the pandemic outbreak and crash of the global equities in late March, we jumped at the opportunity to invest in the companies already shortlisted, at a discount. These companies went through a vigorous selection process prior and most turned out to be COVID-19 resilient. As a result, they were not only able to withstand the impact of COVID-19 but also thrive during the crisis.

For the 1HFY2021, we are pleased to announce that the listed securities under Hidden Champions Fund (Asia) (“HCF Asia”) registered an investment gain on investment securities of S\$3.1 million (S\$1.8 million under our direct

stake). This is a return of 37.0% for the last six months, against the benchmark MSCI APAC of 24.3%.

As an asset management company, the returns from our investments will tend to be lumpy in nature which is typical in our business, since our performance depends on overall market conditions and macro-economic business landscape.

#### What have we done well

Of the 15 companies in our portfolio, 7 companies announced their September quarter results recently. The team is pleased to report that 6 of them performed well with strong revenue and earnings growth. For the one that experienced negative growth, we assessed the reasons and opined it temporary rather than a long-term outcome. In fact, we took the chance to average in our position on that particular investment and will continue to monitor the situation closely.

Furthermore, we have adopted an increasingly defensive stance and reduced our positions in the market to hold more cash. This will allow us to deploy it at an opportune

## Business Segment Report (continued)

time should global equities continue to worsen, which we have reasons to believe that it might.

### What could be better

The portfolio returns hovered at around 30% returns (since Oct 2018) for the past four months. The team have analysed it and attributed the stagnant results to the underperformance of our top two holdings. As the top 2 positions were built in the early stages of our fund, we would have approached that investment in a different manner based on the current situation. Over the next few months, we will be looking to make some adjustments to our allocation of these two holdings to reposition the portfolio and optimise it for growth.

### Growth Strategies going forward

Moving forward, we will focus on channelling our expertise to 3 pillar funds to grow our business.

Firstly, with the HCF Asia fund showing promising results, we will be actively seeking to scale this business by raising funds to increase our AUM. This fund has shown itself to be resilient and positive in its returns since we restructured it (Oct 2018) and we believe that it has a solid foundation to build its future returns on.

The second pillar of growth would be the new HCF US fund (currently under research, development and testing). Since April 2020, we started replicating the processes from our Asia portfolio and applied similar investment methodologies to our US portfolio (currently seeded by us). The transition from Asia to US had been more manageable than we thought, thanks to the nature of the companies that are mostly mid-large cap with stronger business fundamentals and better corporate governance. So far, we have achieved above average results for our stock selection and will be looking to build this portfolio over the coming months.

The third pillar of growth is built on the foundation that we have built VI App upon. Based on our R&D efforts, we are currently testing our Quant-based methodology with our proprietary funds (currently known as VI Fund Gorilla). This portfolio has shown promising results and it has shown itself to be resilient even in the downturns thus far. As this portfolio fund is rule-based with only human interventions for refinement, it has taken care of a major issue of investing: that of human psychology. We look forward to further testing the processes and rules rigorously so that we can ensure this fund will be positioned to provide long term positive returns to our investors.

## Conclusion

It has been a couple of challenging years and we want to acknowledge the resilience and hard work of every team member whose contribution is critical for the small wins we celebrate today. At the same time, we want to show our heartfelt appreciation to all our shareholders for your unceasing trust, patience and support towards the team during these challenging times. In the year ahead, we are committed to stay focused in executing our growth strategies with the aim of bringing even greater value to our shareholders.

# DIRECTORS' STATEMENT

For the financial period ended 30 September 2020

## In the opinion of the directors,

- (a) to the best of our knowledge, nothing has come to the attention of the Board of Directors of the Company which may render the accompanying interim financial information for the six months ended 30 September 2020 to be false or misleading; and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

## REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION TO THE MEMBERS OF 8I HOLDINGS LIMITED

### Introduction

We have reviewed the accompanying statement of financial position of 8I Holdings Limited and its subsidiaries (the "Group") as of 30 September 2020 and the related statements of comprehensive income, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with Financial Reporting Standards in Singapore, Interim Financial Reporting ("FRSs 34"). Our responsibility is to express a conclusion on this interim financial information based on our review.

### Scope of Review

We conducted our review in accordance with Singapore Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Singapore Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not give a true and fair view of the financial position of the Group as at 30 September 2020, and of its financial performance, its changes in equity and its cash flows for the six-month period then ended in accordance with FRSs 34.

# NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

Interim Financial Report For the financial period ended 30 September 2020

## 2. Basis of preparation and changes in accounting policies

The condensed consolidated interim financial information for the half-year ended 30 September 2020 has been prepared in accordance with FRS 34, Interim Financial Reporting.

The condensed consolidated interim financial information does not include all the notes of the type normally included in annual financial statements. Accordingly, this report is to be read in conjunction with the annual financial statements as at 30 September 2020 and any public announcements made by 8I Holdings Limited during the interim reporting period.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the adoption of new and amended standards as set out below.

The financial statements are presented in Singapore Dollars (SGD or S\$).

## 3. Significant accounting judgement and estimates

The preparation of the Group's condensed consolidated interim financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

### 3.1 Critical judgements in applying the entity's accounting policies

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

## 12. Fair value of assets and liabilities

### (a) Fair value hierarchy

The Group categorised fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- (i) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- (ii) inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- (iii) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the fair value hierarchy as the lowest level input that is significant to the entire measurement.

### (b) Financial instruments measured at fair value

The following table shows an analysis of each class of financial instruments measured at fair value at the end of the reporting period:

#### Fair value measurements at the end of the reporting period using

	Quoted prices in active markets for identical instruments <u>Level 1</u> S\$	Significant observable inputs other than quoted prices <u>Level 2</u> S\$	Unobservable inputs <u>Level 3</u> S\$	<u>Total</u> S\$
<b>As at 30 Sep 2020</b>				
<b>Assets measured at fair value</b>				
<b>Financial assets:</b>

<b>Financial assets as at 30 Sep 2020</b>	<b>21,739,277</b>	<b>-</b>	<b>1,091,358</b>	<b>22,830,635</b>
<b>As at 31 Mar 2020</b>				
<b>Assets measured at fair value</b>				
<b>Financial assets:</b>				
Financial assets, at FVPL	14,358,481	-	-	14,358,481
Financial assets, at FVOCI	174,903	-	1,091,358	1,266,261
<b>Financial assets as at 31 Mar 2020</b>	<b>14,533,384</b>	<b>-</b>	<b>1,091,358</b>	<b>15,624,742</b>

There were no transfers between levels 1 and 2 during the year.

The fair value of financial instruments traded in active markets (such as fair value through profit and loss and financial assets through other comprehensive income) is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in Level 1.

The fair value of financial instruments that are not traded in an active market (for example, investment in unquoted equities) is determined by using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. Valuation methods, such as using recent transacted price, are used to determine fair value for the remaining financial instruments. Where a valuation technique for these instruments is based on significant unobservable inputs, such instruments are classified as Level 3.

The carrying amount less impairment provision of trade receivables and payables are assumed to approximate their fair values.

## 13. Contingent liabilities

The Group does not have any significant contingent liability at the end of the financial period.

## 14. Segment information

The Group is organised into geographic business units based on management reporting structure and organisational set-up, in line with the main business divisions driving the growth of the Group. Geographically, management manages and monitors the business in two primary geographic areas namely Singapore and Malaysia, where the Company and certain subsidiaries operate. Based on the management reporting structure, management reviews the business segments' performance and to make strategic decisions.

The segments under the reporting model are as follows:

- **Financial Education:** involved in providing financial education in the discipline of value investing and supporting a community of value investors from 29 cities globally under the "VI" brand.
- **Financial Investment:** involved in investment in listed equities in the Asia-Pacific through a focused strategy of investing in value-adding, nimble and scalable business to achieve long-term investment returns. It also involved in strategic investment in private businesses.
- **All other segments:** included fintech business and subsidiaries that provided financial education and training in China, Taiwan and Thailand.

Management monitors the operating results of its business units separately for making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which in certain respects, as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements.
