IAG successfully completes \$650 million institutional placement

IAG has successfully completed a \$650 million fully underwritten institutional placement (**Placement**) announced on Friday 20 November 2020.

Under the Placement, IAG will issue approximately 128.7 million new fully paid ordinary shares (**Placement Shares**) at a price of \$5.05 per Placement Share (**Placement Price**).

IAG received significant interest in the Placement from both domestic and offshore institutional investors.

Eligible shareholders who bid for an amount less than or equal to their 'pro rata' share of Placement Shares were allocated their full bid. IAG sought to prioritise allocations for the remaining shares based on factors including the likelihood of long-term support, the strategic alignment of the investor and the timeliness and volume of investors' bids into the book¹.

IAG is pleased with the strong support shown for the equity raising from its shareholders. The success of the raise is an endorsement of the decisive action to maintain balance sheet strength. This positions the company well to execute on its strategic plan.

The Placement Shares will rank equally with existing IAG ordinary shares. The Placement Shares are expected to settle on Wednesday 25 November 2020, and will be issued and commence trading on the ASX on Thursday 26 November 2020.

IAG shares are expected to resume normal trading on the ASX from market open today, Monday 23 November 2020.

Details of the Share Purchase Plan (SPP)

IAG will also offer existing eligible retail shareholders the opportunity to participate in a non-underwritten SPP to raise up to \$100 million.

¹ An eligible institutional shareholder's 'pro rata' share of Placement Shares was estimated by reference to IAG's beneficial register of institutional and sophisticated investors on Friday 30 October 2020, but without undertaking any reconciliation processes and ignoring any shares that may be issued under the SPP. Unlike in a rights issue, this may not truly reflect the participating shareholder's actual pro rata share of the Placement Shares. A shareholder had no right or entitlement to participate in the Placement and IAG had no obligation to reconcile assumed holdings (e.g. for recent trading or swap positions) when determining a shareholder's 'pro rata' share of Placement Shares. This register was also used on a best endeavours basis to assess whether institutional and sophisticated investors were existing shareholders. Institutional investors who do not reside in Australia or other eligible jurisdictions were not able to participate in the Placement. IAG and the Underwriter disclaim any duty or liability (including for negligence) in respect of the determination of a shareholder's 'pro rata' share of Placement Shares.

For personal use only

Under the SPP, eligible IAG shareholders, being shareholders with a registered address in Australia or New Zealand on IAG's register as at 7.00pm on Thursday 19 November 2020 (AEDT) (and who are not in the United States or acting for the account or benefit of any person in the United States), will have the opportunity to apply for up to \$30,000 of shares without incurring brokerage or transaction costs.

The issue price of the shares under the SPP will be the lower of:

- the Placement Price; and
- a 2% discount to the 5-day volume weighted average price of IAG ordinary shares traded on the ASX up to and including the closing date of the SPP.

The shares issued under the SPP will rank equally with existing IAG shares from the date of issue.

IAG may accept applications (in whole or in part) that result in the SPP raising more or less than \$100 million at its absolute discretion.

Full details of the SPP will be set out in the SPP offer booklet, which is expected to be released to the ASX and dispatched to eligible shareholders from Monday 30 November 2020.
