Report on Review of Interim Financial Information to the members of Kingsland Global Ltd.

Introduction

We have reviewed the accompanying consolidated statement of financial position of Kingsland Global Ltd. and its subsidiaries (the "Group") as of 30 September 2020 and the related consolidated statement of comprehensive income, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with Singapore Financial Reporting Standards, Interim Financial Reporting ("FRS 34"). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Singapore Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Singapore Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information does not give a true and fair view of the financial position of the Group as at 30 September 2020, and of its financial performance and its cash flows for the six-month period then ended in accordance with Singapore Financial Reporting Standard 34 Interim Financial Reporting.

2. Basis of preparation and changes to the Group's accounting policies

2.1 Basis of preparation

The interim financial statements of the Group have been prepared in accordance with Singapore Financial Reporting Standards 34 (FRS 34), Interim Financial Reporting.

The interim financial statements do not include all the information and disclosures required in the annual financial statement, and should be read in conjunction with the Group's annual financial statement as at and for the year ended 31 March 2020.

The financial statements have been prepared on the historical cost basis except as disclosed in the accounting policies below.

The financial statements are presented in Singapore Dollar (S\$).

The interim financial statements for the financial period ended 30 September 2020 were authorised for issue by the Board of Directors on the date of the Directors' Statement.

3. Significant accounting judgments and estimates

In preparing these interim financial statements, management has made judgements and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements.

(a) Disaggregation of revenue from contracts with customers

In 2019, the Group's recognised its revenue from development properties based on percentage of completion method. The revenue is generated from related party within Cambodia and the revenue is recognised over time.

(b) Judgement and methods used in estimating revenue

Recognition of revenue from development properties over time

For the sale of development properties where the Group satisfies its performance obligations over time, management has determined that a cost-based input method provides a faithful depiction of the Group's performance in transferring control of the properties to the customers, as it reflects the Group's efforts incurred to date relative to the total inputs expected to be incurred for the properties. The measure of progress is based on the costs incurred to date as a proportion of total costs expected to be incurred up to the completion of the development properties.

The estimated total construction and other related costs are based on contracted amounts and, in respect of amounts not contracted for, management relies on past experience and knowledge of the project engineers to make estimates of the amounts to be incurred. In making these estimates, management takes into consideration the historical trends of the amounts incurred in its other similar properties held for sale, analysed by different property types and geographical areas for the past 3 years.

26. Fair values

The fair value of a financial instrument is the amount at which the instrument could be exchanged or settled between knowledgeable and willing parties in an arm's length transaction.

The following methods and assumptions are used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value.

Cash and cash equivalents, other receivables, other payables, amount due to holding company, amount due to related company and amount due to director

The carrying amounts of these balances approximate their fair values due to the short-term nature of these balances.

Trade receivables, trade payables and retention payable

The carrying amounts of these payables approximate their fair values as they are subject to normal trade credit terms.

27. Financial instruments by category
