About Skyfii

As the world's most trusted omnidata intelligence company, Skyfii collects and analyses billions of data points each month from a range of venue types and data sources across five continents.

Our SaaS cloud-based solution, the IO Platform, helps venues visualise, measure, predict, and influence customer behaviour, creating better experiences for their visitors and customers.

The IO Platform provides location and behaviour based communications software and tools to manage guest Wi-Fi, 2D and 3D cameras, people counting technology, weather, car park and social media data across multiple locations.

Skyfii further augments insights generated by the IO Platform with its Data & Marketing Services offering: a team of data science and marketing consultants who help clients effectively gain more value from their data.
