Key Messages

Alliance Aviation Services Limited announces a half year result which includes:

- Another record profit;
- Record operating cash flows;
- Change in mix of flight hours;
- The settlement of 10 E190 aircraft; and
- A positive outlook for FY2021 with growth forecast in FY2022 and beyond.

Underlying profit before tax of \$26.7m, up 72.3%

Operating cash flow of \$47.5m, up 225.3%

Revenue from operations of \$154.8m, up 2.3%*

1 aircraft added to the fleet – Fleet total, 43

Net debt \$6.9m

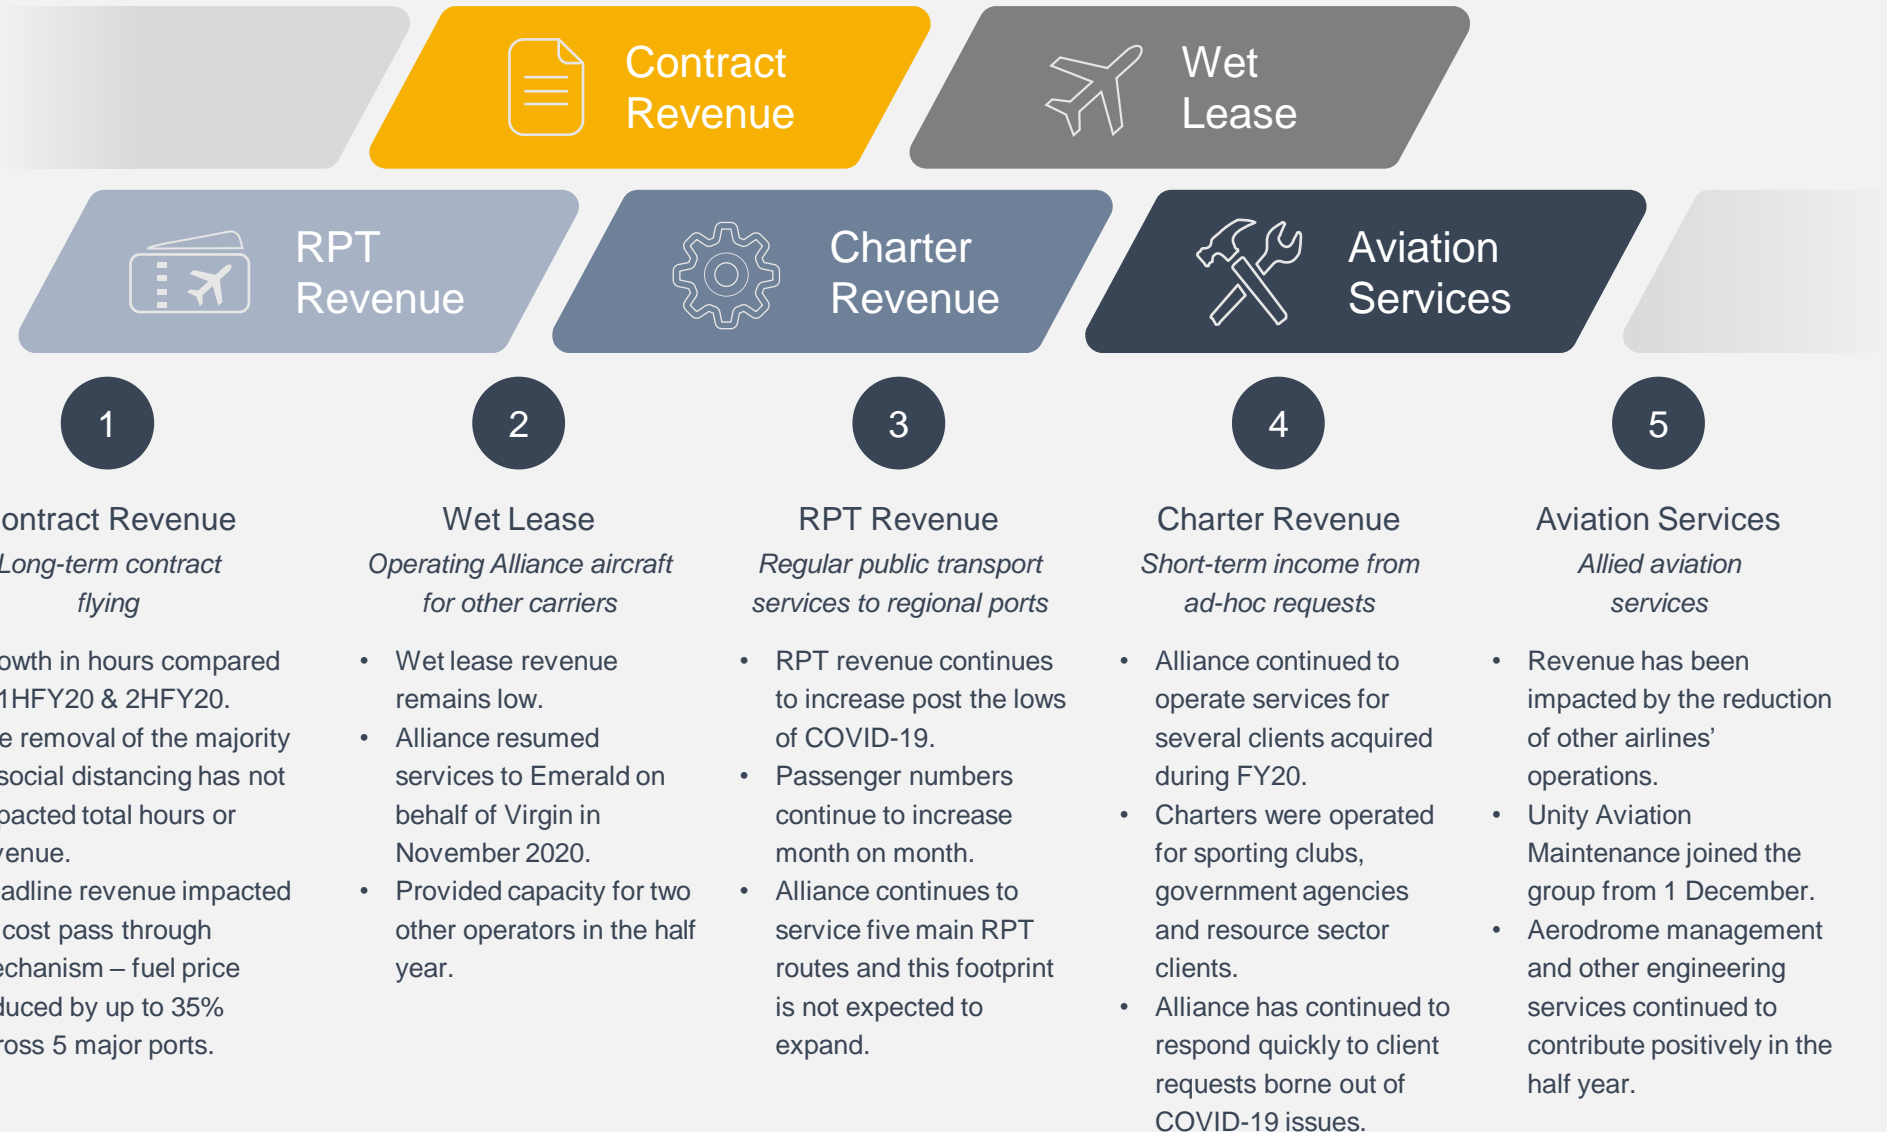

Change in mix of flight hours - 19,067 for the half

*All contract and the majority of charter client contracts contain a rise and fall formula which impacts on the quantum of revenue recognised as well as fuel expensed. The average fuel price across Alliance's five main ports decreased by 34% in the first half of the financial year when compared to the prior year comparative. In the half year this has had a significant effect on reported revenue and direct costs. Fuel typically accounts for between XX% and XX% of a flight cost base dependent on port, flight time and flight schedule.

Contract Revenue

Contract and charter continue to experience revenue growth in the first half

Income Statement

Observations:

- Contract revenue has increased in the first half due to increased flight schedules for several clients;
- Charter revenue continues to perform strongly. Services continued in the half year for new clients acquired in FY20;
- RPT revenue is lower than the prior comparative period however has increased against 2HFY20 as a result of an increased route network and an increasing number of passengers;
- Operating expenses were lower in the half due to the inclusion of government rebates of \$6.9 million and other recurrent cost efficiencies;
- Depreciation has increased in line increased fleet numbers; and
- Alliance will be in an income tax payable position for FY21.

Statement of Financial Position

Observations:

- The PP&E increase relates to various settlements of the Embraer fleet and Unity acquisitions;
- Inventory includes \$9 million of Embraer spares settled to date;
- Right of use assets and lease liabilities have increased due to the inclusion of the Unity Aviation Maintenance hangar land lease and the Adelaide hangar lease;
- Debt reduced by \$2.4 million in the half-year; and
- Current tax liabilities reflect Alliance moving to a cash tax payable position due to increased profits and fully utilised tax losses.

Outlook

Observations:

- The Fokker fleet is the backbone of existing operations for many years to come.
- The Embraer fleet enables growth opportunities.

Alliance retains a positive outlook for the 2021 financial and forecasts growth in FY2022 and beyond

- Alliance continues to increase its operational activity across a number of revenue types. Revenue streams impacted negatively by COVID-19 in 2HFY20 are showing signs of growth.
- Contract revenue is expected to continue to increase in FY2021 as the annualised impact of increased schedules is realised. Mine maintenance programs are also expected to have a positive effect in the second half of the year.
- Contracted wet lease revenue will increase in the second half of FY2021 and beyond. The recently announced capacity deal with QANTAS will commence mid-2021. Alliance will also continue to pursue dry lease and other wet lease opportunities within Australia and the Pacific.
- The charter sector is forecast to continue to remain strong. The shift from RPT services to closed charter continues and we forecast the majority of this to be permanent. Domestic tourism charters continues to be a focus for Alliance and it is expected there will be a number of additional domestic tours in the remainder of FY2021.
- RPT revenues are forecast to increase as border restrictions are lifted enabling passenger movements to increase.
- The Board is focused on maintaining a strong balance sheet. Given the commitments made for major expansion of the Company, the Board has determined that it is prudent not to declare an interim dividend at this time.
