Director's Report

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'Group') consisting of Ecofibre Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 31 December 2020.

Directors

The following persons were directors of Ecofibre Limited during the whole of the half-year (unless otherwise indicated) and up to the date of this report:

Barry Lambert
Jon Meadmore
Eric Wang
Kristi Woolrych (appointed on 20 October 2020)

Principal activities

The principal continuing activities of the Group during the half-year were breeding, growing, manufacturing and distributing hemp products.

Significant changes in the state of affairs

On 21 August 2020, the Group completed the acquisition of TexInnovate, a portfolio of five businesses with deep technical expertise and capability across a broad range of high-performance textile disciplines. Total consideration for the acquisition was USD48.7m.

Total potential consideration for the businesses and operating assets is USD42.0m:

- at completion Ecofibre settled 50% of the business acquisition (USD21.0m), comprising USD10.5m cash and the issue of 5,924,926 shares at a value of USD10.5m; and
- contingent consideration with a value up to USD21.0m is also payable subject to the acquired businesses delivering USD6.0m earnings before interest and tax (EBIT) for two consecutive annual periods within five years of completion. The earliest that any such consideration may become due is in 3 equal tranches of USD7.0m on the 3rd, 4th and 5th anniversaries after completion, payable in equal proportions of cash and shares.

Consideration for real estate assets used by the businesses totalled USD6.7m, as determined by independent market appraisal. Acquisition of the real estate assets was settled in cash at the completion date.

To fund the upfront cash component of the acquisition, Ecofibre conducted a placement under its Listing Rule 7.1 capacity to existing institutional shareholders to raise \$29.5m at an issue price of \$2.50 per share. The placement was completed and 11,800,000 new shares issued on 4 August 2020.

There were no other significant changes in the state of affairs of the consolidated entity during the half-year.

Review of operations and results

The loss from ordinary activities for the Group for the half-year after providing for income tax amounted to \$5.5m (31 December 2019 half-year: \$7.1m profit).

The net assets of the Group are \$113.6m, including cash and cash equivalents totalling \$13.5m, as at 31 December 2020.

Ananda Health has consolidated most of its operations at the group's new US headquarters and operating facility in Georgetown, Kentucky, and continues to focus its sales and marketing efforts on US retail pharmacies and their distributors.

Hemp Black completed a key part of its supply chain with the acquisition of TexInnovate (now Hemp Black North Carolina, "HBNC") and is focussed on leveraging its technology and manufacturing capability to service new and existing clients. The business launched a range of athleisure-wear in November 2020 to build brand awareness and demonstrate the functional and sustainable properties of its technologies.

Ananda Food increased its distribution footprint during the period, adding Coles supplier 'Soul Seeds' as a major customer, and increasing the range of hemp products it supplies for the Woolworths Macro range.

The COVID-19 pandemic has continued to impact the sale and distribution of products by Ananda Health in the United States. This was partially offset by the sale of face masks and neck gaiters by Hemp Black, particularly during the first quarter.

No dividend was declared or paid during the half-year (31 December 2019 half-year: Nil).

Rounding of amounts

In accordance with ASIC Corporations (Rounding in Financials/ Directors' Report) Instrument 2016/191, the amounts in this report are rounded to the nearest thousand dollars unless otherwise indicated.

The auditor's independence declaration has been received and can be found on page 4 of the half-year report.

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

Notes to the Consolidated Financial Statements

1. Summary of significant accounting policies

These general purpose financial statements for the interim half-year reporting period ended 31 December 2020 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2020 together with any public announcements made during the half-year.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the policies stated below.

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

New accounting policies adopted

a) Intangible assets

Goodwill

Goodwill arises on the acquisition of a business. Goodwill is not amortised. Instead, goodwill is tested annually for impairment, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Impairment losses on goodwill are taken to profit or loss and are not subsequently reversed.

b) Impairment of non-financial assets

Goodwill and other intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

2. Operating segments

Identification of reportable operating segments

The consolidated entity is organised into three operating segments based on differences in products and services provided: nutraceuticals, food and fibre.

These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (BOD) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

Other segments represent the research and development and corporate headquarter activities of the consolidated entity.

The BOD reviews the profit or loss before income tax for each segment. The accounting policies adopted for internal reporting to the BOD are consistent with those adopted in the financial statements.

Types of products and services

The principal products and services of each of these operating segments are as follows:

Ananda Health	Production and sale of hemp related nutraceutical products focused on the United States
Ananda Food	Production and sale of hemp related food products primarily in Australia
Hemp Black	Production and sale of innovative textile and hemp products primarily in United States
Ecofibre Corporate	Research and development and group corporate functions

Intersegment transactions

Intersegment transactions were made at arms-length market rates. Intersegment transactions are eliminated on consolidation.

Intersegment receivables and payables

Intersegment transactions are initially recognised at the consideration received. Intersegment receivables and payables that earn or incur non-market interest are not adjusted to fair value based on market interest rates. Intersegment receivables and payables are eliminated on consolidation.

10. Business combinations

On 21 August 2020, the Group completed the acquisition of TexInnovate, a portfolio of five businesses with deep technical expertise and capabilities across a broad range of high-performance textile disciplines. TexInnovate was acquired to complete a key part of its supply chain for Hemp Black, accelerate commercialisation of the business and underpin the future growth and success of Hemp Black.

Total potential consideration for the businesses and operating assets is USD42.0m:

- at completion Ecofibre settled 50% of the business acquisition (USD21.0m), comprising USD10.5m cash and the issue of 5,924,926 shares at a value of USD10.5m; and
- contingent consideration with a value up to USD21.0m is also payable subject to the acquired businesses delivering USD6.0m earnings before interest and tax (EBIT) for two consecutive annual periods within five years of completion. The earliest that any such consideration may become due is in 3 equal tranches of USD7.0m on the 3rd, 4th and 5th anniversaries after completion, payable in equal proportions of cash and shares.

Consideration for real estate assets used by the businesses totalled USD6.7m, as determined by independent market appraisal. Acquisition of the real estate assets was settled in cash at the completion date.

The value of goodwill recognised on acquisition (AUD \$48.8m) represents the proprietary capability, know-how, highly skilled workforce and expected growth synergies from combining this business with Hemp Black. The acquired business contributed revenues of \$4,183,000 and profit before tax of \$90,000 to the consolidated entity for the period from 21 August 2020 to 31 December 2020. The values identified in relation to the acquisition of TexInnovate are final as at 31 December 2020. It is impracticable to disclose the revenue and profit or loss of the combined entity for the current reporting period as though the acquisition date for all business combination that occurred during the year had been as of the beginning of the annual reporting period as this is an assets and business acquisition and not an acquisition of a subsidiary.

11. Events after the reporting period

The impact of the Coronavirus (COVID-19) pandemic is ongoing. It is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation is rapidly developing and is dependent on measures imposed by the US and Australian governments, such as maintaining social distancing requirements, health and quarantine regulations, regulations that affect the ability of group companies and their suppliers and customers to operate without restriction, travel restrictions and any economic stimulus that may be provided.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
