

Company Announcement

19th February 2021

- **Co-founders Dr Sam Hupert and Mr Anthony Hall have each sold 1 million PME shares during the current trading window**
- **The sale represents less than 4% of their respective shareholdings**
- **The sale to a number of local institutions was made at the closing price on 18 February 2021 without any discount.**
- **Dr Hupert and Mr Hall remain the two largest shareholders in the company with both founders retaining in excess of 27 million shares each.**
- **Their combined shareholdings after the sale represent in excess of 52% of the company's shares on issue.**

The Pro Medicus Board has been advised that co-founders Dr Sam Hupert and Mr Anthony Hall have sold 1 million shares each at the close of business on 18 February which is within the Company's current trading window and represents less than 4% of their individual holdings.

Mr Peter Kempen Pro Medicus Chairman said "We announced in February 2018 that the Board had encouraged the founders to consider selling up to 3 million shares each, in order to improve the liquidity in the company's shares. This latest transaction completes that process. The sale, to a number of local institutions, was done "at market" which reflects the very strong underlying demand for the company's shares."

Dr Hupert and Mr Hall re-affirmed that they do not intend to sell any further shares in PME in the foreseeable future.

Mr Kempen added "Dr Hupert and Mr Hall remain actively engaged in the company and are committed to its future. This is evidenced by the fact that they remain the two key stake holders, with their combined holding post this recent sale being in excess of 52% of the shares on issue."

This announcement is authorised by the Chairman of the Board

About Pro Medicus Limited:

Pro Medicus Limited [ASX: PME] is a leading medical imaging IT provider. Founded in 1983, the company provides a full range of radiology IT software and services to hospitals, imaging centres and health care groups worldwide. In late January 2009, the company announced the purchase of Visage Imaging, which has become a global provider of leading-edge enterprise imaging solutions, pioneering the best-of-breed, or Deconstructed PACS® enterprise imaging strategy. Visage 7 technology delivers amazingly fast, multi-dimensional images streamed via an intelligent thin-client viewer. The company offers a leading suite of RIS, PACS and e-health solutions constituting one of the most comprehensive end-to-end offerings in radiology. Pro Medicus has global offices in Melbourne, Berlin and San Diego.
