Profit for the half-year attributable to the owners of Genetic Signatures Limited	up	NC	to		\$4,497

NC – Not a comparable number

Dividends

No dividend has been declared for the half-year ended 31 December 2020.

Comments

Genetic Signatures has had an exceptional half year with record sales, its first formally reported profit, and first supply agreements signed with US customers.

The Group recorded total sales revenue for the half-year ended 31 December 2020 ("1H FY21") of A\$18,693,000, up 638% on the previous corresponding period ("pcp"). Of this, 19% of revenue was generated from European and US customers versus 4% in the previous corresponding period, building on the commercialisation strategy of expanding the Group's international presence. This proportional contribution from international customers is expected to increase further in future.

Genetic Signatures reported its first significant profit of \$4,497,000 (1H FY20: loss \$2,346,000). This was driven by the increased sales and improved gross margin which increased to 67% due to higher average sell prices, and despite large transport costs being incurred. Employee benefits expense was up 66% vs pcp as a result of increased headcount, but also includes \$747,000 share-based payment expense that is a non-cash item. Additional sales and support personnel will be recruited in USA and Europe over the next 18 months to continue to pursue opportunities and support current customers. Depreciation and amortisation expense was up 65% vs pcp from investments in expanding manufacturing capacity and instruments for customer sites.

Cash balance at 31 December 2020 was \$36,273,000, and the Group has no debt. The Group was cash flow positive for both quarters in the financial half year, generating \$5.2m overall and \$7.8m positive operating cashflow, which included the FY2020 refund from the Australian Tax Office under its Research and Development ("R&D") tax incentive program of A\$2.6m, received in November 2020. Genetic Signatures is not expecting to qualify for a cash refund for FY21 as sales will exceed the \$20m threshold for the tax rebate but will benefit from the tax provisions under this program.

Good progress was made against milestones laid out at the beginning of the year.

The most significant of these was securing first sales in the USA, the largest diagnostics market in the world. Genetic Signatures' US team signed 2 supply agreements in December, including Boston Medical Center (BMC) who are the largest safety-net hospital in the New England region. Two orders were received from BMC in December. The second agreement is with a commercial laboratory based in California. Orders have been fulfilled in January and February for both customers. Discussions are underway with other potential customers.

Genetic Signatures Limited
Appendix 4D
Half-year report

The clinical trials required to accompany an FDA submission for the *EasyScreen*TM Enteric Protozoan Detection Kit are progressing although the chosen US clinical sites' ability to complete the trials during the pandemic has challenged the process in the short term. This is still seen as a key opportunity due to lack of testing options for these pathogens.

EMEA contributed A\$2.96m to revenue in the half, up from A\$0.09m pcp, and A\$0.77m for FY20. New supply agreements have been signed during December and January and will further contribute to revenue.

Australia provided the vast majority of revenue for the Group being its most established market. Surge testing in the September quarter contributed significantly as did the burst of testing in NSW prior to Christmas following the Northern Beaches outbreak. The volume of testing is expected to taper in the second half though this is contingent upon any outbreaks and the responses by different governments. Sales were largely driven by SARS-CoV-2 testing though customers also perform broader testing for the full range of respiratory pathogens on many of the samples that came to their laboratories. Demand for *EasyScreen*TM Enteric Detection Kits continues to improve in line with easing restrictions and greater community mobility.

Genetic Signatures was pleased to announce in January that CE-IVD registration had been received for the *EasyScreen*TM STI Genital Pathogen Detection Kit. This kit can detect 10 of the most commonly encountered sexually transmitted infections simultaneously, and this registration allows the Group to market freely in the European Union and the UK. An application is awaiting final decision by the Therapeutic Goods Administration in Australia also. Research and development activity continues apace with various projects at different stages in the development cycle.

COVID-19 testing is expected to continue for the foreseeable future even with the rollout of the various vaccines around the world, and this is expected to benefit Genetic Signatures, though the Company is unable to determine whether testing volumes will change and/or by what proportion. As new variants of the virus are detected it is unclear if the vaccines will be effective against them nor how transmissible the variants will be. Our platform technology, 3baseTM is less susceptible to these variants and the company has confirmed that our current assay detects all reported variants.

Half Year Report - 31 December 2020

Genetic Signatures Limited
Directors' Report
31 December 2020

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity' or 'Group') consisting of Genetic Signatures Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 31 December 2020.

Directors

The following persons were directors of Genetic Signatures Limited during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

Nickolaos Samaras
John Melki
Michael Aicher
Anthony Radford AO

Principal activities

During the financial half-year, the principal continuing activities of the consolidated entity consisted of the research and commercialisation of identifying individual genetic signatures to identify diseases and the sale of associated products into the diagnostic and research marketplaces.

Review of Operations

Genetic Signatures has had an exceptional half year with record sales, its first formally reported profit, and first supply agreements signed with US customers.

The Group recorded total sales revenue for the half-year ended 31 December 2020 ("1H FY21") of A\$18,693,000, up 638% on the previous corresponding period ("pcp"). Of this, 19% of revenue was generated from European and US customers versus 4% in the previous corresponding period, building on the commercialisation strategy of expanding the Group's international presence. This proportional contribution from international customers is expected to increase further in future.

Genetic Signatures reported its first significant profit of \$4,497,000 (1H FY20: loss \$2,346,000). This was driven by the increased sales and improved gross margin which increased to 67% due to higher average sell prices, and despite large transport costs being incurred. Employee benefits expense was up 66% vs pcp as a result of increased headcount, but also includes \$747,000 share-based payment expense that is a non-cash item. Additional sales and support personnel will be recruited in USA and Europe over the next 18 months to continue to pursue opportunities and support current customers. Depreciation and amortisation expense was up 65% vs pcp from investments in expanding manufacturing capacity and instruments for customer sites.

Cash balance at 31 December 2020 was \$36,273,000, and the Group has no debt. The Group was cash flow positive for both quarters in the financial half year, generating \$5.2m overall and \$7.8m positive operating cashflow, which included the FY2020 refund from the Australian Tax Office under its Research and Development ("R&D") tax incentive program of A\$2.6m, received in November 2020. Genetic Signatures is not expecting to qualify for a cash refund for FY21 as sales will exceed the \$20m threshold for the tax rebate but will benefit from the tax provisions under this program.

Good progress was made against milestones laid out at the beginning of the year.

The most significant of these was securing first sales in the USA, the largest diagnostics market in the world. Genetic Signatures' US team signed 2 supply agreements in December, including Boston Medical Center (BMC) who are the largest safety-net hospital in the New England region. Two orders were received from BMC in December. The second agreement is with a commercial laboratory based in California. Orders have been fulfilled in January and February for both customers. Discussions are underway with other potential customers.

The clinical trials required to accompany an FDA submission for the *EasyScreen™* Enteric Protozoan Detection Kit are progressing although the chosen US clinical sites' ability to complete the trials during the pandemic has challenged the process in the short term. This is still seen as a key opportunity due to lack of testing options for these pathogens.

EMEA contributed A\$2.96m to revenue in the half, up from A\$0.09m pcp, and A\$0.77m for FY20. New supply agreements have been signed during December and January and will further contribute to revenue.

Genetic Signatures Limited
Directors' report
31 December 2020

Australia provided the vast majority of revenue for the Group being its most established market. Surge testing in the September quarter contributed significantly as did the burst of testing in NSW prior to Christmas following the Northern Beaches outbreak. The volume of testing is expected to taper in the second half though this is contingent upon any outbreaks and the responses by different governments. Sales were largely driven by SARS-CoV-2 testing though customers also perform broader testing for the full range of respiratory pathogens on many of the samples that came to their laboratories. Demand for *EasyScreen*TM Enteric Detection Kits continues to improve in line with easing restrictions and greater community mobility.

Genetic Signatures was pleased to announce in January that CE-IVD registration had been received for the *EasyScreen*TM STI Genital Pathogen Detection Kit. This kit can detect 10 of the most commonly encountered sexually transmitted infections simultaneously, and this registration allows the Group to market freely in the European Union and the UK. An application is awaiting final decision by the Therapeutic Goods Administration in Australia also. Genetic Signatures Limited
Notes to the consolidated financial statements
For the half-year ended 31 December 2020

Note 1. Significant accounting policies

Basis of preparation of half-year report

These general purpose financial statements for the half-year reporting period ended 31 December 2020 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

The half-year report does not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2020 and any public announcements made by the company during the half year reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The accounting policies adopted are consistent with those of the previous financial year.

These financial statements have been prepared on the going concern basis which contemplates the consolidated entity's ability to pay its debts as and when they become due and payable for a period of at least 12 months from the date of authorising the financial report for issue.

New, revised or amending Accounting Standards and Interpretations adopted

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Genetic Signatures Limited
Notes to the consolidated financial statements

Note 2: Financial Reporting Segments

The consolidated entity is operated under one business segment which was the research and commercialisation of identifying individual genetic signatures to identify diseases and disabilities predominantly based within one geographical location being Sydney, Australia.

Geographic locations

Asia Pacific

The Group's head office and manufacturing operation is based in Sydney, Australia.

The Australian entity is responsible for sales into all regions not covered by the regions defined below. All intellectual property is held within the Australian entity.

EMEA

This business comprises Eastern and Western Europe, Middle East including Israel, and Africa. The Group is represented by employees in UK, Germany and Netherlands.

Americas

The Group's North American business includes the United States and Canada. Operations are currently based in California, USA, with sales and support staff based throughout USA.

Interest expense (included in other expenses)	20	15
Expenses related to short-term leases (included in other expenses)	92	17
	<u>112</u>	<u>65</u>

Note 7: Tax losses

The consolidated entity has recorded its first profit during the half-year ended 31 December 2020. The consolidated entity currently has carried forward losses of \$6,384,000 from prior years in respect to its Australian operations and approximately US\$2,580,000 in respect to its North American operations. The utilisation of these carried forward losses is conditional on the consolidated entity meeting the conditions for deductibility imposed by the law in the period in which the consolidated entity derives sufficient taxable income in order to utilise these losses. For the half-year ended 31 December 2020, management has reviewed the deductibility of these losses in comparison to the estimated taxable income derived by the consolidated entity and are confident that sufficient losses are available to offset the expected taxable income for the financial year ended 30 June 2021. Whilst the consolidated entity has continued to trade positively due to the COVID-19 induced demand, it is currently not known with sufficient certainty how the consolidated entity's trade will transpire for the FY22 period and beyond. As a consequence, the consolidated entity has elected not to recognise any deferred tax assets or carried forward income tax losses until the probability of recoupment is sufficiently certain.

Note 8: Equity – Share issue

Share issues and associated costs during the half-year were as follows:

	Consolidated			
	31 Dec 2020	31 Dec 2019	31 Dec 2020	31 Dec 2019
	Shares	Shares	\$'000s	\$'000s
Proceeds from the issue of shares				
- Share placement	-	35,714,286	-	35,000
- Share Purchase Plan	-	2,551,023	-	2,500
- employee share option exercise	263,750	25,000	134	13
Share issue costs	-	-	(6)	(1,857)
Net proceeds from the issue of shares	<u>263,750</u>	<u>38,290,309</u>	<u>128</u>	<u>35,656</u>

Genetic Signatures Limited
Notes to the consolidated financial statements
For the half-year ended 31 December 2020

Note 9: Contingent liabilities

The consolidated entity does not have any material contingent liabilities at period-end.

Note 10: Events after the reporting period

The impact of the Coronavirus (COVID-19) pandemic is ongoing and while it has been financially positive for the consolidated entity up to 31 December 2020, it is not practicable to estimate the potential impact, positive or negative, after the reporting date. The situation continues to evolve and is dependent on measures imposed by the Australian Government and other countries, such as quarantine, travel restrictions, continuation of economic stimuli, and the success or otherwise of the various vaccines that have been recently developed.

Other than the above, there has not arisen in the interval between the end of the financial year and the date of this report any other item, transaction or event of a material and unusual nature likely in the opinion of the directors of the Company to affect significantly the operations of the consolidated entity, the results of those operations or the state of affairs of the consolidated entity in future financial years.

Note 11: Dividends

The consolidated entity has not declared or paid a dividend during the half-year.

Note 12: Earnings per share

	Consolidated	
	31 Dec 2020	31 Dec 2019
	\$'000s	\$'000s
Profit/(loss) after income tax	4,497	(2,346)
Profit/(loss) after income tax attributable to the owners of Genetic Signatures Limited	4,497	(2,346)
	Number	Number
Weighted average number of ordinary shares used in calculating basic earnings per share	142,716,650	111,570,943
Adjustments for calculation of diluted earnings per share:		
Options over ordinary shares ¹	3,015,000	-
Weighted average number of ordinary shares used in calculating diluted earnings per share	145,731,650	111,570,943
	Cents	Cents
Basic profit/(loss) per share	3.15	(2.10)
Diluted profit/(loss) per share	3.09	(2.10)

¹Options were antidilutive in period ended 31 December 2019 and thus not included in the dilutive loss per share calculation

Note 13: Capital commitments

There are no material current capital commitments.

Genetic Signatures Limited
Directors' declaration
31 December 2020

In the directors' opinion:

- The attached financial statements and notes comply with the Corporations Act 2001, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- The attached financial statements and notes give a true and fair view of the consolidated entity's financial position as at 31 December 2020 and of its performance for the financial half-year ended on that date; and
- There are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 303(5)(a) of the Corporations Act 2001.

On behalf of the directors

John Melki

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Genetic Signatures Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Genetic Signatures Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2020, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of statement of accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2020 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the directors for the financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2020 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
