TODAYS BUSINESS PAYMENT PROBLEM

B2B PAYMENTS NOW

HOW BUSINESSES CURRENTLY PAY EACH OTHER

- Today, B2B payments only integrate partially for either the payer or the payee but never both players simultaneously.
- Payments are generally made manually and administered at the end of each month, or a set number of days from the invoice date.
- Often these payment dates are viewed as a “guide” by the customer.
- Late or incorrect payments impact overall business growth.
 - SMEs spend an average of 12 days per year chasing late payments*
 - Late payments create cash flow issues
