Vysarn, through its wholly owned subsidiary Pentium Hydro Pty Ltd ("Pentium Hydro") has grown rapidly since commencing operations in September 2019 and is now servicing major mining and mining service companies.

The Group is continuing to see strength in underlying industry fundamentals which is being reflected in the level of client engagement and growth in Pentium Hydro's opportunity pipeline.

Growth in Pentium Hydro's work in progress, order book and pipeline is being driven by multiple factors:

- Water issues in the Pilbara driving a need for more comprehensive waterwell drilling programs;
- Increasing demand for waterwell drilling services as Pentium Hydro's reputation grows;
- Deferred dewatering projects by clients, driving a need for more comprehensive waterwell drilling programs; and
- Continuing strength in underlying industry fundamentals, leading to increased levels of client engagement.

Material contract opportunities are currently under development with multiple clients.

NOTE 1: GENERAL INFORMATION

The interim financial report (Report) of Vysarn Limited ("the Company") and its controlled entity ("the Group") for the half year ended 31 December 2020 was authorised for issue in accordance with a resolution of the Directors.

Vysarn Limited is a listed public company, trading on the Australian Securities Exchange, limited by shares, incorporated and domiciled in Australia.

The Group's registered office and principal place of business is 108 Outram Street, West Perth WA 6005.

NOTE 2: OPERATING SEGMENTS

The Company has one reportable segment, Pentium Hydro which is the Group's operational business unit.

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (the chief operating decision makers) in assessing performance and in determining the allocation of resources. The major results of the Group's sole operating segment are consistent with the presentation of these consolidated financial statements.

NOTE 3: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Statement of Compliance

The half-year financial statements is a condensed consolidated interim financial report, prepared in accordance with the requirements of the *Corporations Act 2001*, applicable accounting standards including AASB 134: Interim Financial Reporting, Accounting Interpretation and other authoritative pronouncements of the Australian Accounting Standard Board ('AASB'). Compliance with AASB 134 ensures compliance with IAS 34 'Interim Financial Reporting'.

This interim financial report does not include the full disclosures of those normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Group as in the full financial report.

It is recommended that this interim financial report is read in conjunction with the annual financial report for the year ended 30 June 2020 and any public announcements made by Vysarn Limited during and since the end of the half-year in accordance with continuous disclosure requirements arising under the *Corporations Act 2001* and the ASX Listing Rules.

b) Basis of Preparation

The half-year financial statements, except for cash flow information, have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities. Amounts are presented in Australian dollars and have been rounded off to the nearest dollar, unless stated otherwise.

Critical accounting estimates

The preparation of the half-year financial statements in conformity with AASBs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Changes in accounting estimates - Plant and Equipment

Depreciation of plant and equipment constitutes a substantial operating cost for the Group. The cost of fixed assets is charged as a depreciation expense over the estimated useful lives of the respective assets using the straight-line method and is reflected in the Group's statement of profit or loss and other comprehensive income.

NOTE 3: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Group decided to revise the useful life of certain classes of plant and equipment during the half year, from 7 years to 10 years. The basis of this change was as a result of a number of internal factors including;

- A greater understanding of asset conditions and their expected operating useful lives, gained over the last 12 months since the Group established its operation;
- Industry considerations and guidance including peer reviews conducted; and
- Discussions with suitably qualified and experienced internal personnel as to Group's assets and their past experience with similar plant and equipment.

In implementing the revised useful lives, the Group has applied the change in depreciation based on an assessment of individual asset useful lives prospectively, from 1 July 2020, as required under Australian Accounting Standards. As a result of the change in estimate, depreciation for the six month period ended 31 December 2020 decreased from approximately \$1,966,170 to 1,390,825. Further information on the Group's Plant and Equipment is contained within Note 13 of this report.

c) Going Concern

These half-year financial statements have been prepared on the going concern basis, which contemplates the continuity of normal business activities and the realisation of assets and liabilities in the normal course of business.

The Directors have reviewed a budget/forecast and having considered the above, are of the opinion that the use of the going concern basis is appropriate and that the Group will be able to pay its debts as and when they fall due for the next 12 months.

d) Adoption of New Accounting Standards

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the Group's financial report for the year ended 30 June 2020, except for the adoption of the new standards as set out below.

The adoption of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) has no material impact on the accounts reported in the current and prior periods.

The Group has applied all new and revised Australian Accounting Standards that apply to annual reporting periods beginning on or after 1 July 2020, including the following:

i) AASB 2018-6 Amendments to Australian Accounting Standards – Definition of a Business

AASB 2018-6 amends AASB 3 Business Combinations to clarify the definition of a business, assisting entities to determine whether a transaction should be accounted for as a business combination or as an asset acquisition. The amendments:

- (a) clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs;
- (b) remove the assessment of whether market participants are capable of replacing any missing inputs or processes and continuing to produce outputs;
- (c) add guidance and illustrative examples to help entities assess whether a substantive process has been acquired;
- (d) narrow the definitions of a business and of outputs by focusing on goods and services provided to customers and by removing the reference to an ability to reduce costs; and
- (e) add an optional concentration test that permits a simplified assessment of whether an acquired set of activities and assets is not a business.

The application of AASB 2018-6 has not materially impacted the financial statements of the Group.

ii) AASB 2018-7 Amendments to Australian Accounting Standards – Definition of Material

AASB 2018-7 principally amends AASB 101 Presentation of Financial Statements and AASB 108 Accounting Policies, Changes in Accounting Estimates and Errors. The amendments refine the definition of material in AASB 101. The amendments clarify the definition of material and its application by improving the wording and aligning the definition across AASB Standards and other publications. The amendment also includes some supporting requirements in AASB 101 in the definition to give it more prominence and clarifies the explanation accompanying the definition of material.

The application of AASB 2018-7 has not materially impacted the financial statements of the Group.

iii) AASB 2019-3 Amendments to Australian Accounting Standards – Interest Rate Benchmark Reform

AASB 2019-3 has been issued to respond to the effects of Interbank Offered Rates (IBOR) reform on financial reporting. The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark with an alternative nearly risk-free interest rate.

The reliefs apply to all hedging relationships that are directly affected by the interest rate benchmark reform. A hedging relationship is affected if the reform gives rise to uncertainties about the timing and/or amount of benchmark-based cash flows of the hedged item or the hedging instrument.

The application of AASB 2019-3 has not materially impacted the financial statements of the Group.

iv) AASB 2019-5 Amendments to Australian Accounting Standards – Disclosure of the Effect of New IFRS Standards Not Yet Issued in Australia

AASB 2019-5 makes amendments to AASB 1054 Australian Additional Disclosures by adding a disclosure requirement for an entity intending to comply with IFRS Standards to disclose the information required by paragraph 30 of AASB 108 (regarding disclosing the effect of new standards not yet issued) to IFRS Standards that have not yet been issued by the Australian Accounting Standards Board.

The application of AASB 2019-5 has not materially impacted the financial statements of the Group.

e) New Accounting Standards

The Australian Accounting Standards Board (AASB) has issued a number of new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods, some of which are relevant to the Group. The Group has decided not to early adopt any of these new and amended pronouncements. The Group's assessment of the new and amended pronouncements that are relevant to the Group but applicable in future reporting periods is set out below.

i) AASB 2020-3 Amendments to Australian Accounting Standards – Annual Improvements 2018 – 2020 and Other Amendments

AASB 2020-3 amends AASB 1 First-time Adoption of Australian Accounting Standards, AASB 3 Business Combinations, AASB 9 Financial Instruments, AASB 116 Property, Plant and Equipment, AASB 137 Provisions, Contingent Liabilities and Contingent Assets and AASB 141 Agriculture as a consequence of the recent issuance by IASB of the following IFRS: Annual Improvements to IFRS Standards 2018-2020, Reference to the Conceptual Framework, Property, Plant and Equipment: Proceeds before Intended Use and Onerous Contracts – Cost of Fulfilling a Contract.

AASB 2020-3 mandatorily applies to annual reporting periods commencing on or after 1 January 2022 and will be first applied by the Group in the financial year commencing 1 July 2022.

The likely impact of this accounting standard on the financial statements of the Group has not been determined.

ii) **AASB 2020-1: Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-current, AASB 2020-6 Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-current – Deferral of Effective Date**

AASB 2020-1 amends AASB 101 Presentation of Financial Statements to clarify requirements for the presentation of liabilities in the statement of financial position as current or non-current.

AASB 2020-1 and AASB 2020-6 mandatorily applies to annual reporting periods commencing on or after 1 January 2023 and will be first applied by the Group in the financial year commencing 1 July 2023.

The likely impact of this accounting standard on the financial statements of the Group has not been determined

INDEPENDENT AUDITOR'S REVIEW REPORT
TO THE MEMBERS OF VYSARN LIMITED

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
