“It is encouraging to see Ansarada Group performing so well during the first half of FY21. We have made a rapid recovery despite the impact of COVID on the business in FY20 and into the start of FY21. The growth in the debt, capital and M&A markets and our enhanced governance offering has driven our customer numbers to a record of over 3,000. Pro forma revenue of \$15.8m is nearing pre-COVID levels and operationally we re-established positive cash flow from operations,” said Ansarada Group CEO, Sam Riley.

“We continue to monitor the impact of COVID-19 across all our geographical segments, however, we remain confident about continued growth. Our confidence comes from having a strong cash balance, positive operating cash flows, growing customer numbers, expanded use cases and an increasing contribution from our highly scalable digital channels,” he concluded.

Financial Results

Pro forma Group revenue was \$15.8 million, compared to \$17.4 million in 1H FY20. The decrease was largely due to the impact of COVID-19, which reduced the volume of transactions in FY20 and early in 1H FY21, and the transition to a subscription pricing model. AASB revenue was \$15.4 million, compared to \$17.0 million in 1H FY20. AASB revenue is rapidly approaching pre-COVID levels and is supported by strong and growing deferred revenue of \$10.8 million (2H FY20: \$8.0m).

Graph 2 - Revenue is Rapidly Approaching Pre-COVID Levels

Platform subscription revenue for the period was \$12.3 million, or 79% of Group recognised revenue, up from 74% in 1H FY20, and transactional revenue was \$3.2 million (1H FY20: \$4.2m). Geographic diversity was maintained with 42% of Group recognised revenue being generated outside Australia and New Zealand (1H FY20: 43%).

EBITDA improved to \$0.2 million, compared to a loss of \$0.2 million in 1H FY20. The \$0.4 million improvement was primarily driven by operational efficiencies delivered across the cost of revenue, product design and development and general and administration functions. Adjusted EBITDA which excludes business combination and restructure costs was \$2.2m in 1H FY21, up from \$0.5m in 1H FY20.

Operating cash flow was \$1.2 million, excluding business combination and restructure costs (1H FY20 -\$0.4m). Ansarada has cash of \$21.0 million as at 31 December 2020 and no debt.
