H1 FY21 FINANCIAL RESULTS

FINANCIAL RESULTS

P & L

COMMENTARY

- Sales revenue increased by 17% in FY21 H1 driven by an increase in recurring revenue and strong sales of presence control annual software subscriptions and hardware.
- Other income totalled \$2.5m in FY21 H1 due to an accrual of the R&D rebate claimable under the rules of the R&D incentive scheme and subsidies received from Australian and US government COVID-19 related stimulus.
- Cost of sales increased during the period as a direct consequence of the ramp up in hardware sales (security wearables) for presence control solutions.
- Operating expenses remained relatively stable in FY21 H1 with small increase in employee related expenses driven by the impact of additional hiring made in prior periods and a non-cash expense relating to the share-based payment incentive scheme.

FINANCIAL POSITION

COMMENTARY

- Cash and cash equivalents increased to \$3.8m at 31st December 2020 having increased from \$1.5m at the end of FY20.
- Trade and other receivables stood at \$4.4m at 31st December 2020 having reduced from \$5.1m at the end of FY20. The prior period balance included a large receivable related to the R&D rebate (\$2.9m) which was received during H1 FY21.
- Additional orders of hardware for presence control sales led to increases in the inventory balances, other assets (which includes \$0.9m of inventory prepayments) and trade and other payables.
- Borrowings, excluding lease liabilities, totalled \$1.2m at 31 December 2020 which increased slightly from prior period (30 June 2020: \$1.1m).
- Issued capital increased due to a capital raise in August 2020 of \$4m and the conversion of performance rights into shares as part of the staff share-based incentive scheme.

COMMENTARY

- The CORE Business Unit continues to generate strong recurring revenue from its existing client-base and it added a major new Fortune 50 customer during the first half of FY21. The pandemic did impact performance with delays in sales pipeline execution and project milestone completion resulting in a reduction in revenue to \$4.7m versus the prior year (FY20 H1: \$5.8m).
- The New Products business unit generated revenue of \$2.2m during the half year (FY20 H1: \$0.1m) registering significant growth of 2,162% as RightCrowd moved quickly to seize the market opportunity to support companies safely managing the return of their workforce. RightCrowd added over 50 new customers during the first half of FY21 with sales in the New Products business unit representing the fastest rate of new customer acquisition in the Company's history.
- The Offsite business unit continued to be heavily impacted by COVID-19, particularly given that its operations are in the Northeast corridor of the United States where COVID-19 lockdowns were particularly prevalent. Offsite generated revenue of \$48k during the half year (FY20 H1: \$72k).
