The Company is pleased to advise that it has secured 2 clients to which it will provide consulting services on an ongoing basis.

This is very encouraging for the Board and management, as it reflects outcomes from its recent efforts to increase its coverage of its pre-investment opportunities. As Shareholders would recall, the Company opened its regional office in July 2020, and since then, the Company's research team has continued to progress opportunities, despite limitations to their ability to travel and undertake its diligence efforts. The revenue generated from these clients will not be material, however, it bodes well for the Company as it continues to progress a number of discussions with local and overseas firms on revenue opportunities. The Company has a busy pipeline of opportunities to progress into 2021, and will continue efforts, with a renewed Board and management, of identifying and implementing cost-effective growth opportunities as a diversified investments company.

Notes to the condensed consolidated financial statements for the half-year ended 31 December 2020

Mariner Corporation Limited (the "Company") is a listed public company, incorporated and operating in Australia.

The address of the Company's registered office and principal place of business is as follows:

Level 9, 32 Walker Street North Sydney NSW 2060

Details of the controlled entities are set out in note 12.

For the purposes of preparing the financial statements, the Company and the controlled entities (together the "Group") is a for-profit entity.

The financial statements were authorised for issue by the directors on 26 February 2021.

#### 1. Significant accounting policies

Basis of preparation

#### (a) Statement of compliance

These half-year condensed interim financial statements is a general purpose financial statements prepared in accordance with the *Corporations Act 2001* and AASB 134 "Interim Financial Reporting). The condensed interim financial statements do not include notes of the type normally included in the annual financial statements and shall be read in conjunction with the most recent annual financial statements.

The accounting policies and methods of computation adopted in the preparation of these half-year condensed interim financial statements are consistent with those adopted and disclosed in the Company's financial statements for the year ended 30 June 2020.

The following accounting policies are newly applicable to the Group:

#### (i) Property, plant and equipment

Property, plant and equipment, is stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciation.

ABN 54 002 989 782

Notes to the condensed consolidated financial statements for the half-year ended 31 December 2020

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Category	Estimated useful life	Estimated residual values	
Leasehold improvements	5 years	0%	
Furniture and fixture	5 years	0%	
Office equipment	5 years	3%	

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation methods are reviewed, and adjusted if appropriate, at least at the end of each reporting periods.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

### (b) Adoption of new and revised Accounting Standards

In the current period, the Group has adopted all of the new and revised Standards and interpretations issued by the Australian Accounting Standards Board ("AASB") that are relevant to its operations and effective for the current reporting period. There has been no material impact of these changes on the Group's accounting policies.

Accordingly, we do not express an audit opinion.

### Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Mariner Corporation Limited, would be in the same terms if given to the directors as at the time of this auditor's report.
