Gold Road Managing Director and CEO Duncan Gibbs commented: *"The year 2020 was Gold Road's first full year as a producer. It was a year where we were able to pay down all our borrowings and generate over \$105 million in free cash flow. The year 2020 also saw us declare a first full year net profit after tax of \$80.8 million, and the Board determined to pay a maiden dividend for the six-months to 31 December 2020 of 1.5 cents, just 15 months after attaining commercial production at Gruyere.*

Following 18 months of production experience, in February 2021 we announced our 3 Year Outlook at Gruyere that sees the operation lifting from 258,173 ounces in 2020 to a sustainable 350,000 ounces by 2023 (100% basis). Gruyere is a Tier-1 gold mine and we are only beginning to unlock its potential.

Gruyere and Gold Road have experienced no material production impacts as a result of the COVID-19 crisis. I wish to thank the Gruyere team, our employees, contractors and suppliers for their diligence and excellent performance through this difficult time."
