Directors' Report

The Directors of Burgundy Diamond Mines Limited ("BDM" or "the Company") (formerly known as EHR Resources Limited) present their report, together with the financial statements on the consolidated entity consisting of Burgundy Diamond Mines Limited and its controlled entities for the half-year ended 31 December 2020 ("the Period").

It is recommended that the Directors' Report be read in conjunction with the annual financial statements for the year ended 30 June 2020 and considered together with any public announcement made by the Company during the Period and up to the date of this report.

Directors

The following persons were directors of Burgundy Diamond Mines Limited during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

Director	Position
Stephen Dennis	Non-Executive Chairman
Peter Ravenscroft	Managing Director and Chief Executive Officer
Jeremy King	Non-Executive Director
Michael O'Keeffe	Non-Executive Director
Marc Dorion	Non-Executive Director (appointed 5 July 2020)
Kim Truter	Non-Executive Director (appointed 22 September 2020)
David Bradley	Non-Executive Director (resigned 5 July 2020)

Principal Activities

During the financial year the Company expanded its mineral resource strategy to focus on exploration and development projects in the diamond sector. Three new diamond exploration projects were brought into the portfolio, while activity at the 18% owned La Victoria Gold/Silver project in Peru continued to be delayed by local permitting issues.

Review of Operations

The operating loss for the half-year ended 31 December 2020 was \$1,556,056 (31 December 2019: loss of \$287,333).

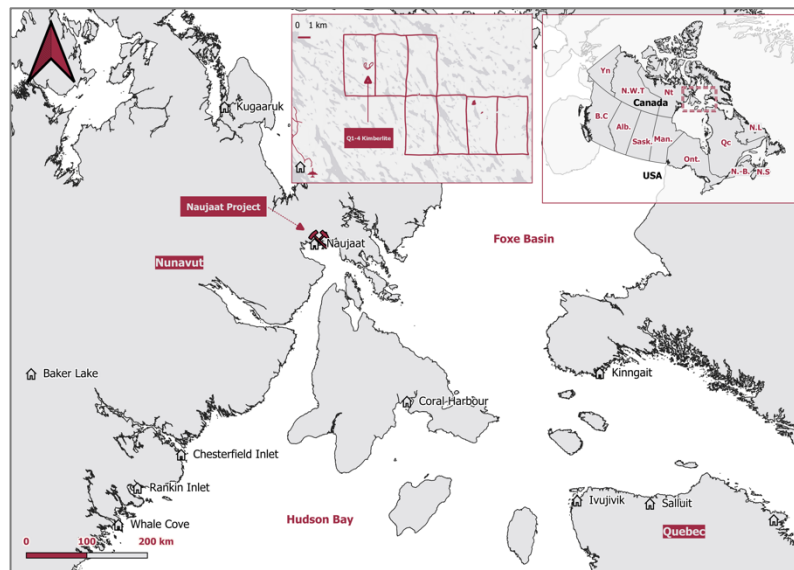

Naujaat Diamond Project

Project Overview

The Company is progressing an earn-in agreement with North Arrow Minerals Inc. over the Naujaat diamond project in Nunavut, Canada (Figure 1). The world class Naujaat project contains an exceptional population of uniquely coloured and rare high value stones. BDM has the option to earn-in to a 40% interest in the project by funding the Phase 1 program: a C\$5.6 million preliminary 1,500 to 2,000 tonne bulk sampling program to be undertaken in the Canadian summer of 2021. BDM has also made a preliminary proposal to earn an additional 20% interest by funding a larger 10,000 tonne Phase 2 bulk sample, pending positive results from the first phase.

Directors' Report

Figure 1 - Location of Nauyaat Project

Activity Update

The upfront payment of C\$0.3 million was made on signing the Phase One Option agreement, and these funds were used during the period by the project operator North Arrow to pre-order and ship fuel, sample bags and other supplies to the project site, ready for the commencement of the bulk sampling program in 2021. This preparatory work has saved significant costs through lower current fuel prices and by using sea transportation, rather than more expensive air transportation that would have been required later.

During the half-year period the focus was on optimizing the design of the 2021 bulk sample program, to both minimise costs and maximise the yield of larger diamonds from the sampling. Preparations are now well underway for the on-time mobilisation to site in the Canadian summer of 2021 and the successful implementation of the sampling program

Botswana Exploration Alliance

Project Overview

The Company has an Exploration Alliance Agreement in Botswana with Diamond Exploration Strategies Ltd (DES), a privately-owned company with an excellent management team. BDM is providing funding of US\$1.5 million over three years to finance exploration activities, earning 50% ownership of any discoveries made, with options to earn-in up to 70% of any discovery by completing a Scoping Study or 90% on completion of a Feasibility Study. The Alliance is initially over five areas that have existing prospecting licenses (Figure 2) but extends to cover other prospective areas of Botswana that may be identified.

Activity Update

Despite restricted activities in the country during varying stages of the Covid-19 lock-down in Botswana, DES succeeded in obtaining renewals to 30 June 2022 from the Ministry of Mines for the seven Prospecting Licences that required renewal.

Following detailed analysis of proprietary databases and innovative targeting strategies, DES identified four additional areas for which new license applications were made in the half-year period.

Drilling programs on the Nata and Mmashoro projects, earlier planned for the December 2020 quarter, were delayed due to Covid-19 impacts, and are on track to commence early in the first quarter of 2021.

Nanuk Diamond Project

Project Overview

Nanuk Diamonds Inc is a 100% subsidiary of BDM and is the owner of 625 mineral claims located East of the Ungava Bay in Northern Quebec, a highly prospective diamond district that has received little attention over the last 15 years.

Activity Update

No activity was undertaken on the Nanuk Diamond Project during the half-year period ending 31 December 2020, whilst future activities are being evaluated.

La Victoria Gold and Silver Project

BDM holds an 18% interest in the La Victoria Gold/Silver Project, located in the prolific North-Central Mineral Belt of Peru, which it acquired through earn-in arrangements starting in 2017. Proposed drilling at this project has been impacted by permitting delays, which the project operator, Eloro Resources Ltd, has advised appear likely to be resolved in early 2021. BDM remains enthusiastic about the potential of this project and will participate in the next drilling program when drill permits are granted.

Directors' Report

Figure 1 - Location of La Victoria Project in Peru

Project M&A Activity

Consistent with BDM's stated strategy of identifying and acquiring interests in a balanced portfolio of the world's best diamond projects, concerted focus on potential M&A opportunities was applied during the half-year period ending 31 December 2020. This included continued construction of a comprehensive database of diamond projects within the Company's target jurisdictions of Canada, Botswana and Australia as well as various levels of assessment of potential opportunities.

Due diligence exercises were performed on selected development and operational opportunities, with a view to obtain an interest in near-term production or operating diamond assets. Disciplined evaluation of these potential opportunities is continuing into 2021 as BDM looks to build substantially on the solid organisational and financial base established over the course of 2020.

Directors' Report

- Mr George Read assumed the role of Vice President Exploration and will be responsible for all technical aspects of existing Company projects and assessment of future investment opportunities. He is a highly respected exploration geologist and internationally renowned in the diamond mining industry, with more than 35 years of diamond experience across multiple jurisdictions. Mr Read initially spent 12 years with De Beers and subsequently over 20 years in the Canadian diamond sector, culminating in an executive role with Star Diamond Corporation. He has extensive expertise in mineral chemistry, design and execution of diamond exploration programs, management of drilling and sampling programs, studies from scoping to feasibility, and joint venture relationships.

Change of Company Name

On 18 November 2020, a resolution was passed by Shareholders at the 2020 Annual General Meeting to change the name of the Company from EHR Resources Limited to Burgundy Diamond Mines Limited. The name change reflects both the core focus of the Company in the diamond sector and the clear intent to become an operating diamond mining company.

Directors' Report

Impact of COVID-19

The onset of the COVID-19 pandemic unfortunately coincided with the launch of the Company's diamond strategy. The immediate impact on market sentiment necessitated a period of watchful consolidation of our planned activities, and curtailment of exploration activities in Quebec and Peru meant deferral of planned expenditure on these projects. In addition, the period of the Phase One earn-in at the Naujaat Project was extended by 12 months due to inability to perform any site-based activities during COVID-19 restrictions.

The Company has continued to operate prudently and has implemented required measures to minimise spread of the virus, ensure the safety and wellbeing of employees, and maintain business continuity.

TO THE MEMBERS OF
BURGUNDY DIAMOND MINES LIMITED**

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Burgundy Diamond Mines Limited, which comprises the statement of financial position as at 31 December 2020, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. As the auditor of Burgundy Diamond Mines Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
