RESULTS

The result for the half year ended 31 December 2020 attributable to members of Globe was a net loss after tax of \$0.844 Million (2019: \$0.662 Million).

REVIEW OF OPERATIONS

During the half year ending 31 December 2020, Globe's main operational focus was on the advancement of its niobium project in Malawi (Africa) for which a Mineral Resource Estimate was published on 11 July 2018 totalling 68.3Mt and grading 2,830 ppm Nb₂O₅ and 135 ppm Ta₂O₅. In addition, Globe also carried out research and development into metallurgical applications that resulted in the filing of a patent, which as at the date of this report is provisional and is commercial in confidence.

Kanyika Niobium Project

During the half year, the Company continued to negotiate in good faith with the Government of Malawi in relation to a Development Agreement, which is a condition precedent to the issue of a Mining Licence for the Kanyika Niobium Project.

Globe has experienced delays in meeting with Malawi government personnel in recent months due to a second wave of the COVID-19 pandemic across Malawi and much of west Africa but remains committed to the process. As the Company has stated in various public announcements, Globe considers the Development Agreement to be final and is ready, willing and able to execute.

Also during the half year, Globe continued to seek out parties interested in off-take agreements for niobium and tantalum and explored a range of financing and investment options.

At the same time, the Company continued to examine opportunities for project enhancement, including reconfiguration of the project design. Arising from this, the mining and plant designs and engineering study components of the Feasibility Study were revised and updated to incorporate the findings from improvement programs and other engineering design changes.

The financial model underpinning the Feasibility Study has been updated for revised capital and operating costs, independently sourced, and updated sales and revenue expectations based on recent data. The key metrics arising from the financial model will be released publicly upon and subject to finalisation of the Development Agreement.

This agreement currently remains with the Malawi Government. As required, Globe has lodged an application of the renewal of the Mining Lease previously approved (subject to the finalisation of a Development Agreement) and is recorded in the Malawi Mining Portal as AML00026, being application for mining lease number 26.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the Half Year Ended 31 December 2020

1. BASIS OF PREPARATION OF HALF-YEAR REPORT AND CHANGES TO GROUP'S ACCCOUNTING POLICIES

1.1 Basis of Preparation

This consolidated interim financial report for the half-year reporting period ended 31 December 2020 has been prepared in accordance with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

This consolidated interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2020 and any public announcements made by Globe Metals & Mining Limited (the "Company") during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except as set out below.

1.2 New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 30 June 2020, except for the adoption of new standards and interpretations effective as of 1 July 2020. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective. None of the new standards and amendments to standards that are mandatory for the first time for the financial year beginning 1 July 2020 affected any of the amounts recognised in the current period or any prior period.

2. SEGMENT INFORMATION

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board to make decisions on resources to be allocated to segments and assess their performance.

The reportable segments are based on aggregated operating segments determined by the similarity of the economic characteristics, the nature of the activities and the regulatory environment in which those segments operate.

The Group has two reportable segments based on the development stage of the projects and of the mineral resource and exploration activities in Africa. Unallocated results, assets and liabilities represent corporate amounts that are not core to the reportable segments.

Activity by segment

Africa – Kanyika

The Africa – Kanyika segment includes the Kanyika Niobium project in Malawi.

Africa – Exploration

The Africa – Exploration segment relates to other exploration activities in Malawi.

3. EXPLORATION AND EVALUATION EXPENDITURE

	Half year ended 31 December 2020 \$'000	Year ended 30 June 2020 \$'000
Non-Current		
Costs carried forward in respect of areas of interest in:		
Exploration and evaluation phases – at cost	28,823	28,349

Opening balance	28,349	27,956
Exploration expenditure capitalised during half year	474	544
Reversal of amount previous provided for relating to Foreign Tax	-	(151)
At reporting date	28,823	28,349

The value of the Group's interest in exploration expenditure is dependent upon:

- the continuance of the Group's rights to tenure of the areas of interest;
- the results of future exploration;
- the recoupment of costs through successful development and exploitation of the areas of interest, or alternatively, by their sale; and
- no significant changes in laws and regulations that greatly impact the Group's ability to maintain tenure.

The Group's exploration properties may be subjected to claim(s) under native title, or contain sacred sites, or sites of significance to indigenous people. As a result, exploration properties or areas within the tenements may be subject to exploration restrictions, mining restrictions and/or claims for compensation. At this time, it is not possible to quantify whether such claims exist, or the quantum of such claims.

5. COMMITMENTS

(a) Exploration commitments

In order to maintain current rights of tenure to mining tenements, the Company has exploration expenditure requirements up until expiry of leases. These obligations, which are subject to renegotiation upon expiry of the leases, are not provided for in the financial statements. As at the half year end these obligations are as follows:

	31 December	31 December
	2020	2019
	\$'000	\$'000
Not longer than one year	-	-
Longer than one year, but not longer than 5 years	-	
	-	

The above are nil due to the fact that the Group has exceeded its expenditure obligations at 31 December 2020. This was also the case at the corresponding half-year end of 31 December 2019.

If the Company decides to relinquish certain leases and/or does not meet these obligations, assets recognised in the Consolidated statement of financial position may require review to determine the appropriateness of carrying values. The sale, transfer or farm-out of exploration rights to third parties will reduce or extinguish these obligations.

(b) Operating lease expenditure commitments

Operating lease expenses relate to leases for office and staff accommodation in Malawi, and office accommodation in Perth:

Independent auditor's review report to the members of Globe Metals & Mining Limited

Report on the half-year financial report

Conclusion

We have reviewed the accompanying half-year financial report of Globe Metals & Mining Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 31 December 2020, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the half-year financial report of the Group is not in accordance with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the consolidated financial position of the Group as at 31 December 2020 and of its consolidated financial performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Directors' responsibility for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, anything has come to our attention that causes us to believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's consolidated financial position as at 31 December 2020 and its consolidated financial performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of the Group, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
