ASX Announcement

DXN Limited signs two Modular Data Centre orders - with Boeing Defence Australia and Covalent Lithium Pty Ltd for builds in Western Australia worth ~\$1 million

Highlights:

- **DXN has signed a supply agreement with Boeing Defence Australia to design, prefabricate and build a fully engineered Modular Data Centre (DC) in a contract valued ~\$700,000.**
- **DXN has signed a limited Notice of Award Letter with Covalent Lithium Pty Ltd and received a purchase order to design, prefabricate and build a fully engineered Modular Data Centre for ~\$325,000 for delivery to Mt Holland, Western Australia (WA)**

Pre-fabricated modular data centre specialist, [DXN Limited](#) (ASX:DXN) (**DXN** or the **Company**), is pleased to announce that it has entered into two separate agreements to supply fully prefabricated and engineered factory-built modular data centres to Boeing Defence Australia (**BDA**) as well as Covalent Lithium Pty Ltd (**Covalent**)

BDA is a wholly owned subsidiary of The Boeing Company within the Boeing Defence, Space & Security business unit, and is one of the leading aerospace enterprises globally.

Covalent is the manager appointed by a joint venture between subsidiaries of Sociedad Química y Minera de Chile S.A. and Wesfarmers Limited to develop and operate the Mount Holland Lithium Project.

Matthew Madden, CEO, DXN Limited said “DXN is delighted to be selected as a partner to both BDA and Covalent. The DXN team continue to develop products and services that have high demand and acceptance in the mining industry and this new customer is further testament towards our strategic focus. DXN continues to demonstrate that we can break into new market segments such as defence, space and security with companies like Boeing where high quality critical communications infrastructure like modular data centres are required to be on-site. DXN is well positioned to support the needs of critical infrastructure across multiple segments.

For material terms of the agreements please refer to Appendix A.

About Boeing Defence Australia

Boeing Defence Australia (**BDA**), a wholly-owned subsidiary of The Boeing Company within the Boeing Defence, Space & Security business unit, is one of Australia's leading aerospace enterprises.

BDA has been an integral part of the region's defence industry and the partner of choice for some of Australia's largest and most complex defence projects.

The company's 2,000 employees at 14 Australian sites and three international locations bring the 'Best of Boeing' products and services into the Australian market to provide a range of valued, through-life service solutions to its customers.

BDA's strength lies in its world-class, innovative solutions for the support, maintenance, modification and upgrade of Boeing and non-Boeing aircraft; military aircrew training design and delivery; and the design, development and support of Command, Control, Computers, Communications, Intelligence, Surveillance and Reconnaissance (C4ISR) solutions.

About Covalent Lithium

Covalent Lithium Pty Ltd is the manager appointed by a joint venture between subsidiaries of Sociedad Química y Minera de Chile S.A. and Wesfarmers Limited to develop and operate the Mount Holland Lithium Project, which will be a unique, fully integrated producer of battery quality lithium hydroxide in Western Australia. Wesfarmers Limited will leverage the expertise and chemical processing capabilities within Wesfarmers Chemicals, Energy and Fertilisers, part of the Industrials Division, to support the Project.

About DXN Limited

DXN Limited designs, builds, owns and operates data centres. Offering integrated, customised and tailored solutions to clients, DXN provides businesses with the option of delivering solutions to site through containerised modules, or space in DXN's modular colocation facilities to suit technical specifications and operational requirements. From a single rack in the colocation facilities through to fully customised Edge Infrastructure, DXN can deliver a range of solutions to meet modern data centre requirements. DXN has achieved an industry first and become the first modular data centre developer in the world to receive both Uptime Institute Tier-Ready III and Tier-Ready IV design review awards.
