## 1 SECTION 1: DETAILS OF THE OFFER

### 1.1 The Offer

By this Prospectus, the Company is making an offer to investors identified by the Directors for up to ten (10) Shares at \$0.10 per Share to raise up to \$1.00 (before expenses).

All of the Shares issued under this Prospectus will rank equally with Shares on issue at the date of the Prospectus. Application Forms will only be provided by the Company to invited investors. All recipients of the Shares under the Offer will be sophisticated or professional investors (within the meaning of section 708(8) and 708(11) of the Corporations Act, respectively), however no Shares will be issued under the Offer to Directors, related parties of the Company or any other person if the issue would be in breach of the takeover prohibition in section 606 of the Corporations Act.

The Offer is conditional upon the Company achieving the minimum level of subscription for the Offer as set out in section 1.3. Satisfaction of the minimum subscription is a requirement of the Offer being 10 Shares to raise approximately \$1.00.

### 1.2 Purpose of the Prospectus

The Company is seeking to raise only a nominal amount of \$1.00 (before costs) under the Offer and accordingly, the purpose of this Prospectus is not to raise capital. The Directors intend to apply the proceeds from the Offer to expenses of the Offer.

The primary purpose of this Prospectus is to remove any trading restrictions that may be attached to Shares issued by the Company on or prior to the Closing Date, including the issue of 727,792,666 (**Placement Shares**) at an issue price of \$0.003 to certain persons issued on 1 April 2021 prior to the lodgement of this Prospectus.

The Placement Shares rank equally with existing Shares on issue. A summary of the terms of existing Shares is set out in section 3.

Section 708A(5) of the Corporations Act provides that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that were quoted securities at all times in the 3 months before the day on which the relevant securities were issued;
- (b) trading in that class of securities on a prescribed financial market on which they were quoted was not suspended for more than a total of 5 days during the shorter of the period during which the class of securities were quoted, and the period of 12 months before the day on which the relevant securities were issued;
- (c) the Company has not been exempted by ASIC from the continuous disclosure provisions at any time during the relevant period referred to in paragraph (b);
- (d) the Company or any person as director or auditor of the body has not been exempted from or received an instrument of modification in relation to the financial reporting provisions at any time during the relevant period referred to in paragraph (b); and
- (e) (relevantly) the Company gives the relevant market operator for the Company a notice that complies with section 708A(6) of the Corporations Act (**Cleansing Notice**) before the sale offer is made.

Under section 708A(6) of the Corporations Act, amongst other things, a Cleansing Notice must be given within 5 business days after day on which the relevant securities were issued by the body.

With respect to the Placement Shares, the Company did not issue a Cleansing Notice within the prescribed time.

Section 708A(11) of the Corporations Act provides that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that are quoted securities of the body; and

- (b) either:
  - (i) a prospectus is lodged with ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
  - (ii) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities are issued; and
- (c) the prospectus is for an offer of securities issued by the body that are in the same class of securities as the relevant securities.

This Prospectus has been prepared pursuant to section 708A(11)(b)(i) primarily to remove any secondary sales restrictions on the sale of the Shares issued prior to the Closing Date (including the Placement Shares), as section 708A(11)(b)(i) removes secondary sale restrictions where this Prospectus is lodged with ASIC on or after the day on which the Placement Shares and any Shares were issued but before the day on which the Placement Shares and any Shares are offered for sale.

This Prospectus has been issued to facilitate secondary trading of the Placement Shares as they have been issued without disclosure to investors under Part 6D.2 of the Corporations Act. A prospectus is required under the Corporations Act to allow persons who were issued Placement Shares to on-sell those Shares within 12 months of issue.

As the Corporations Act restricts trading in securities which are issued without a prospectus, the purpose of the Offer is to allow the holders of Shares issued on or prior to the Closing Date (including the Placement Shares) to trade them without restriction. The Company did not issue the Placement Shares for the purpose of the persons to whom they are issued selling or transferring their Placement Shares or interests in those Shares within 12 months of issue, but this Prospectus allows them to do so should they wish.

Therefore, the purpose of this Prospectus is to:

- (a) make the Offer; and
- (b) ensure that the on-sale of the Placement Shares and the Shares issued under this Prospectus do not breach section 707(3) of the Corporations Act by relying on the secondary trading provisions in section 708A(11) of the Corporations Act.

### **1.3 Minimum subscription**

The Offer is conditional upon the Company achieving the minimum subscription for that Offer, being ten (10) Shares to raise approximately \$1.00.

Satisfaction of the above condition is a requirement for the issue of Shares under the Offer. In the event that these conditions are not met within 4 months of the date of this Prospectus (or such period as varied by ASIC), all Application monies will be returned to Applicants without interest as soon as practicable thereafter and no Shares will be issued under the Offer.

### **1.4 Opening and Closing Dates**

Subscription for the Offer will open on 9.00am AEST on the Opening Date and remain open until 5.00pm AEST on the Closing Date, subject to the right of the Directors to either close the Offer at an earlier time and date or to extend the Closing Date without prior notice, subject to the requirements of the ASX Listing Rules.

### **1.5 Applications for Shares – how to apply**

Applications for Shares offered by this Prospectus may only be made on the Application Forms, which will be provided with a copy of this Prospectus by the Company at the Company's discretion, in accordance with the instructions set out in the Application Form.

Completed Application Forms must be sent to the Company by post or delivered to:

Attn: Joshua Paul Quinn  
Wooboard Technologies Limited Company Secretary  
Boardroom Pty Limited  
Level 12, 225 George Street  
Sydney NSW 2000

No brokerage or stamp duty is payable by Applicants.

An Application for Shares may be accepted in full, for any lesser number, or rejected by the Directors. If any Application is rejected, in whole or in part, the relevant Application monies will be returned without interest.

#### **1.6 Application monies held on trust**

All Application monies received for the Shares offered under this Prospectus will be held in trust in a bank account established solely for the purpose of depositing Application monies received pursuant to this Prospectus until the Shares are allotted. Application monies will be returned (without interest) if the Shares are not allotted. Any interest earned on the Application monies will be for the benefit of the Company and will be retained by the Company irrespective of whether grants takes place and each Applicant waives the right to claim any interest.

#### **1.7 Oversubscription**

No oversubscription for the Offer will be accepted by the Company.

#### **1.8 Allotment of Shares and Application monies**

Shares will be issued only after all Application monies have been received and ASX has granted permission for the Shares to be quoted. It is expected that Shares will be issued on 15 April 2021 and trading of the Shares on ASX is expected to commence on 15 April 2021. Holding statements for Shares issued under the Offer will be mailed as soon as practicable after they are issued.

The Directors will determine the allottees of all the Shares the subject of the Offer in their sole discretion. The Directors reserve the right to reject any Application or to allot any Applicant fewer Shares than the number applied for.

Where the number of Shares allotted is less than the number applied for, the surplus monies will be returned by cheque as soon as practicable after the Closing Date. Where no allotment is made, the amount tendered on Application will be returned in full by cheque as soon as practicable after the Closing Date. Interest will not be paid on monies refunded.

#### **1.9 Underwriting**

The Offer is not underwritten.

#### **1.10 ASX listing**

Application for Official Quotation of Shares issued pursuant to this Prospectus shall be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of Shares offered pursuant to this Prospectus before the expiry of 3 months after the date of this Prospectus, or such other period as varied by ASIC, the Company shall not issue any Shares and shall repay all Application monies for the Shares within the period prescribed by the Corporations Act and without interest. The fact that the ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

### **1.11 Restrictions on the distribution of the Prospectus**

The distribution of this Prospectus outside Australia may be restricted by law. The Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

Residents of countries outside Australia should consult their professional advisers as to whether any government or other consents are required, or whether any formalities need to be observed should they wish to make an Application to take up Shares on the basis of this Prospectus. The return of a duly completed Application Form will be taken to constitute a representation and warranty that there has been no breach of such laws and that all approvals and consents have been obtained.

### **1.12 Allotment**

Acceptance of an Application by the Company creates a legally binding contract between the Applicant and the Company for the number of Shares for which the Application is accepted.

The Company will allot and issue the Shares offered by this Prospectus as soon as practicable after the grant of quotation of the Shares offered under this Prospectus.

Following the allotment and issue of the Shares, statements illustrating Applicants' shareholdings in the Company will be despatched. It is the responsibility of Applicants to determine their allocation prior to trading in the Shares. Applicants who sell Shares before they receive their holding statements will do so at their own risk.

### **1.13 CHESS**

The Company operates an electronic CHESS sub-register and an electronic issuer sponsored sub-register. These two sub-registers will make up the Company's register of Shares.

The Company will not issue certificates to Shareholders. Rather, holding statements (similar to bank statements) will be dispatched to Shareholders as soon as practicable after issue. Holding statements will be sent either by CHESS (for Shareholders who elect to hold Shares on the CHESS sub-register) or by the Company's Share Registry (for Shareholders who elect to hold their Shares on the issuer sponsored sub-register). The statements will set out the number of Shares issued under this Prospectus and the Holder Identification Number (for Shareholders who elect to hold Shares on the CHESS sub register) or Shareholder Reference Number (for Shareholders who elect to hold their Shares on the issuer sponsored sub-register). Updated holding statements will also be sent to each Shareholder following the month in which the balance of their Shareholding changes, and also as required by the ASX Listing Rules and the Corporations Act.

### **1.14 Professional advice**

The Directors recommend that potential investors, when making an informed assessment of what will be the assets and liabilities, financial position, profits and losses and prospects of the Company should read this Prospectus in its entirety.

Potential investors who have any questions about investing in the Company or are in any doubt about any matter relating to the Offer, should seek the advice of their professional advisers.

### **1.15 Taxation**

As it is not possible for the Company to provide individual taxation advice to each potential investor applying for Shares under this Prospectus, the Directors consider that it is not appropriate to provide advice regarding the taxation consequences for each investor applying for Shares pursuant to this Prospectus, or the taxation consequences of the Company conducting the Offer.

The Company, its advisors and its officers do not accept any responsibility or liability for any such taxation consequences to Applicants. As a result, each Applicant should consult their professional tax adviser in connection with subscribing for Shares under this Prospectus.

### **1.16 Major activities and financial information**

A summary of the major activities and financial information relating to the Company is included in the Half-Yearly Report, which was lodged with ASX on 26 February 2021 and the Company's most recent Annual Report, which was lodged with the ASX on 2 November 2020. The Company's continuous disclosure notices (ASX announcements) since 2 November 2020 are listed in section 6.2 of this Prospectus.

Copies of these documents are available free of charge from the Company. Directors strongly recommend that Shareholders and potential investors review these and all other announcements prior to deciding whether or not to participate.

### **1.17 Enquiries**

This document is important and should be read in its entirety. Persons who are in any doubt as to the course of action to be followed should consult their stockbroker, lawyer, accountant or other professional advisor without delay. Any questions concerning the Offer should be directed to the Company Secretary, being Mr Joshua Paul Quinn at [josh@wooboard.com](mailto:josh@wooboard.com).

The Company will hold an annual general meeting in accordance with the Corporations Act and the ASX Listing Rules.

#### **3.6 Voting rights**

Subject to any rights or restrictions for the time being attached to any Shares or class of Shares of the Company, each Shareholder, whether present in person or by proxy, attorney or representative at a meeting of Shareholders, has one vote on a show of hands and one vote on a poll for each fully paid Share held and a fraction of a vote for each partly paid Share, equivalent to the proportion paid up on that Share.

### **3.7 Directors**

The business of the Company is to be managed by or under the direction of the Directors. The Company must have at least three (3) Directors and not more than ten (10). The Board may appoint a person to be a Director at any time, but any such Director must retire at the next annual general meeting (at which meeting he or she may be eligible for election as director).

A Director may not hold office for a continuous period in excess of 3 years or past the third annual general meeting following the director's appointment, whichever is the longer, without submitting for re-election.

A retiring Director is eligible for re-election without the necessity of giving any previous notice of his or her intention to submit himself or herself for re-election.

### **3.8 Winding Up**

On a winding up of the Company a liquidator may, with the sanction of a special resolution of the Shareholders, divide among the Shareholders the property of the Company in kind. The liquidator may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

## 4 SECTION 4: RISK FACTORS

There are a number of Risk Factors that may have a material adverse effect on the Company's future operating and financial performance. The Shares to be issued pursuant to this Prospectus are to be considered a speculative investment.

The following summary explains some of the risks associated with investment in the Company and which may impact upon the financial performance of the Company. This section refers to risks which are specific to the Company and the industry and jurisdiction in which it operates, and also details general investment risks which may affect the Company and an investment in the Company. However, potential investors should read this Prospectus in its entirety and consult their professional advisers before applying for Shares under this Prospectus. The list of Risk Factors outlined here are not necessarily exhaustive.

Neither the Company, nor its Directors nor any of its professional advisers give any form of guarantee on future dividends, return on capital or the price at which the Shares might trade on the ASX. Investors should carefully consider the non-exhaustive list of risks associated with investing in the Company that are outlined below and consult with their professional advisors before making an investment in the Company.

### 4.1 Company-Specific Risk Factors

#### (a) Technology

The Company's business is solely based around its application i.e., App. The attraction of the App to users is its simple, new age and engaging user interface which facilitates ease of effective communication between employer and employee. There is a risk that the App technology may be superseded by a new technology which has advantages over the Company's offerings and delivers employer to employee communications in a more practical, efficient, engaging and reliable manner.

#### (b) Loss of customers

The Company's future revenue prospects are heavily reliant on the conversion of its clients trailing the App into paying clients, and the delivery of additional product offerings to those paying clients. Accordingly, the Company must maintain and support its existing customer relationships (whether trailing customers or paying customers) to ensure they continue using the App into the future.

#### (c) Sales and marketing success

As the App was only taken to the market in Australia in 2015, recognition of the Wooboard brand and the App (and subsequent user uptake) is limited at this stage. Accordingly, the commercial success of the App will be contingent on the success of the sales and marketing campaigns. By its nature, there is no guarantee that the Company's sales and marketing campaigns will be successful. In the event that it is not, the Company may encounter difficulty commercialising its product, which would have an impact on the Company's future sales and profitability.

#### (d) Growth strategies

The Company has a number of strategies to support future growth and earnings. There is a risk that the implementation of these strategies will be subject to delays or cost overruns and there is no guarantee that these strategies will generate the full benefits anticipated or result in future sales and earnings growth. Failure of these strategies would result in non-existent or negligible growth for the Company.

In particular, the Company is an early-stage start up, and as such its future success and profitability is modelled on accelerated growth and an expansion plan to achieve the objective of obtaining a large user footprint (both domestically and globally) for its App with users subscribing for multiple product offerings. The Company's growth and expansion prospects are dependent upon a number of factors, including user take up and the success of its marketing and sales campaigns. If the Company fails to execute any expansion plan and cannot attract users for its App or product offerings, its financial performance is likely to be negatively affected.

(e) **Intellectual property**

There is a risk that other parties may claim to have an interest in the intellectual property used by the Company, particularly in relation to the use of open-source coding in the App. The intellectual property may be challenged by other parties and defending such actions may adversely impact the Company's earnings. In addition, the company may be required to develop or support new technology and intellectual property which may require significant capital expenditure by the Company. The Company will likely acquire trade secrets and other intellectual property rights that are important assets and critical for the development of the App and the Company's product offerings in the future. The Company may therefore rely on a combination of confidentiality and licence agreements with its consultants and third parties with whom it has relationships, as well as domain name, trade secret, copyright and patent laws, to protect its brand and other intellectual property rights. However various events outside of the Company's control could pose a threat to its intellectual property rights, as well as to its products and the App.

(f) **Increase in competition**

The human resources technology market is highly competitive. The actions of an existing competitor or the introduction of a new competitor in this market may make it difficult for the Company to attract new users, expand its user base and subscribe for each of its product offerings. Further, customers may cancel their contracts with the Company. This will materially affect the Company's ability to grow its revenue, which in turn, may have an adverse effect on its profitability. If the Company's platform proves to be less successful than its competitors' products, the whole business of the Company could be adversely affected.

(g) **Reliance on key personnel**

The Company relies heavily on the experience and knowledge of its management team, which consists of strong experience in software development, recruitment, and human resources management. The Company is also dependent on its ability to recruit and retain suitably qualified personnel such as those in its business development, customer success and support team. In the event that such key personnel leave the Company, and the Company was unable to recruit suitable replacements, such loss could have a materially adverse effect on the Company, particularly given its size.

(h) **Programming errors**

The Company's App contains complicated programming. The Company's products may therefore contain, now or in the future, errors, bugs or vulnerabilities. Any errors, bugs or vulnerabilities discovered could result in (amongst other consequences) damage to the Company's brand, loss of users, loss of platform partners, falls in revenues or liability for damages, any of which could adversely affect the Company's business and operating results.

(i) **Reliance on application platform providers and search engines**

Should the Company's brand or products fail to attract a high level of internet search ranking, direction of users or potential new customers to its products could be limited and its business and operating results could be adversely affected. The Company will rely on application marketplaces to facilitate downloads of its App. Should any operators of application platforms utilised by the Company make changes to limit or make accessing or suing the App more difficult, the company's business and operating results may be affected. The Company's search result rank is outside of its control and competitors' search engine procedures may result in their website or applications receiving a higher search result ranking. Reduced numbers of potential users directed to the Company's App could adversely affect its business and operating results.

(j) **Maintenance of database**

The Company will maintain an extensive and highly confidential database of its candidates and key client contacts. All interactions with both candidates and clients are recorded on the database, with

such information shared across the Company for the benefit of all consultants. Any disruption to the database would have a detrimental impact on the way the Company conducts its day-to-day business.

#### **4.2 Risks specific to the industry in which the Company operates**

##### **(a) Reliance on SaaS-based models**

The Company's future growth is dependent on the increasing adoption of software as a service-based document productivity solution. If the Company's solution is not accepted and used by more organisations, or if the market for such solutions fails to grow as expected, the Company's platform could be adversely affected, slowing revenue growth and future expansion opportunities.

##### **(b) Cybersecurity**

Customer's confidential information may be held by the Company through its customers' ordinary use of the App. By their nature, technological systems, including the Company's, are susceptible to cyber-attacks, with third parties seeking unauthorised access to data, financial theft and to cause disruption to the ordinary use of services. These events could materially disrupt the Company's business and undermine users trust in technology platforms such as the one provided by the Company. Any accidental or deliberate breach of the Company's systems may result in reputational damage, a loss of confidence in the services provided, a disruption of services to customers, claims by customers, loss of customers, legal action, regulatory fines, investigation or scrutiny. The Company may also expend costs to rectify any of its system's vulnerabilities. Furthermore, security or data issues afflicting the Company's third-party suppliers could also adversely impact the Company's business operations, service offering and reputation.

##### **(c) Disruption of technology systems**

The Company relies on technology solutions and infrastructure (such as the internet, hosting services etc) to provide a satisfactory user experience for customers. There is a risk these systems may be adversely affected by disruption, service outages, malware, cyber-attacks, disruption, power surges or similar events. These may be caused by events outside of the Company's control and disrupt access to the App for lengthy periods, in turn damaging its reputation.

##### **(d) Change in regulation**

There is a general risk that laws and regulations pertaining to sharing of information, privacy of consumers and security of personal information may be imposed or strengthened, in a manner that could affect the Company's service delivery and future growth development opportunities. Potential regulations may impose restrictions on how the Company stores data, protects customer's data, uses customer's data or communicates usage, storage and protection of that data to customers.

#### **4.3 General investment risks**

##### **(a) COVID-19**

The global economic outlook is facing uncertainty due to the current COVID-19 (Novel Coronavirus) pandemic, which has been having, and is likely to continue to have an impact on the Company's performance. The ongoing risks include further state border closures, the unpredictable nature of these and the length of time and the rules involved in each such closure; reductions in hours of operation for the Company's stores; reduced patronage in these stores as a consequence of limiting customer numbers and restrictions on free movement of people travelling both locally and inter-State, all of which impact on the Company's financial performance and revenue forecasts and are outside the Company's control.

(b) **Trading and liquidity in Shares**

Development of an active market for the Shares is not guaranteed, and there may only be a small number of potential buyers or sellers of the Shares on the ASX at any given time. The result of there being only a small pool of buyers or sellers would impact Share liquidity and increase the volatility of the market price of the Shares. This may also impact the ability of Shareholders to sell their Shares at a price that is more or less than that paid by the Shareholder.

(c) **Regulatory matters**

The Company complies with a wide range of laws, regulations and accounting standards. Future changes to these laws, regulations and accounting standards from time to time could adversely affect the Company's future financial performance and position.

(d) **Macroeconomic risks**

The Company's business is exposed to changes in general global economic conditions. For example, adverse macroeconomic conditions such as economic recessions, downturns or extended periods of uncertainty or volatility may cause the Company's customers to defer or cancel expenditure or lead to downward pricing pressure. This may affect the Company's future financial performance and operating performance, the price of the Shares and the Company's ability to pay dividends.

(e) **Shareholder may suffer dilution**

In the future, the Company may elect to issue Shares, including to fund acquisitions that the Company may decide to make. While the Company will be subject to the constraints of the ASX Listing Rules regarding the percentage of its capital that it is able to issue within a 12-month period without Shareholder approval (other than where exceptions apply), Shareholders may be diluted as a result of such issues and fundraisings.

(f) **Adverse taxation changes may occur**

There is the potential for changes to tax laws. Any change to the current tax rate imposed on the Company (including any foreign jurisdictions in which the Company may operate in the future) is likely to affect returns to Shareholders.

(g) **Australian Accounting Standards may change**

Australian Accounting standards are set by the AASB and are outside the control of both the Company and its Directors. There is a risk that interpretation of existing Australian Accounting Standards, including those relating to the measurements and recognition of key income statement and balance sheet items, including revenue and receivables, may differ. Changes to Australian Accounting Standards issued by the AASB or changes to the commonly held view on the application to those standards could materially adversely affect the financial performance and position reported in the Company's reported financial statements.

(h) **Force Majeure events may occur**

Events may occur within or outside Australia that could impact upon the Australian economy, the Company's operations and the price of the Shares. The events include but are not limited to, acts of terrorism, an outbreak of international hostilities, fires, floods, earthquakes, labour strikes, civil wars, natural disasters, outbreaks of disease or other natural or man-made events or occurrences that can have an adverse effect on the demand for the Company's services and its ability to conduct business. The Company has only a limited ability to insure against some of these risks.

## 6 SECTION 6: ADDITIONAL INFORMATION

### 6.1 Transaction Specific Prospectus

The Company is a “disclosing entity” (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company’s Securities.

This Prospectus is a “transaction specific prospectus”. In general terms a “transaction specific prospectus” is only required to contain information in relation to the effect of the issue of securities on the Company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company, which has been notified to the ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and made reasonable enquiries, the Company believes that it has complied with the continuous disclosure requirements of ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify ASX of specified events or matters at the time at which they arose for the purpose of making such information available to the securities market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with ASIC in relation to the Company may be obtained from, or inspected at, an office of ASIC; and
- (c) the Company will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:

  - (iii) any continuous disclosure documents given by the Company to ASX in accordance with the ASX Listing Rules as referred to in section 674(1) of the Corporations Act after the lodgement of the annual financial report and before lodgement of this Prospectus with ASIC.

Copies of all documents lodged with ASIC in relation to the Company can be inspected at the registered office of the Company or an ASIC office during normal office hours.

There is no information which has been excluded from a continuous disclosure notice in accordance with the ASX Listing Rule that investors or their professional advisors:

- (a) would reasonably require for the purpose of making an informed assessment of:
  - (i) the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; and
  - (ii) the rights and liabilities attaching to the Shares the subject of this Prospectus; and
- (b) would reasonably expect to find in this Prospectus.
