Update on large/notable items in 1H21 results

ANZ today announced its first half 2021 Cash Profit will be impacted by a number of large/notable items:

- \$135m (after tax) of equity accounted losses from AMMB Holding Berhad ('AmBank') relating to goodwill impairment recognised by AmBank at 31 March 2021 (no impact on ANZ's Common Equity Tier 1 'CET1' capital).
- \$251m (after tax) relating to the write-down of goodwill attributable to the ANZ Share Investing business¹ as a result of that business being reclassified as held-for-sale, reflecting a continuation of the bank's simplification strategy (no impact on ANZ's CET1 capital).
- \$108m (after tax) of additional customer remediation charges.
- \$63m (after tax) comprised of restructuring charges and other smaller divestment impacts.

These large/notable items announced today are in addition to those previously advised during the half, namely:

- \$48m (after tax) in respect of the agreement to settle a class action brought against ANZ in the United States during 2016², and related legal and other costs.
- \$212m (after tax) of equity accounted losses from AmBank relating to the agreed settlement with the Malaysian Ministry of Finance as announced on 1 March³ (no impact on ANZ's CET1 capital).

In aggregate, ANZ's first half 2021 Cash Profit after tax will be impacted by \$817m, equivalent to ~5 basis points of CET1 capital.
