WHAT THE PROPOSED MERGER MEANS FOR CIRRALTO

- Cirralto will acquire 100 per cent of Appstablishment Software Group Pty Ltd.
- The acquisition includes all software assets developed by Appstablishment, which includes the Spenda software ecosystem.
- Cirralto will have alignment in its technology stack which is a critical step in further transforming Cirralto into a portfolio stock.
- The IP alignment extinguishes the current licensing agreement and in doing so removes a significant variable cost (\$2.4m* for the year ending FY2020) that both adversely effects margins and our ability to set our own pricing rules.
- The acquisition will clear up all ambiguity in branding and our go to market strategy.

*Refer to 30 June Annual Report

SPENDA AND INVIGO

- In April Cirralto signed a strategic loan funding arrangement with Invigo Pty Ltd to unlock B2B payment and point of activity learning opportunities.
- The arrangement sees Cirralto provide a fully secured \$2m strategic loan to Invigo to extend strategic commercial funding programs, unlock multiple commercial payment and point-of-activity leading opportunities.
- The funding enables Invigo to leverage its existing capital structure and provide additional lending to existing and new customers.

ADD LENDING UNLOCKS NEW MARKETS & DELIVERS THREE REVENUE SOURCES

- Additionally, the loan funding provides the necessary seed funding to support the deployment by Invigo of Business-to-Business Buy-Now, Pay-Later and Pay by Instalment products (using Cirralto's SpendaCollect product) across a pilot customer base with several retailers and manufacturers and their connected trading partners.
- There is substantial opportunity to expand the roll out of point of activity debt in the Cirralto revenue and product portfolio.

SUCCESSFUL BUSINESS PAYMENTS LAUNCH

BPSP / BPA IMPLEMENTATIONS ARE NOW COMPLETE

- The SpendaCollect, SpendaPay and Spenda POS products are all enabled to use the BPSP / BPA Services.
- The improved functionality will allow the Company to onboard more customers in a shorter time at 40% increased margin.
- The efficiency gains from this launch will provide a platform for growth that will allow us to increase our supply capacity to meet demand while also providing the foundation from which we will launch many new services.

B2B DIGITAL PAYMENTS ARE ESTIMATED TO BE WORTH \$100BN ANNUALLY* IN AUSTRALIA

NEW PAYMENT PRODUCT OFFERINGS

For personal use only

BUY-NOW, PAY-LATER SERVICES AT THE POINT-OF-ACTIVITY

Under the Partnering Agreement with Fintech lender, Invigo Pty Ltd (**Invigo**), the Company has brought to market the concept of Business Buy-Now, Pay-Later (**BNPL**) services, at the point of activity.

This will essentially enable retailers to purchase from their suppliers with extended credit terms at the 'point of activity' being the point of purchase. These services allow businesses to better manage their own cash flow and provide payment flexibility to the supply chain.

The Company is delivering this capability using the SpendaCollect product as a foundation upon which the payment technology is used to administer, approve and collect the debt.

QUOTE-TO-PAY

Designed to connect a pay by link service and enable customers to action payment to a business when they accept a quote, book a job or receive your request without ever surrendering their card information.

The system generates a link which is sent to a customer that prompts them to enter their credit card information, removing the need to provide sensitive details over the phone.

Application in many markets with a focus on specialist retailers where custom builds are required and the service industry.

These features will be available through the BPSP / BPA agreements

NEW PAYMENT PRODUCT OFFERINGS

WORKFLOW PAYMENTS

Workflow payments are designed to specifically target the issue of late payments in business.

It represents a new approach to B2B payments that provides greater security and delivers instant payment when a job is completed or when a pre-set status is met, such as the end of payment terms, removing the need to chase payments.

PAY-BY-LINK

Pay-by-link is a secure payment method that removes the need for customers to provide their credit card details to a third party.

Businesses are able to provide their customers a link via either email or text message, that they can use to make payment.

INTENT TO PAY FRAMEWORK

An intent to pay framework allows buyers and sellers to enter into payment plans so that both parties can better predict their cash flow and create certainty in debt recovery.

These features will be available through the BPSP / BPA agreements
