## QMINES LISTS ON THE FRANKFURT EXCHANGE

- QMines commences trading on Frankfurt Stock Exchange (**FSE:81V**);
- Strong European investor participation in QMines recent IPO capital raising; and
- The investor appetite for quality copper stocks continues as copper hits US\$10,356/t last week, **a new all-time high**.

QMines Limited (**QMines** or **Company**) (**ASX:QML**) is pleased to announce it has commenced trading on the Frankfurt Stock Exchange (**FSE:81V**) following strong support from several European funds and high net worth investors during its recent IPO.

With global demand increasing for quality copper companies, QMines is well positioned. Trading on both the ASX and FSE exchanges is expected to increase investor awareness in both Australia and Europe and continue to diversify the Company's shareholder base. Several of the QMines' ASX peers have recently dual-listed in Europe with strong success.

Executive Chairman, Andrew Sparke comments:

*"We are pleased to announce this strategic move as the European investment community is making significant investments in the green energy sector globally. The appetite for opportunities in battery metal and alternative energy companies in the Northern Hemisphere is very robust and access to the large European investor network is the first step in putting QMines onto the global stage."*
