

ASX Release

17 May 2021

Renascor Added to the MSCI Global Index

Renascor Resources Limited (ASX: RNU) (“**Renascor**”) is pleased to announce that Renascor has been added to the MSCI (Morgan Stanley Capital International) Micro Cap Australia index as of 27 May 2021.

The MSCI Australia Micro Cap Index is designed to measure the performance of the micro cap segment of the Australian equity market.

Further details on the latest changes to the MSCI Australia Micro Cap Index can be found at: https://app2.msci.com/eqb/gimi/stdindex/MSCI_May21_MicroPublicList.pdf.

This ASX announcement has been approved by Renascor’s Board of Directors and authorised for release by Renascor’s Managing Director David Christensen.

About Renascor

Renascor is committed to powering the clean energy transition through the development, in Australia, of a vertically integrated graphite mine and manufacturing operation to produce sustainable and ethically-sourced battery anode material for the lithium-ion battery market.

Renascor’s operation will combine:

- The Siviour Graphite Deposit in South Australia, the largest reported graphite Reserve outside of Africa¹, and
- A state-of-the-art processing facility in South Australia to manufacture purified spherical graphite through Renascor’s eco-friendly purification process.

Renascor’s aim is to become a leading supplier of 100% Australian-made and low-cost purified spherical graphite for lithium-ion battery anode makers worldwide.
