GROWING REVENUE AND SUCCESSFUL TRANSITION TO A PLATFORM DRIVEN BUSINESS MODEL

In FY20, the Company continued to focus on growing high margin platform SaaS revenue by expanding its sales and marketing resources to acquire more customers and increase usage of existing customers.

Key Highlights:

- Platform SaaS fees grow to become the Company's largest source of revenue.
- 47.8% y-o-y increase in gross sales for FY20, driven by strong growth in Platform SaaS and Marketplace gross sales, which grew by 56% and 91.3% y-o-y respectively.
- Statutory net loss for FY20 reduced by 27.1% to \$(5.62m). Significant reduction in loss was mainly due to incurrence of pre-IPO and IPO related expenses in FY19

The Company's hard work and adaptability over the past year has provided a strong foundation for revenue growth in FY21 for both its Platform SaaS business and recently signed partnerships, which are already generating revenue.

The Board is confident in the Company's strategy and is grateful to shareholders for their support.
