About 8VI Holdings Limited

8VI Holdings Limited ("8VI") is a Singapore-based FinEduTech company operating under the brand name VI.

Established in 2008, VI is the representation of our beliefs and roots in Value Investing and empowers the average man-on-the-street to achieve sustainable wealth as part of their mission to make investments smarter, faster and easier.

VI App, a unique, proprietary stock analysis tool developed through 8BIT Global Pte Ltd ("8BIT"), crunches traditional financial data and simplifies the complex stock analysis and decision-making process for equity investors into easy-to-use visuals under a comprehensive framework. As a licensed Financial Adviser approved by the Monetary Authority of Singapore, 8BIT provides financial advice concerning securities and units in collective investment scheme through research analyses and research reports, through VI App.

With numerous offices across the Asia Pacific region, VI College supports a community of graduates and value investors from 29 cities globally through its flagship "VI Bootcamp" and other programmes. As the region's leading FinEduTech provider, VI College leverages the power of technology and transforms the perception and application of value investing.

RESULTS FOR ANNOUNCEMENT TO THE MARKET (ASX APPENDIX 4E)

For the financial year from 1 April 2020 to 31 March 2021

RESULTS FOR ANNOUNCEMENT TO THE MARKET

(All comparisons to financial year ended 31 March 2020)

	S\$	Up/Down	% Movement
Revenue			
from ordinary activities	25,960,661	Up	139%
Profit after tax			
from ordinary activities attributable to members	5,861,405	Up	447%
Net profit			
attributable to members	5,861,405	Up	447%

EXPLANATION FOR REVENUE FROM ORDINARY ACTIVITIES, PROFIT AFTER TAX FROM ORDINARY ACTIVITIES AND NET PROFIT ATTRIBUTABLE TO MEMBERS

The increase in revenue from ordinary activities, profit after tax from ordinary activities and net profit attributable to members is attributable to the FinEduTech business that successfully transformed in response to changing consumption habits as global audience adjusts to the new normal.

Dividend information	Amount per share (Singapore cent)	Franked amount per share (Singapore cent)	Tax rate for franking credit
Final FY2021 dividend per share	NIL	NIL	NIL
		31.3.2021	31.3.2020
Net tangible assets per security		S\$0.26	S\$0.11

This information should be read in conjunction with the FY2021 Annual Financial Report of 8VI Holdings Limited and its subsidiaries and any public announcements made in the period by 8VI Holdings Limited in accordance with the continuous disclosure requirements of the Companies Act (Chapter 50) and Listing Rules.

Additional Appendix 4E disclosure requirements can be found in the Directors' statement and the consolidated financial statements for the financial year ended 31 March 2021.

This report is based on the consolidated financial statements which have been audited by KLP LLP.

Operations and Financials Update

Financial Year 2021

Overview

FY2021 has undoubtedly been another eventful year in 8VI's journey since we embarked on our digital transformation. We have not only successfully circumvented the traditional earning challenges and limitations of a conventional education and training business in record time, but we have also rewritten records in terms of our progress – both operationally and financially.

FY2021 in review

Following the successful implementation of our 3-year transformation plan in FY2019, we are today operating on a model where more than 90% of our operations are held online. In FY2021, we worked to further refine our strategy to ensure we enjoy economies of scale while keeping an eye on costs and cashflow against the backdrop of our broader macro-environment.

As a result, the Group recorded revenue of S\$26.0 million in FY2021 as compared to S\$10.9 million in the corresponding period in the previous year (FY2020), representing a growth of 139.1% with expanded Gross Profit and Net Profit Margins. Of which, 29% of our revenue is recurring, a significant improvement from the 20.5% in FY2020, which is a strong testament to our successful acquisition and retention strategies.

	FY2021	FY2020	Movement
EBITDA	S\$9.5m	S\$2.7m	↑ 247%
GP Margin	77%	73%	↑ 6%
NP Margin	25%	7%	↑ 249%

We recorded EBITDA of S\$9.5 million in FY2021, which represented a 246.7% jump as compared to the S\$2.7 million reported in the previous year and EBITDA margin of 36.5%. Accordingly, our net profit after tax attributable to owners of the company soared 446.7% to S\$5.9 million over S\$1.1 million in the corresponding period in FY2020.

With a revenue growth of 139.1% achieved in FY2021, accompanied by an EBITDA margin of 36.5%, we have also exceeded the Rule of 40, a performance metric commonly used for fast-growing technology companies, by 4-fold. Testament to 8VI's transformation strategy, the Group has grown its EBITDA at a faster pace than revenue, thus achieving operating leverage in FY2021.

In FY2021, we maintained a strong financial position with cash and cash equivalents as well as short term liquid assets totalling S\$22.2 million, as compared to S\$7.8 million in FY2020, and remained at zero debt with S\$9.8 million unearned revenue to be recognised.

Operations and Financials Update

Financial Year 2021

Receipt from Customers
(S\$ Million)

Cash receipts from customers have increased significantly over the last nine quarters. Cash receipts from customers for fourth quarter FY2021 were S\$10.7 million, up 118% as compared to S\$4.9 million in fourth quarter FY2020.

Cash flow from operations have increased significantly to S\$16.8 million compared to S\$3.9 million in FY2020, while free cash flow stands at S\$15.6 million, a jump from S\$3.6 million in FY2020. This was attributable to improved performances across both our Financial Education and FinTech segments.

We also made a significant breakthrough this year with VI App, developed through 8BIT Global Pte Ltd (8BIT), which garnered regulatory clearance as a Licensed Financial Adviser approved by the Monetary Authority of Singapore. This means we can provide financial advice around securities and units in collective investment schemes through research analyses and research reports via VI App.

The license enables us to demonstrate more conviction on our data and put forward detailed recommendations based on VI Analysis, our proprietary rating system. The system allows our users to immediately verify the soundness of the target company's financials and show how valuations are derived. These features are designed to aid overall investor confidence in making smarter, faster and easier investment decisions.

Adding breadth and depth to our acquisition, retention, and technology development efforts

i. Acquisition

The ability to generate a unique and robust content flow remains key to how we acquire potential graduates, which entails planning, creating and deploying content across various platforms to build engagement and feature the new additions to our educational programmes.

This year, we have broadened our content creation efforts on many levels and across regions to ensure we reach a wider audience set and engage with them in more meaningful ways and in localised contexts, whilst building awareness for our brand.

By ensuring a robust content calendar and leveraging our owned social channels, we have extended our reach across borders both in Malaysia and Singapore through targeted, language-specific content. Following our success in Malaysia in reducing the reliance on direct marketing, we have replicated the same approach in Singapore by assembling a dedicated team that is responsible for content planning, creation and implementation.

From an acquisition perspective, we are also seeing the benefits of the network effect from the ecosystem. This network effect is a result of the virtuous cycle that originates from the content that we generate, which is then shared across various platforms to build engagement across languages and broaden our reach across borders to grow our community and followers. As a result, there are deeper opportunities within our ecosystem to drive collaboration through third-party partnerships with financial services agents, brokerages and financial planners. This not only effectively expands our service base and offerings to our existing graduates and community, but also contributes to how we can attract new, potential graduates.

Operations and Financials Update

Financial Year 2021

Our success in acquisition is based on monthly growth in users and subscribers, as well as growth in Annual Recurring Revenue (ARR); both of which have increased on healthy levels in FY2021. We have also seen overall growth in our Total Number of Graduates of 450% at 25,926 pax in FY2021, Total User Growth Rates of 207% as well as Subscriber Growth Rates of 189% in the last twelve months, which is testament to our successful acquisition model. While we have seen our percentage growth in the past year stabilise over the course of the year, our growth in terms of absolute numbers have actually grown significantly. The success of various programmes such as our flagship VI Bootcamp reflects the success of our strategy, as these continue to grow in popularity and take up.

ii. Retention

In the past year, we have been building retention amongst our graduates by bringing a customer-centric culture and mindset to the table, which in turn enables us to create entire lifetime value. Through the use of our planned CRM system to mine data analytics, we see long-term potential to build on our insights to improve the entire experience for our graduates. Once complete, our CRM system will build, link and leverage data to optimise both our operations and our product and programme offerings with the appropriate business intelligence. The system is currently being implemented and is expected to be completed in phases over the next year.

We also practice active engagement and content building via our VI Social Bubble, while providing content and support highly received in the form of VI Coaching Sessions and VI Resources for flagship programme graduates. We have expanded our library of VI Resources this year as well across English, Malay and both Simplified and Traditional Chinese languages, with content to ensure that we continue to promote knowledge sharing and exchange amongst our community.

Our retention success rates are measured via performance metrics such as the Page View Growth Rate, equivalent to the number of average page views on our website, which continues on a

healthy growth in FY2021. We also measure success via our overall participation in VI Coaching viewership and participation, which has also been gaining momentum in the past year. For example, VI Coaching sessions in English have grown at a rate of 202% since its inception in May 2020 till March 2021.

iii. Technology Development

This year, we have continued to develop existing and new features on VI App that are designed to enhance the overall experience.

In relation to the AI and machine learning (ML) aspects, we are already in the process of establishing a team of data science engineers focusing on enhancing various features within the VI App. The team will focus on using various ML techniques, working closely with our community managers and business analysts, to enhance existing features and possibly discover new features.

Some of the planned upcoming enhancements and premium features within VI App include:

“Enhanced Peers” feature which allows better identification of peer companies so as to unearth other opportunities that are in the same business;

“Dynamic News Feed” feature, which presents relevant social news that matters and is aligned with the user behavioural patterns;

“Intelligent Alerts” which generates relevant notifications and deemed important based on the user profile;

“VI Score” which complements the Screener and Peer Comparison modules in VI App, while ranking the quality of a company based on historical financial and price-performance, ranking companies based on their quality for research prioritisation; as well as

“Guru Bubble” where a Watchlist is linked to a Social Bubble under a specific theme with a community built around the bubbles which encourages learning and discussion of specific strategies within the Bubble.

Operations and Financials Update

Financial Year 2021

All these will not only improve user experiences but also allow users to quickly discover new perspectives in their investment journeys. These exciting developments are testament to our core capabilities as a technology company that integrates our loves for finance and education, as well as one that constantly seeks to stay ahead of the curve as we code for a smarter future.

Growing our recurring revenue model

VI App, coupled with VI College, is a cohesive ecosystem which is designed to make investments Smarter, Faster and Easier and without borders. Our value proposition is crystal clear: users can Analyse, Learn and Connect on all levels of smart investing using one single tool.

We leverage the unit economics of our unique business model, where unlike other technology start-ups that invest heavily in acquiring users through cash, our entry-level product range already covers our cost of acquiring a new potential graduate. As such, we are witnessing amplified benefits where all additional spending translates into positive impact on our margins, which we intend to re-invest into our growth plans. Coupled with our prudent cashflow management despite the pandemic, we aim to similarly establish our 80:20 model here as well in the long run – to have 80% of our revenue on a recurring basis.

With our digital transformation complete, we are doing ever more with ever less as a result of our technological capabilities. Ongoing digitalisation has further catalysed the changes and pace of change as compared to the conventional ways of operating. By integrating our signature programs with the subscription to our VI platform, we have achieved a massive breakthrough in the way our company grows and generates high-quality recurring revenue and positive cashflow.

Cementing our position in core markets

Today, we operate in highly successful and well-adapted English, Chinese and Malay language-speaking markets, with our operations in Singapore, Malaysia, Shanghai and Taiwan. In these markets, we have a physical presence while operating almost solely through online channels. Our geographical revenue also represents one of our 80:20 strategies, where we hope to work towards having 80% of our revenue outside of Singapore.

In FY2021, Malaysia accounted for 40% of our revenue, whilst another 20% comprised international income – a combination of revenue from other markets and our VI App subscriptions. Our Singapore revenue contribution stood at 40% meanwhile.

Malaysia remains a significant, addressable growth market of focus and together with Taiwan, continued to generate positive growth in FY2021. Malaysia has always been an important market for us with its large, multi-language population, and represents a much deeper market where we can capture new opportunities. Here, we are developing the market through bespoke content and learning materials catered according to local language and demographics, such as Shariah-compliant investing.

We have seen good traction in our Taiwan market to date, which is now operating independently with positive growth. On the whole, Taiwan is a more mature market which offers healthy potential as the local audiences are well exposed to investment-related topics and more receptive towards personal development programmes. The focus will therefore be to grow our presence and brand in the region with outreach activities and engaging social media content to reach Taiwan's local audiences.

Key to future growth: investing in digitalisation & talent, expanding our addressable market and new products in the regulated space

We have witnessed a major structural shift in many industries, including ours, and in how we work amidst the ongoing COVID-19 pandemic. To adapt ourselves to these changes, we intend to invest heavily in a few key areas.

- **Investing for a smarter future – digitalisation & talent**

We will be working towards progressive automation of our operational processes and a data-driven approach to analytics to enable us to achieve the best business results and optimize business decisions on the backend. In the course of doing so, we also plan to digitalise more programmes and integrate these programmes onto our VI App platform going forward.

We also plan to digitalise more specific aspects of our programmes going forward, for instance, for our participants in our VI Bootcamp, Full Edition programme (VIB FE). Within the simulated investing games offered in VIB FE, we are automating and incorporating the game portal into the VI App to enable more hands-on participation from participants and involve less manual facilitation and intervention from our team members.

This year, we set up our broadcasting studios in Singapore and Malaysia for the production of digital content to serve this purpose. As a borderless working culture becomes the new norm, our broadcasting studios are also outfitted with the requisite capabilities to host large scale events that transcend borders, such as our recent VI Summit 2021, which saw approximately 3,500 members in attendance – our largest VI Summit event to date.

Our 80:20 rule also applies to our ways of working, where 80% of our operations will be digital going forward. With work-from-home (WFH) practices

here to stay, we have equipped our employees with the right infrastructure, hardware and software setups to ensure we are ready to tackle hybrid working arrangements. In the coming year, we will be looking to invest in a new space for our talents to come together to build a stronger brand and culture for the Group and team, ensuring that we are on the front foot and ready to face any challenges at any given time. In addition, we have also expanded our training and development budget so that our team members can benefit from continuous learning.

Last year, we grew our development team to be the largest component within the Group as part of our expansion plans. Going forward, we plan to invest a significant amount of our resources and costs into diversifying our human capital in various aspects, in order to find the right talent to strengthen our position in technology. Our quest to acquire talented individuals in the fields that support our growth plans is expected to accelerate further in the coming years, as we focus on acquiring the right skillsets in these areas. We are constantly looking for subject matter experts who have a passion for all things FinEduTech to join us on our exciting growth journey.

- **Expanding our addressable market**

As we look at the total addressable market (TAM) for asset and wealth management in the coming years, there is immense potential to be tapped. Amongst three core segments of the TAM comprising “Do It Myself”, “Do It With Me” and “Do It For Me” groups, we have identified a core group of target users, whom we call the ‘Do It With Me’ group, that we want to engage with at this stage.

These individuals are straddling the Millennial and Gen X ages of between 25 – 55 years of age, who would be keen to learn how to invest, and are willing to pay for a service that can offer coaching, ongoing support and case studies. They would also be the ones to use VI Analysis to make informed investment decisions.

Operations and Financials Update

Financial Year 2021

In the longer-term future, we will also be keen to look at the “Do It For Me” group of users and ways to engage with them through more offerings on our platform. These are individuals who appreciate our investment philosophies and the learning offered through our programmes and resources, but still prefer to have a representative who will manage and invest on their behalf – a role which we can work towards fulfilling.

As part of our growth strategy, we hope to be able to cast our net wider to attract more potential VI App users. These could be avid, mass-market investors who may primarily choose to tap on the convenience of a generic, user-friendly version of our app for smarter, faster, easier investing. At the same time, we would also look at ways to expand VI College’s business model laterally with new offerings to extend the value chain for our existing and new customer base.

- *Positioned to offer more regulated products and services*

Having secured 8BIT’s license to provide financial advice around securities and units in collective investment schemes through research analyses and research reports via VI App, we believe we are in a position to explore offering more of such regulated products and services that are complementary to our existing FinEduTech business.

Tapping on our capabilities in using data, analytics and AI to analyse our users, incorporate risk assessment and better understand our users’ investment styles, we plan to integrate complementary financial services on our VI App platform where we see synergies and value-add to our community. By making inroads into these types of regulated services, we believe we can further raise our competitive edge in the long-term by extending our position on the value chain – all towards our ultimate goal of building a smarter future for our community.

Towards a smarter future

Having emerged stronger through the disruption a year ago, we are set up and ready to face any upcoming challenges whenever they arise. The resilience, nimbleness and flexibility that we have developed through weathering past challenges will equip us well to handle oncoming ones.

In the coming year, we will be looking at ways to further raise our corporate profile so as to attract new opportunities within various markets. In line with these efforts, we will be exploring ways to improve the liquidity of our counter, which may result in certain shareholders realising a portion of their investment in order to create the necessary headroom for potential new investors. We believe this is an opportune and appropriate time to embark on this as we ready 8VI for the next growth phase.

Meanwhile, we will continue to sharpen our competitive edge on our Investment Intelligence as a Service (IIAAS) model – leveraging AI, big data analytics and machine-learning, sharing investing knowledge and empowering better investment decisions, and ultimately generating alpha for our investors.

We intend to remain laser-focused on building a smarter future with our growth initiatives and we are confident that the strong foundation that we have put in place enables us to strengthen our FinEduTech platform further for the next decade.

DIRECTORS' STATEMENT

For the financial year ended 31 March 2021

The directors are pleased to present their statement to the members together with the audited consolidated financial statements of 8VI Holdings Limited (the "Company") and its subsidiaries (the "Group") and the statement of financial position and statement of changes in equity of the Company for the financial year ended 31 March 2021.

1. Opinion of the directors

In the opinion of the directors,

- (a) the consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are drawn up so as to give a true and fair view of the financial position of the Group and of the Company as at 31 March 2021 and the financial performance, changes in equity and cash flows of the Group and changes in equity of the Company for the year ended on that date, and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

2. Directors

The directors of the Company in office at the date of this statement are:

Clive Tan Che Koon
Pauline Teo Puay Lin
Chee Kuan Tat, Ken
Charles Mac

3. Arrangements to enable directors to acquire shares or debentures

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose objects are, or one of whose objects is, to enable the directors of the Company to acquire benefits by means of the acquisition of shares or options in, or debentures of, the Company or any other body corporate.

4. Directors' interests in shares or debentures

- (a) According to the register of directors' shareholdings kept by the Company under section 164 of the Singapore Companies Act, Chapter 50 (the "Act"), the directors of the Company who held office at the end of the financial year had no interests in the shares or debentures of the Company and its related corporations except as stated below:

DIRECTORS' STATEMENT

For the financial year ended 31 March 2021

4. Directors' interests in shares or debentures (continued)

	Holdings registered in name of director or nominee	
	At 31.3.2021	At 1.4.2020
Holding Company, 8I Holdings Limited		
(No. of ordinary shares)		
Clive Tan Che Koon	65,140,000	65,140,000
Pauline Teo Puay Lin	8,859,103	8,859,103
Chee Kuan Tat, Ken	86,885,009	86,684,792
The Company, 8VI Holdings Limited

Pauline Teo Puay Lin	184,943	-
Chee Kuan Tat, Ken	400,000	-

- (b) According to the register of director's shareholdings, certain directors holding office at the end of the financial year had interests in performance rights and options to subscribe for ordinary shares of the Company, granted pursuant to the Company's Employee Securities Incentive Plan set out below and under "Rights and Share Options" below:

	No. of unissued ordinary shares under performance rights and options	
	At 31.3.2021	At 1.4.2020
8VI Holdings Limited		
<u>Clive Tan Che Koon and Pauline Teo Puay Lin</u>		
Class C Performance Rights	100,000	-
Class D Performance Rights	100,000	-
Class E Performance Rights	125,000	-
Class F Performance Rights	125,000	-
Options	500,000	-
<u>Chee Kuan Tat, Ken</u>		
Class C Performance Rights	200,000	-
Class D Performance Rights	200,000	-
Class E Performance Rights	250,000	-
Class F Performance Rights	250,000	-
Options	1,000,000	-

- (c) Chee Kuan Tat, Ken, who by virtue of his interest of not less than 20% of the issued capital of the holding company, is deemed to have an interest in the share capital of the Company.
- (d) The directors' interests in the ordinary shares and convertible securities of the Company as at 21 April 2021 were the same as those as at 31 March 2021.

5. Rights and share options

(a) Employee Securities Incentive Plan

The Company's Employee Securities Incentive Plan ("Share Plan") for key directors and employees of the Group was approved by members of the Company as its annual general meeting on 23 July 2020. The Share Plan provides a means to attract, motivate and retain key directors and employees and provide them with the opportunity to participate in the future growth of the Company.

DIRECTORS' STATEMENT

For the financial year ended 31 March 2021

5. Rights and share options (continued)

(a) Employee Securities Incentive Plan (continued)

Under the Share Plan, the board of directors may from time to time determine that a director of the companies of the Group, subject to its members' approval, or an employee may participate in the Share Plan to apply for securities on such terms and conditions as the board of directors decides.

The persons to whom the rights and options have been issued have no right to participate by virtue of the options in any share issue of any other companies of the Group. The Group has no legal or constructive obligation to repurchase or settle the securities in cash.

During the financial year, pursuant to members' approval at its annual general meeting on 23 July 2020, the Company granted its directors options to subscribe for 2,000,000 ordinary shares at exercise price of AUD 0.45 per share ("Options") and performance rights to be converted into 2,600,000 ordinary shares upon meeting the vesting conditions ("Performance Rights").

The Options are exercisable from 21 August 2020 and expire on 30 June 2025. The total fair value of the Options granted was estimated to be AUD 955,600 using the Hoadleys Employee Stock Option Model. Details of the Options granted to directors of the Company are as follows:

Name of director	No. of unissued ordinary shares of the Company under Options			
	Granted in financial year ended 31.3.2021	Aggregated granted since commencement of plan to 31.3.2021	Aggregated exercised since commencement of plan to 31.3.2021	Aggregate outstanding as at 31.3.2021
Clive Tan Che Koon	500,000	500,000	-	500,000
Pauline Teo Puay Lin	500,000	500,000	-	500,000
Chee Kuan Tat, Ken	1,000,000	1,000,000	-	1,000,000

The Performance Rights will not have consideration on satisfaction of the vesting conditions. The vesting conditions for the Performance Rights are:

- The holder being a director of the Company as at the relevant vesting determination dates specified in the table below; and
- The relevant volume weighted average price (VWAP) of the Company's shares traded on ASX over any 20-day period exceeds the prices specified in the table below.

Performance Rights	Performance Rights granted			Vesting conditions		Expiry Date
	Number	Effective grant date	Fair value per right at effective grant date (AUD)	Earliest vesting determination date	VWAP Share Price condition (AUD)	
Class A	400,000	23 Jul 2020	0.4675	21 Aug 2020	0.45	30 Apr 2021
Class B	400,000	23 Jul 2020	0.3813	21 Aug 2020	0.60	30 Apr 2021
Class C	400,000	23 Jul 2020	0.4037	01 Apr 2021	0.70	30 Apr 2022
Class D	400,000	23 Jul 2020	0.2016	01 Apr 2021	2.00	30 Apr 2022
Class E	500,000	23 Jul 2020	0.2570	01 Apr 2022	2.30	30 Apr 2023
Class F	500,000	23 Jul 2020	0.1389	01 Apr 2022	5.00	30 Apr 2023

DIRECTORS' STATEMENT

For the financial year ended 31 March 2021

5. Rights and share options (continued)

(a) Employee Securities Incentive Plan (continued)

The total fair value of the Performance Rights granted was estimated to be AUD 779,590 using the Hoadleys Hybrid ESO Model (a Monte Carlo simulation model). Details of the Performance Rights granted to directors of the Company are as follows:

Name of director	No. of unissued ordinary shares of the Company under Performance Rights			
	Granted in financial year ended 31.3.2021	Aggregated granted since commencement of plan to 31.3.2021	Aggregated exercised since commencement of plan to 31.3.2021	Aggregate outstanding as at 31.3.2021
Clive Tan Che Koon	650,000	650,000	200,000	450,000
Pauline Teo Puay Lin	650,000	650,000	200,000	450,000
Chee Kuan Tat, Ken	1,300,000	1,300,000	400,000	900,000

During the financial year, the vesting conditions of the Class A Performance Rights and Class B Performance Rights were satisfied and both classes of Performance Rights were converted into ordinary shares. Mr Chee received 400,000 ordinary shares while Mr Tan and Ms Teo received 200,000 ordinary shares respectively from the exercising of their Class A Performance Rights and Class B Performance Rights.

(b) Performance Rights and Options outstanding

The number of unissued shares under Performance Rights and Options in relation to the Share Plan outstanding at the end of the financial year was as follows:

DIRECTORS' STATEMENT

For the financial year ended 31 March 2021

6. Auditor

KLP LLP has expressed its willingness to accept re-appointment as auditor.

On behalf of the Board of Directors,

Chee Kuan Tat, Ken
Director

Singapore, 29 May 2021

Pauline Teo Puay Lin
Director

Independent Auditor's Report to the members of 8VI Holdings Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of 8VI Holdings Limited (the "Company") and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at 31 March 2021, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows of the Group and the statement of changes in equity of the Company for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the Group and the statement of financial position of the Company are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the "Act") and Financial Reporting Standards in Singapore (FRSs) so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 31 March 2021 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group and changes in equity of the Company for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing (SSAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority (ACRA) Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities (ACRA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled our responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

**Independent Auditor's Report to the members of 8VI Holdings Limited
(continued)**

Key audit matters (continued)

Key audit matter in the audit of the Group	How our audit addressed the key audit matter
<p>Intangible assets recognition and measurement</p> <p>Refer to Note 5 "Intangible assets", Note 2.6 (b) 'Summary of significant accounting policies – intangible assets and Note 3.1 (d) "Critical accounting estimates, assumptions and judgments" to the consolidated financial statements.</p> <p>As at 31 March 2021, the Group's intangible assets included development software amounting to S\$790,401 (net of amortisation).</p> <p>During the year, the Group conducted a continuous update on the mobile application for VI App. Management applied judgement in identifying which functions need updates and expenditure attributable to the updates that met the criteria for capitalisation under the requirements of accounting standards. Factors taken into account by management included the Group's intention, availability of technical, financial and other resources and technical ability to complete the updates, the likelihood of generating sufficient future economic benefits to the Group and its ability to measure the expenditure incurred.</p> <p>We considered such to be a key audit matter because of the significance of the costs capitalised and the judgement involved in assessing whether the capitalisation criteria have been met.</p>	<p>Our procedures in relation to the Group's recognition and measurement of development software, we:</p> <ol style="list-style-type: none"> 1. Obtained an understanding and assessing the design of the controls in relation to how management determined and measured costs that are directly attributable to the development activities; 2. Evaluate the nature of the development costs incurred that are capitalised into intangible assets; 3. Assessing the reasonableness of the capitalisation based on our knowledge of the business and industry. 4. Evaluating the appropriateness of expenses capitalised on a sample basis by agreeing the costs to internal timesheet and payroll records. <p>Based on the procedure performed above, we consider the costs capitalised to be supportable by available evidence.</p>

Other Information

Management is responsible for other information. The other information comprises the Board of Directors, Corporate Governance Report and Directors' Statement (but does not include the financial statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report, and the other sections of the annual report ("the Other Sections"), which are expected to be made available to us after that date.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

**Independent Auditor's Report to the members of 8VI Holdings Limited
(continued)**

Other Information (continued)

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with SSAs.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

**Independent Auditor's Report to the members of 8VI Holdings Limited
(continued)**

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiary corporations incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Rochelle Santiago.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

These notes form an integral part and should be read in conjunction with the accompanying financial statements.

1. Corporate information

1.1 General

8VI Holdings Limited (the “Company”, formerly known as 8VIC Holdings Limited) is a limited liability company incorporated and domiciled in Singapore and is listed on the Australian Securities Exchange (ASX). The registered office and principal place of business of the Company is located at 47 Scotts Road #03-03/04 Goldbell Towers, Singapore 228233.

The principal activities of the Company are management consultancy services.

The immediate and ultimate holding company is 8I Holdings Limited, which is incorporated and domiciled in Singapore and is listed on the Australian Securities Exchange (ASX).

The principal activities of the subsidiaries are disclosed in Note 6 to the financial statements.

2. Summary of significant accounting policies

2.1 Basis of preparation

The consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company have been prepared in accordance with Financial Reporting Standards in Singapore (FRSs), under the historical cost convention, except as disclosed in the accounting policies below.

The preparation of financial statements in conformity with FRSs requires management to exercise its judgement in the process of applying the Group’s accounting policies. It also requires the use of certain critical accounting estimates and assumptions. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

The financial statements are presented in Singapore Dollars (S\$).

Interpretations and amendments to published standards effective in 2020

On 1 April 2020, the Group has adopted the new or amended FRSs and Interpretations of FRSs (“INT FRSs”) that are mandatory for application for the financial year. Changes to the Group’s accounting policies have been made as required, in accordance with the transitional provisions in the respective FRSs and INT FRSs.

The adoption of these new or amended FRSs and INT FRSs did not result in substantial changes to the Group’s accounting policies and had no material effect on the amounts reported for the current or prior financial years except for the early adoption of amendment to FRS 116 Leases: Covid-19-Related Rent Concessions:

Early adoption of amendment to FRS 116 Leases: Covid-19-Related Rent Concessions

The Group has elected to early adopt the amendment to FRS 116 which introduced a practical expedient for a lessee to elect not to assess whether a rent concession is a lease modification, if all the following conditions are met:

(a) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.1 Basis of preparation (continued)

Early adoption of amendment to FRS 116 Leases: Covid-19-Related Rent Concessions (continued)

(b) any reduction in lease payments affects only payments originally due on or before 30 June 2021; and

(c) there is no substantive change to other terms and conditions of the lease.

The Group has elected to apply this practical expedient to all property leases. As a result of applying the practical expedient, rent concessions of S\$65,191 (Note 20) was included in "Government grants" presented under "Other income" in the profit or loss during the year.

2.2 Revenue recognition

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Group satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

(a) Rendering of services

The Group provides program sales, events site rental income, digital production and advertising income. Revenue is recognised when the services have been performed and rendered.

(b) Commission income

Commission income is recognised when the corresponding service is provided.

(c) Programme fees

This comprises of providing financial education and training services. Revenue is recognised when the participants attended first day of training. The Company will record contractual liabilities for advance payment made for the training.

(d) Interest income

Interest income is recognised using the effective interest method.

(e) Dividend income

Dividend income is recognised when the right to receive payment is established. It is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be reliably measured.

(f) Subscription income

Subscription income is recognised over the subscription period.

2.3 Government grants

Grants from the government are recognised as a receivable at their fair value when there is reasonable assurance that the grant will be received and the Group will comply with all the attached conditions.

Government grants received are recognised as income over the periods necessary to match them with the related costs which they are intended to compensate, on a systematic basis. Government grants relating to expenses are shown separately as other income.

Government grants relating to assets are deducted against the carrying amount of the assets.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.4 Group accounting

(a) Subsidiaries

(i) Consolidation

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date on that control ceases.

In preparing the consolidated financial statements, inter-companies transactions and balances and unrealised gains on transactions between group entities are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment indicator of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests comprise the portion of a subsidiary's net results of operations and its net assets, which is attributable to the interests that are not owned directly or indirectly by the equity holders of the Company. They are shown separately in the consolidated statement of comprehensive income, statement of changes in equity, and consolidated statement of financial position. Total comprehensive income is attributed to the non-controlling interests based on their respective interests in a subsidiary, even if this results in the non-controlling interests having a deficit balance.

The acquisition method of accounting is used to account for business combinations entered into by the Group.

(ii) Acquisitions

The consideration transferred for the acquisition of a subsidiary or business comprises the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred also includes any contingent consideration arrangement and any pre-existing equity interest in the subsidiary measured at their fair values at the acquisition date.

Acquisition-related costs are expensed as incurred.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date.

On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree at the date of acquisition either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

The excess of (a) the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the (b) fair value of the identifiable net assets acquired is recorded as goodwill. Please refer to the paragraph "Intangible assets – Goodwill on acquisitions" for the subsequent accounting policy on goodwill.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.4 Group accounting (continued)

(a) Subsidiaries (continued)

(iii) Disposals

When a change in the Group's ownership interest in a subsidiary result in a loss of control over the subsidiary, the assets and liabilities of the subsidiary including any goodwill are derecognised. Amounts previously recognised in other comprehensive income in respect of that entity are also reclassified to profit or loss or transferred directly to retained earnings if required by a specific Standard.

Any retained equity interest in the entity is remeasured at fair value. The difference between the carrying amount of the retained interest at the date when control is lost and its fair value is recognised in profit or loss.

Please refer to the paragraph "Investments in subsidiaries and associated companies" for the accounting policy on investments in subsidiaries in the separate financial statements of the Company.

(b) Transactions with non-controlling interests

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control over the subsidiary are accounted for as transactions with equity owners of the Company. Any difference between the change in the carrying amounts of the non-controlling interest and the fair value of the consideration paid or received is recognised within equity attributable to the equity holders of the Company.

(c) Associated companies

Associated companies are entities over which the Group has significant influence, but not control, generally accompanied by a shareholding giving rise to voting rights of 20% and above but not exceeding 50%.

Investments in associated companies is accounted for in the consolidated financial statements using the equity method of accounting less impairment losses, if any.

(i) Acquisitions

Investments in associated companies is initially recognised at cost. The cost of an acquisition is measured at the fair value of the assets given, equity instruments issued or liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Goodwill on associated companies represents the excess of the cost of acquisition of the associated company over the Group's share of the fair value of the identifiable net assets of the associated company and is included in the carrying amount of the investments.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.4 Group accounting (continued)

(c) Associated companies (continued)

(ii) *Equity method of accounting*

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise Group's share of its associated companies' post-acquisition profits or losses of the investee in profit or loss and its share of movements in other comprehensive income of the investee's other comprehensive income. Dividends received or receivable from the associated companies are recognised as a reduction of the carrying amount of the investments. When the Group's share of losses in an associated company equals to or exceeds its interest in the associated company, the Group does not recognise further losses, unless it has legal or constructive obligations to make, or has made, payments on behalf of the associated company. If the associated company subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

Unrealised gains on transactions between the Group and its associated companies are eliminated to the extent of the Group's interest in the associated companies. Unrealised losses are also eliminated unless the transactions provide evidence of impairment of the assets transferred. The accounting policies of associated companies is changed where necessary to ensure consistency with the accounting policies adopted by the Group.

(iii) *Disposals*

Investments in associated companies is derecognised when the Group loses significant influence. If the retained equity interest in the former associated company is a financial asset, the retained equity interest is measured at fair value. The difference between the carrying amount of the retained interest at the date when significant influence is lost, and its fair value and any proceeds on partial disposal, is recognised in profit or loss.

Please refer to the paragraph "Investments in subsidiaries and associated companies" for the accounting policy on investments in associated companies and in the separate financial statements of the Company.

2.5 Property, plant and equipment

(a) *Measurement*

(i) *Property, plant and equipment*

Property, plant and equipment are initially recognised at cost and subsequently carried at cost less accumulated depreciation and accumulated impairment losses. Dismantlement, removal or restoration costs are included as part of the cost of property, plant and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the property, plant and equipment.

(ii) *Components of costs*

The cost of an item of property, plant and equipment initially recognised includes its purchase price and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.5 Property, plant and equipment (continued)

(b) Depreciation

Depreciation of property, plant and equipment is calculated using the straight-line method to allocate their depreciable amounts over their estimated useful lives as follows:

	<u>Useful lives</u>
Office premises	1 to 3 years
Office equipment	1 to 3 years
Furniture and fittings	3 years
Motor vehicles	5 years

The residual values, estimated useful lives and depreciation method of property, plant and equipment are reviewed, and adjusted as appropriate, at each reporting date. The effects of any revision are recognised in profit or loss when the changes arise.

(c) Subsequent expenditure

Subsequent expenditure relating to property, plant and equipment that has already been recognised is added to the carrying amount of the asset only when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. All other repair and maintenance expenses are recognised in profit or loss when incurred.

(d) Disposal

On disposal of an item of property, plant and equipment, the difference between the disposal proceeds and its carrying amount is recognised in profit or loss within "other gains and (losses)".

2.6 Intangible assets

(a) Goodwill

Goodwill on acquisitions of subsidiaries and businesses, represents the excess of (i) the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over (ii) the fair value of the identifiable net assets acquired. Goodwill on subsidiaries is recognised separately as intangible assets and carried at cost less accumulated impairment losses.

Goodwill on acquisitions of associated companies represents the excess of the cost of the acquisition over the Group's share of the fair value of the identifiable net assets acquired. Goodwill on associated companies is included in the carrying amount of the investments.

Gains and losses on the disposal of subsidiaries and associated companies include the carrying amount of goodwill relating to the entity sold.

(b) Development of software

Research costs are recognised as an expense when incurred. Costs directly attributable to the development of VI App and CRM system are capitalised as intangible assets only when technical feasibility of the project is demonstrated, the Group has an intention and ability to complete and use the software and the costs can be measured reliably. Such costs include purchases of materials and services and payroll-related costs of employees directly involved in the project and are amortised over their estimated useful lives of 2 years.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.6 Intangible assets (continued)

(b) Development of software (continued)

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It has a finite useful life and is amortised over the period of expected future benefit (2 years) on a straight-line basis. Amortisation is recorded in cost of sales. During the period of development, the asset is tested for impairment annually.

2.7 Investments in subsidiaries and associated companies

Investments in subsidiaries and associated companies are carried at cost less accumulated impairment losses in the Company's statement of financial position. On disposal of such investments, the difference between disposal proceeds and the carrying amounts of the investments are recognised in profit or loss.

2.8 Impairment of non-financial assets

(a) Goodwill

Goodwill recognised separately as an intangible asset is tested for impairment annually and whenever there is indication that the goodwill may be impaired.

For the purpose of impairment testing of goodwill, goodwill is allocated to each of the Group's cash-generating-units ("CGU") expected to benefit from synergies arising from the business combination.

An impairment loss is recognised when the carrying amount of a CGU, including the goodwill, exceeds the recoverable amount of the CGU. The recoverable amount of a CGU is the higher of the CGU's fair value less cost to sell and value-in-use.

The total impairment loss of a CGU is allocated first to reduce the carrying amount of goodwill allocated to the CGU and then to the other assets of the CGU pro-rata on the basis of the carrying amount of each asset in the CGU.

An impairment loss on goodwill is recognised as an expense and is not reversed in a subsequent period.

(b) Intangible assets

Property, plant and equipment

Right-of-use assets

Investments in subsidiaries and associated companies

Intangible assets, property, plant and equipment, right-of-use assets and investments in subsidiaries and associated companies are tested for impairment whenever there is any objective evidence or indication that these assets may be impaired.

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash inflows that are largely independent of those from other assets. If this is the case, the recoverable amount is determined for the CGU to which the asset belongs.

If the recoverable amount of the asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.8 Impairment of non-financial assets (continued)

(b) Intangible assets

Property, plant and equipment

Right-of-use assets

Investments in subsidiaries and associated companies (continued)

The difference between the carrying amount and recoverable amount is recognised as an impairment loss in profit or loss.

An impairment loss for an asset other than goodwill is reversed only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of this asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

A reversal of impairment loss for an asset other than goodwill is recognised in profit or loss, unless the asset is carried at revalued amount, in which case, such reversal is treated as a revaluation increase. However, to the extent that an impairment loss on the same revalued asset was previously recognised as an expense, a reversal of that impairment is also recognised in profit or loss.

2.9 Financial assets

(a) Classification and measurement

The Group classifies its financial assets in the following measurement categories:

- Amortised cost;
- Fair value through other comprehensive income (FVOCI); and
- Fair value through profit or loss (FVPL).

The classification depends on the Group's business model for managing the financial assets as well as the contractual terms of the cash flows of the financial asset.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

At initial recognition

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

At subsequent measurement

(i) Debt instruments

Debt instruments mainly comprise of cash and cash equivalents, trade and other receivables, listed and unlisted debt securities.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.9 Financial assets (continued)

(a) Classification and measurement (continued)

At subsequent measurement (continued)

(i) Debt instruments (continued)

There are three subsequent measurement categories, depending on the Group's business model for managing the asset and the contractual cash flow characteristics of the asset:

- **Amortised cost:** Debt instruments that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income and presented as interest income using the effective interest rate method.
- **FVOCI:** Debt instruments that are held for collection of contractual cash flows and for sale, and where the assets' cash flows represent solely payments of principal and interest, are classified as FVOCI. Movements in fair values are recognised in Other Comprehensive Income (OCI) and accumulated in fair value reserve, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses, which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and presented in "other gains/(losses)". Interest income from these financial assets is recognised using the effective interest rate method and presented in "interest income".
- **FVPL:** Debt instruments that are held for trading as well as those that do not meet the criteria for classification as amortised cost or FVOCI are classified as FVPL. Movement in fair values and interest income that is not part of a hedging relationship is recognised in profit or loss in the period in which it arises and presented in "other gains/(losses)".

(ii) Equity instruments

The Group subsequently measures all its equity investments at their fair values. Equity instruments are classified as FVPL with movements in their fair values recognised in profit or loss in the period in which the changes arise and presented in "other gains/(losses)", except where the Group has elected to classify the investments as FVOCI.

Movements in fair values of investments classified as FVOCI are presented as "fair value gains and losses" in Other Comprehensive Income. Dividends from equity investments are recognised in profit or loss as "dividend income".

(b) Expected credit losses

The Group recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.9 Financial assets (continued)

(b) Expected credit losses (continued)

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is recognised for credit losses expected over the remaining life of the exposure, irrespective of timing of the default (a lifetime ECL).

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognised a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment which could affect debtors' ability to pay.

For debt instruments at FVOCI, the Group applies the low credit risk simplification. At every reporting date, the Group evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Company reassesses the internal credit rating of the debt instrument. In addition, the Company considers that there has been a significant increase in credit risk when the contractual payments are more than 90 days past due.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

(c) Impairment

The Group assesses on a forward looking basis the expected credit losses associated with its debt financial assets carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by the FRS 109, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(d) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade date – the date on which the Group commits to purchase or sell the asset.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

On disposal of a debt instrument, the difference between the carrying amount and the sale proceeds is recognised in profit or loss. Any amount previously recognised in other comprehensive income relating to that asset is reclassified to profit or loss.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.9 Financial assets (continued)

(d) Recognition and derecognition (continued)

On disposal of an equity investment, the difference between the carrying amount and sales proceed is recognised in profit or loss if there was no election made to recognise fair value changes in other comprehensive income. If there was an election made, any difference between the carrying amount and sales proceed amount would be recognised in other comprehensive income and transferred to retained profits along with the amount previously recognised in other comprehensive income relating to that asset.

2.10 Offsetting of financial instruments

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

2.11 Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. They are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). Otherwise, they are presented as noncurrent liabilities.

Trade and other payables are initially recognised at fair value, and subsequently carried at amortised cost using the effective interest method.

2.12 Fair value estimation of financial assets and liabilities

The fair values of financial instruments traded in active markets (such as exchange-traded and over-the-counter securities and derivatives) are based on quoted market prices at the reporting date. The quoted market prices used for financial assets are the current bid prices; the appropriate quoted market prices used for financial liabilities are the current asking prices.

The fair values of financial instruments that are not traded in an active market are determined by using valuation techniques. The Group uses a variety of methods and makes assumptions based on market conditions that are existing at each reporting date. Where appropriate, quoted market prices or dealer quotes for similar instruments are used. Valuation techniques, such as discounted cash flow analysis, are also used to determine the fair values of the financial instruments.

2.13 Leases

(a) When the Group is the lessee:

At the inception of the contract, the Group assesses if the contract contains a lease. A contract contains a lease if the contract convey the right to control the use of an identified asset for a period of time in exchange for consideration. Reassessment is only required when the terms and conditions of the contract are changed.

- **Right-of-use assets**

The Group recognised a right-of-use asset and lease liability at the date which the underlying asset is available for use. Right-of use assets are measured at cost which comprises the initial measurement of lease liabilities adjusted for any lease payments made at or before the commencement date and lease incentive received. Any initial direct costs that would not have been incurred if the lease had not been obtained are added to the carrying amount of the right-of-use assets.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.13 Leases (continued)

(a) When the Group is the lessee: (continued)

These right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

Right-of-use assets (except for those which meets the definition of an investment property) are presented within "Property, plant and equipment".

• **Lease liabilities**

The initial measurement of lease liability is measured at the present value of the lease payments discounted using the implicit rate in the lease, if the rate can be readily determined. If that rate cannot be readily determined, the Group shall use its incremental borrowing rate.

Lease payments include the following:

- Fixed payment (including in-substance fixed payments), less any lease incentives receivables;
- Variable lease payment that are based on an index or rate, initially measured using the index or rate as at the commencement date;
- Amount expected to be payable under residual value guarantees
- The exercise price of a purchase option if it is reasonably certain to exercise the option; and
- Payment of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

For contract that contain both lease and non-lease components, the Group allocates the consideration to each lease component on the basis of the relative stand-alone price of the lease and non-lease component. The Group has elected to not separate lease and non lease component for property leases and account these as one single lease component.

For contract that contain both lease and non-lease components, the Group allocates the consideration to each lease component on the basis of the relative stand-alone price of the lease and non-lease component. The Group has elected to not separate lease and non lease component for property leases and account these as one single lease component.

Lease liability is measured at amortised cost using the effective interest method. Lease liability shall be remeasured when:

- There is a change in future lease payments arising from changes in an index or rate;
- There is a changes in the Group's assessment of whether it will exercise an extension option; or
- There are modification in the scope or the consideration of the lease that was not part of the original term.

Lease liability is remeasured with a corresponding adjustment to the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

• **Short term and low value leases**

The Group has elected to not recognised right-of-use assets and lease liabilities for short-term leases that have lease terms of 12 months or less and leases of low value leases, except for sublease arrangements. Lease payments relating to these leases are expensed to profit or loss on a straight-line basis over the lease term.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.13 Leases (continued)

(a) When the Group is the lessee: (continued)

- **Early adoption of amendment to FRS 116 Leases: Covid-19-Related Rent Concessions**

The Company has applied the amendment to FRS 116 Leases: Covid-19-Related Rent Concessions. The Company applies the practical expedient allowing it not to assess whether a rent concession related to COVID-19 is a lease modification. The Company applies the practical expedient consistently to contracts with similar characteristics and in similar circumstances. For rent concessions in leases to which the Company chooses not to apply the practical expedient, or that do not qualify for the practical expedient, the Company assesses whether there is a lease modification.

(b) When the Group is the lessor

The accounting policy applicable to the Group as a lessor in the comparative period were the same under FRS 16 except when the Group is an intermediate lessor.

In classifying a sublease, the Group as an intermediate lessor classifies the sublease as a finance or an operating lease with reference to the right of-use asset arising from the head lease, rather than the underlying asset.

When the sublease is assessed as a finance lease, the Group derecognises the right-of-use asset relating to the head lease that it transfers to the sublessee and recognised the net investment in the sublease within "Trade and other receivables". Any differences between the right-of-use asset derecognised and the net investment in sublease is recognised in profit or loss. Lease liability relating to the head lease is retained in the balance sheet, which represents the lease payments owed to the head lessor.

When the sublease is assessed as an operating lease, the Group recognise lease income from sublease in profit or loss within "Other income". The right-of-use asset relating to the head lease is not derecognised.

For contract which contains lease and non-lease components, the Group allocates the consideration based on a relative stand-alone selling price basis.

2.14 Income taxes

Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted at the end of reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognised for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.14 Income taxes (continued)

A deferred income tax liability is recognised on temporary differences arising on investments in subsidiaries and associated companies, except where the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

A deferred income tax asset is recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilised.

Deferred income tax is measured:

- (i) at the tax rates that are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period; and
- (ii) based on the tax consequence that will follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amounts of its assets and liabilities.

Current and deferred income taxes are recognised as income or expense in profit or loss, except to the extent that the tax arises from a business combination or a transaction which is recognised directly in equity. Deferred tax arising from a business combination is adjusted against goodwill on acquisition.

The Group accounts for investment tax credits (for example, productivity and innovative credit) similar to accounting for other tax credits where deferred tax asset is recognised for unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax credit can be utilised.

2.15 Provisions

Provisions are measured at the present value of the expenditure expected to be required to settle the obligation using a pre-tax discount rate that reflects the current market assessment of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognised in the statement of comprehensive income as finance expense.

Changes in the estimated timing or amount of the expenditure or discount rate are recognised in profit or loss when the changes arise.

2.16 Employee compensation

Employee benefits are recognised as an expense, unless the cost qualifies to be capitalised as an asset.

Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into separate entities such as the Central Provident Fund on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid.

Short-term compensated absences

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the reporting date.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.16 Employee compensation (continued)

Employee share plan

The Group operates an equity-settled, share-based compensation plan. The value of the employee services received in exchange for the grant of options is recognised as an expense with a corresponding increase in the share option reserve over the vesting period. The total amount to be recognised over the vesting period is determined by reference to the fair value of the options granted on grant date. Non-market vesting conditions are included in the estimation of the number of shares under options that are expected to become exercisable on the vesting date.

At each balance sheet date, the Group revises its estimates of the number of shares under options that are expected to become exercisable on the vesting date and recognises the impact of the revision of the estimates in profit or loss, with a corresponding adjustment to the share option reserve over the remaining vesting period.

When the options are exercised, the proceeds received (net of transaction costs) and the related balance previously recognised in the share option reserve are credited to the share capital account, when new ordinary shares are issued, or to the "treasury shares" account, when treasury shares are re-issued to the employees.

2.17 Currency translation

(a) Functional and presentation currency

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). The financial statements are presented in Singapore Dollars, which is the functional currency of the Company.

(b) Transactions and balances

Transactions in a currency other than the functional currency ("foreign currency") are translated into the functional currency using the exchange rates at the dates of the transactions. Currency exchange differences resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the closing rates at the reporting date are recognised in profit or loss.

When a foreign operation is disposed of or any loan forming part of the net investment of the foreign operation is repaid, a proportion share of the accumulated currency translation differences is reclassified to profit or loss, as part of the gain or loss on disposal.

(c) Translation of Group entities' financial statements

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) assets and liabilities are translated at the closing exchange rates at the reporting date;
- (ii) income and expenses are translated at average exchange rates (unless the average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated using the exchange rates at the dates of the transactions); and

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

2. Summary of significant accounting policies (continued)

2.17 Currency translation (continued)

(c) Translation of Group entities' financial statements (continued)

- (iii) all resulting currency translation differences are recognised in other comprehensive income and accumulated in the currency translation reserve. These currency translation differences are reclassified to profit or loss on disposal or partial disposal of the entity giving rise to such reserve.

Goodwill and fair value adjustments arising on the acquisition of foreign operations are treated as assets and liabilities of the foreign operations and translated at the closing rates at the reporting date.

2.18 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the executive committee whose members are responsible for allocating resources and assessing performance of the operating segments.

2.19 Cash and cash equivalents

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents include cash at banks, cash on hand and deposits with financial institutions which are subject to an insignificant risk of change in value.

2.20 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are deducted against the share capital account.

3. Critical accounting estimates, assumptions and judgments

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

3.1 Critical judgements in applying the entity's accounting policies

(a) Provision for expected credit losses of trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust historical credit loss experience with forward-looking information. At every reporting date, historical default rates are updated and changes in the forward-looking estimates are analysed.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

3. Critical accounting estimates, assumptions and judgments (continued)

3.1 Critical judgements in applying the entity's accounting policies (continued)

(a) Provision for expected credit losses of trade receivables (continued)

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's trade receivables is disclosed in Note 26.

The carrying amount of the Group's trade receivables as at 31 March 2021 was S\$282,856 (2020: S\$318,298).

(b) Deferred tax assets

Deferred tax assets in respect of current and prior period accumulated tax losses are not (unless related to overseas jurisdictions) recognised at balance sheet date as management has assessed that it is not probable that sufficient taxable surplus will be available to allow all or part of the deferred income tax asset to be utilised.

(c) Useful lives of property, plant and equipment

The useful life of an item of property, plant and equipment is estimated at the time the asset is acquired and is based on historical experience with similar assets and takes into account anticipated technological or other changes. If changes occur more rapidly than anticipated or the asset experiences unexpected level of wear and tear, the useful life will be adjusted accordingly. The carrying amounts of the Group's property, plant and equipment as at 31 March 2021 was S\$1,440,868 (2020: S\$1,572,875).

(d) Amortisation and useful lives of intangible assets

The Group estimates the useful lives to amortise intangible assets based on the future performance of the assets acquired and management's judgement of the period over which economic benefits will be derived from the assets. The estimated useful lives of intangible assets are reviewed periodically, taking into consideration factors such as changes in technology. The amount and timing of recorded expenses for any period would be affected by changes in the estimates. A reduction in the estimated useful lives of the intangible assets would increase the recorded expenses and decrease the non-current assets.

The cost of intangible asset is amortised on a straight-line basis over the assets' useful lives. Directors estimate the useful lives of these intangible assets to be 2 years.

(e) Determination of lease term of contracts with extension options

As at 31 March 2021, the Group's lease liabilities, which are measured with reference to an estimate of the lease term, amounted to S\$871,714, of which none arose from extension options. Extension option is included in the lease term if the lease is reasonably certain to be extended. In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise the extension option.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

3. Critical accounting estimates, assumptions and judgments (continued)

3.1 Critical judgements in applying the entity's accounting policies (continued)

(e) Determination of lease term of contracts with extension options (continued)

For leases of office premises, the following factors are considered to be most relevant:

- If any leasehold improvements are expected to have a significant remaining value, the Group typically includes the extension option in lease liabilities;
- Otherwise, the Group considers other factors including its costs required to obtain replacement assets, and business disruptions.

As at 31 March 2021, the Group did not include the extension option in the lease term for leases of office premises as it is not certain that the extension options will be exercised.

(f) Leases – estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate to measure lease liabilities. The incremental borrowing rate is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The incremental borrowing rate therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the incremental borrowing rate using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

NOTES TO THE FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

9. Trade and other receivables (continued)

Trade receivables are unsecured, non-interest bearing and are generally on 7 to 30 days terms (2020: 7 to 30 days).

Included in current deposits are bankers' guarantee of S\$426,000 (2020: S\$190,000) as required by Global Payments Asia Pacific (Hong Kong Holding) Limited and Green World FinTech Service Co., Ltd. in order to provide services in accordance to the merchant agreements.

Related party balances

Amount due from subsidiaries are non-trade, unsecured, interest-free and with no fixed terms of repayment.

10. Cash and cash equivalents

	Group		Company	
	2021	2020	2021	2020
	S\$	S\$	S\$	S\$
Cash on hand	32,945	45,814	-	-
Cash at banks	15,971,196	4,377,776	1,574,600	288,525
Short-term bank deposits	2,625,088	3,010,000	-	-
Fixed deposits	100,000	-	-	-
	18,729,229	7,433,590	1,574,600	288,525

Cash at banks earn interest at floating rates based on daily bank deposit rates. Short-term bank deposits have maturity of one to three months and a weighted average effective interest rates of 1.52% (2020: 1.42%) per annum of the Group. Fixed deposits have maturity of more than three months and bear interest rate of 0.15% (2020: Not applicable).

For the purpose of presenting the consolidated statement of cash flows, cash and cash equivalents comprise the following:

	Group	
	2021	2020
	S\$	S\$
Cash and bank balances (as above)	18,729,229	7,433,590
Less: Fixed deposits	(100,000)	-

At end of financial year	41,374,426	77,810,264	40,545,626	77,423,174

The holders of ordinary shares are entitled to receive dividends as and when declared by the Company. All ordinary shares carry one vote per share without restrictions. The ordinary shares have no par value.

⁽¹⁾ The equity structure (i.e. the number and types of equity instruments issued) reflect the equity structure of the Company, being the legal parent, including the equity instruments issued by the Company to effect the reverse acquisition.

12. Foreign currency translation reserve

The foreign currency translation reserve represents exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from that of the Group's presentation currency.

13. Employee securities plan reserve

	Group/Company	
	2021	2020
	S\$	S\$
<i>Movement:</i>		
Beginning of financial year	-	-
Value of employee services	613,958	-
Performance rights exercised	(335,208)	-
End of financial year	278,750	-

The Company's Employee Securities Incentive Plan ("Share Plan") for key directors and employees of the Group was approved by members of the Company as its annual general meeting on 23 July 2020. The Share Plan provides a means to attract, motivate and retain key directors and employees and provide them with the opportunity to participate in the future growth of the Company.

Under the Share Plan, the board of directors may from time to time determine that a director of the companies of the Group, subject to its members' approval, or an employee may participate in the Share Plan to apply for securities on such terms and conditions as the board of directors decides.

The persons to whom the rights and options have been issued have no right to participate by virtue of the options in any share issue of any other companies of the Group. The Group has no legal or constructive obligation to repurchase or settle the securities in cash.

During the financial year, pursuant to members' approval at its annual general meeting on 23 July 2020, the Company granted its directors options to subscribe for 2,000,000 ordinary shares at exercise price of AUD 0.45 per share ("Options") and performance rights to be converted into 2,600,000 ordinary shares upon meeting the vesting conditions ("Performance Rights").

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

13. Employee securities plan reserve (continued)

The Options are exercisable from 21 August 2020 and expire on 30 June 2025. The total fair value of the Options granted was estimated to be AUD 955,600 using the Hoadleys Employee Stock Option Model.

The Performance Rights will not have consideration on satisfaction of the vesting conditions. The vesting conditions for the Performance Rights are:

- The holder being a director of the Company as at the relevant vesting determination dates specified in the table below; and
- The relevant volume weighted average price (VWAP) of the Company's shares traded on ASX over any 20-day period exceeds the prices specified in the table below.

Performance Rights	Performance Rights granted			Vesting conditions		Expiry Date
	Number	Effective grant date	Fair value per right at effective grant date (AUD)	Earliest vesting determination date	VWAP Share Price condition (AUD)	
Class A	400,000	23 Jul 2020	0.4675	21 Aug 2020	0.45	30 Apr 2021
Class B	400,000	23 Jul 2020	0.3813	21 Aug 2020	0.60	30 Apr 2021
Class C	400,000	23 Jul 2020	0.4037	01 Apr 2021	0.70	30 Apr 2022
Class D	400,000	23 Jul 2020	0.2016	01 Apr 2021	2.00	30 Apr 2022
Class E	500,000	23 Jul 2020	0.2570	01 Apr 2022	2.30	30 Apr 2023
Class F	500,000	23 Jul 2020	0.1389	01 Apr 2022	5.00	30 Apr 2023

The total fair value of the Performance Rights granted was estimated to be AUD 779,590 using the Hoadleys Hybrid ESO Model (a Monte Carlo simulation model).

Movements in the number of unissued ordinary shares of the Company under the Share Plan and their exercise prices are as follows:

	No. of unissued ordinary shares of the Company under Share Plan				Exercise price	Exercise period
	Beginning of financial year	Granted during the financial year	Exercised during the financial year	End of financial year		
Performance Rights:						
- Class A	-	400,000	(400,000)	-	-	21.08.2020-30.04.2021
- Class B	-	400,000	(400,000)	-	-	21.08.2020-30.04.2021

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

17. Lease liabilities (continued)

(i) Lease liabilities - The Group as a lessee

Nature of the Group's leasing activities

The Group leases office premises for the purpose of running financial education programmes and back office operations.

(a) Carrying amounts

ROU assets classified within property, plant and equipment

	31 March 2021	31 March 2020
	S\$	S\$
Office premises	868,007	1,189,331
	2021	2020
	S\$	S\$
(b) Depreciation charged during the financial year		
Office premises	1,263,914	1,381,191
(c) Interest expense		
Interest expense on lease liabilities	33,693	80,429

(d) The lease expense not capitalised in lease liabilities from low value leases was S\$3,293 (2020: S\$Nil).

(e) Total income from subleasing ROU assets in 2021 was S\$60,632 (2020: S\$154,783).

(f) Net cash outflow for all the office leases in 2021 was S\$1,253,096 (2020: S\$1,436,440).

(g) Addition of ROU assets during the financial year 2021 was S\$969,403 (2020: S\$70,928).

(h) Reconciliation of lease liabilities arising from financing activities:

	2021	2020
	S\$	S\$
Beginning of financial year	1,214,512	36,424
Principal and interest payments	(1,253,096)	(1,474,008)
Non-cash changes		
- Adoption of FRS 116	-	2,497,157
- Addition during the year	969,403	70,928
- Rent concession	(65,191)	-
- Interest expense	33,693	81,574
- Written off	(23,788)	-
- Foreign exchange movement	(3,819)	2,437
End of financial year	871,714	1,214,512

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

17. Lease liabilities (continued)

(ii) Lease liabilities – the Group as a lessor

Nature of the Group's leasing activities – Group as an intermediate lessor

Subleases – classified as operating leases

The Group acts as an intermediate lessor under arrangement in which it subleases out office space to a third party for monthly lease payments. The sublease periods do not form a major part of the remaining lease terms under the head leases and accordingly, the sub-leases are classified as operating leases.

Income from subleasing the office space recognised during the financial year 2021 was S\$60,632 (2020: S\$154,783). The Group is no longer lessor as at balance sheet date.

(iii) Borrowings

The subsidiary of the Company had secured SGD 1 million temporary bridging loan, with 3% interest rate per annum, guaranteed by the Company. None has been drawn down as at balance sheet date.

18. Deferred income taxes

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets against current income tax liabilities and when the deferred income taxes relate to the same taxation authority.

The amounts, determined after appropriate offsetting, are shown on the balance sheet as follows:

	Group		Company	
	2021	2020	2021	2020
	S\$	S\$	S\$	S\$
Deferred tax assets:				
- Accelerated tax depreciation	2,321	2,373	-	-
- Unearned revenue	294,034	261,958	-	-
	296,355	264,331	-	-
Deferred tax liabilities:				
- Accelerated tax depreciation	(4,000)	(4,000)	-	-
Net deferred tax assets:	292,355	260,331	-	-

The movement in net deferred income tax (assets)/liabilities is as follows:

	Group		Company	
	2021	2020	2021	2020
	S\$	S\$	S\$	S\$
Beginning of financial year	(260,331)	(174,865)	-	-
Tax credited to profit or loss	(37,772)	(86,058)	-	-
Currency translation differences	5,748	592	-	-
End of financial year	(292,355)	(260,331)	-	-

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

18. Deferred income taxes (continued)

The Group has unrecognised tax losses of S\$Nil (2020: S\$2,739,695) and capital allowances of S\$Nil (2020: S\$Nil) at the balance sheet date which can be carried forward and used to offset against future taxable income subject to meeting certain statutory requirements by those companies with unrecognised tax losses and capital allowances in their respective countries of incorporation. The tax losses and capital allowances have no expiry date.

19. Revenue

	Group	
	2021	2020
	S\$	S\$
Type of goods or services		
Subscription income	5,212,642	539,972
Programme fees	20,385,924	10,041,699

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

23. Income tax

The major components of income tax expenses recognised in profit or loss for the years ended 31 March 2021 and 2020 were:

	Group	
	2021	2020
	S\$	S\$
Current income tax:		
Current year	1,046,198	184,706
Under/(Over) provision in respect of prior years	28,743	(9,318)
	1,074,941	175,388
Deferred income tax:		
Current year	(37,772)	(86,058)
Income tax expense recognised in profit or loss	1,037,169	89,330

Relationship between tax expenses and accounting profit

A reconciliation between tax expenses and the product of accounting profit multiplied by the applicable corporate tax rate for the financial years ended 31 March 2021 and 2020 were as follows:

	Group	
	2021	2020
	S\$	S\$
Profit before tax	7,532,774	868,751
Share of results of associated company, net of tax	-	135,939
Profit before tax and share of results of associated company	7,532,774	1,004,690
Income tax using the statutory tax rate of 17% (2020: 17%)	1,280,572	170,797
Tax effects of:		
Non-deductible expenses	501,834	30,598
Income not subject to taxation	(118,737)	(13,902)
Tax exemptions	(102,500)	(32,425)
Deferred tax assets recognised	(37,772)	-
Deferred tax assets not recognised	6,592	237,108
Utilisation of previously unrecognised deferred tax assets	(571,377)	(307,815)
Utilisation of group relief	(107,215)	-
Effect of tax rates in foreign jurisdictions	157,029	14,287
Under/(Over) provision in respect of prior years	28,743	(9,318)
Income tax expense recognised in profit or loss	1,037,169	89,330

The above reconciliation is prepared by aggregating separate reconciliations for each national jurisdiction.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

23. Income tax (continued)

Movement in current income tax liabilities/(assets):

	Group		Company	
	2021	2020	2021	2020
	S\$	S\$	S\$	S\$
Beginning of financial year	24,190	41,947	-	-
Income tax paid	(579,129)	(191,061)	-	-
Tax expense	1,046,198	184,706	-	-
Under/(Over) provision in respect of prior years	28,743	(9,318)	-	-
Currency translation differences	(1,779)	(2,084)	-	-
End of financial year	518,223	24,190	-	-

24. Earnings per share

(a) Basic earnings per share

The basic and diluted earnings per share are calculated by dividing profit net of tax by the weighted average number of ordinary shares during the financial period.

The following table reflect the profit and share data used in the computation of basic and diluted earnings per share for the year ended 31 March 2021 and 2020:

	Group	
	2021	2020
Net profit attributable to equity holders of the Company (S\$)	5,861,405	1,072,047
Weighted average number of ordinary shares outstanding for basic earnings per share	40,867,766	40,545,626
Basic earnings per share (Singapore cents per share)	14.34	2.64

(b) Diluted earnings per share

For the purpose of calculating diluted earnings per share, profit attributable to equity holders of the Company and the weighted average number of ordinary shares outstanding are adjusted for the effects of all dilutive potential ordinary shares. The Company has one category of dilutive potential ordinary shares: share options.

For share options, the weighted average number of shares on issue has been adjusted as if all dilutive share options were exercised. The number of shares that could have been issued upon the exercise of all dilutive share options less the number of shares that could have been issued at fair value (determined as the Company's average share price for the financial year) for the same total proceeds is added to the denominator as the number of shares issued for no consideration. No adjustment is made to the net profit.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

24. Earnings per share (continued)

(b) Diluted earnings per share (continued)

	Group	
	2021	2020
Net profit attributable to equity holders of the Company (S\$)	5,861,405	1,072,047
Weighted average number of ordinary shares outstanding for basic earnings per share	40,867,766	40,545,626
Adjusted for share options	1,402,449	-
	42,270,215	40,545,626
Diluted earnings per share (Singapore cents per share)	13.87	2.64

25. Significant related party transactions

In addition to the related party information disclosed elsewhere in the financial statements, the following transactions with related parties took place at terms agreed between the parties during the financial year:

	Group	
	2021	2020
	S\$	S\$
Cost of lease sharing charged to related parties	221,283	291,340
Admin handling expenses charged by related parties	(234,000)	(185,000)
Consultancy expense charged by related parties	(224,000)	(24,000)

Compensation of key management personnel

	Group	
	2021	2020
	S\$	S\$
Salaries, fees and bonus	1,485,465	712,193
CPF Contributions	67,097	62,947
Employee Securities Share Plan	613,958	-
	2,166,520	775,140

26. Financial risk management

Financial risk factors

The Group's activities expose it to market risk (including currency risk, interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management strategy seeks to minimise any adverse effects from the unpredictability of financial markets on the group's financial performance.

The Board of Directors reviews and agrees policies and procedures for the management of these risks, which are executed by the Chief Financial Officer. The audit committee provides independent oversight to the effectiveness of the risk management process.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

26. Financial risk management (continued)

(a) Market risk

(i) Currency risk

The Group operates in Asia with dominant operations in Singapore and Malaysia. Entities in the Group regularly transact in currencies other than their respective functional currencies ("foreign currencies").

Currency risk arises within entities in the Group when transactions are denominated in foreign currencies primarily Singapore Dollar ("SGD"), Malaysian Ringgit ("MYR"), Australian Dollar ("AUD"), United States Dollar ("USD"), Chinese Renminbi ("RMB"), New Taiwan Dollar ("NTD"), Thailand Baht ("THB") and Hong Kong Dollar ("HKD").

In addition, the Group is exposed to currency translation risk on the net assets in foreign operations. Currency exposure to the net assets of the Group's foreign operations in Malaysia, Taiwan and China are managed primarily through transactions denominated in the relevant foreign currencies.

The Group's currency exposure based on the information provided to key management is as follows:

	MYR S\$	USD S\$	AUD S\$	NTD S\$	RMB S\$	HKD S\$
At 31 March 2021

(ii) Price risk

The Group is exposed to equity securities price risk arising from the investments held by the Group which are classified either as financial assets, at FVPL or FVOCI. These securities are listed in Singapore, Malaysia and the United States. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.

If prices for equity securities listed in Singapore, Malaysia, the United States, Australia and Hong Kong had changed by 49% (2020: 17%), 49% (2020: 17%), 69% (2020: 17%), 49% (2020: not applicable) and 49% (2020: not applicable) respectively with all other variables including tax rate being held constant, the effects on profit after tax and other comprehensive income would have been:

(b) Credit risk

Credit exposure to an individual counterparty is restricted by credit limits that are approved by the Board of Directors based on ongoing credit evaluations. The counterparty's payment pattern and credit exposure are continuously monitored at the entity level by the respective management and at the Group level by the Executive Management.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Group. The Group categorises a loan or receivable for write off when a debtor fails to make contractual payments greater than a year past due based on historical collection trend. Where loans or receivables have been written off, the company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

The Group applies the simplified approach to providing for expected credit losses prescribed by FRS 109, which permits the use of the lifetime credit loss provision for all trade receivables.

To measure the expected credit losses, trade receivables, have been grouped based on shared credit risk characteristics and days past due. In calculating the expected credit loss rates, the Group considers historical loss rates for each category of customers, and adjusts for forward-looking macroeconomic data.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

26. Financial risk management (continued)

(b) Credit risk (continued)

The Group and Company uses four categories of internal credit risk rating for its financial assets at amortised costs. These four categories reflect the respective credit risk and how the loan loss provision is determined for each of those categories.

A summary of assumptions underpinning the Group's expected credit loss model is as follow:

Group and Company's category of internal credit rating	Group and Company's definition of category	Basis for recognition of expected credit loss provision
Performing	Customers have a low risk of default and a strong capacity to meet contractual cash flows.	12-month expected credit losses
Underperforming	Loans for which there is a significant increase in credit risk. As significant increase in credit risk is presumed if interest and/or principal repayments are 30 days past due.	Lifetime expected credit losses
Non-performing	Interest and/or principal repayments are 60-365 days past due.	Lifetime expected credit losses
Write-off	Interest and/or principal repayments are 365 days past due and there is no reasonable expectation of recovery.	Asset is written off

Movements in credit loss allowance for trade receivables are set out as follows:

	Group		Company	
	2021	2020	2021	2020
	S\$	S\$	S\$	S\$
Balance at beginning of year	137,537	77,067	-	-
(Reversal)/Charge for the year	(32,731)	62,635	-	-
Written off	-	(2,165)	-	-
Exchange differences	(157)	-	-	-
Balance at end of year (Note 9)	104,649	137,537	-	-

The Group's credit risk exposure in relation to trade receivables, under FRS 109 as at 31 March 2021 are set out in the provision matrix as follows:

	Current	1-30 days	Past due			Total
			31-60 days	61-90 days	> 90 days	
2021						
Expected loss rate	0%	0%	5%	10%	100%	
Gross carrying amount (\$\$)	278,522	4,049	300	-	104,634	387,505
Credit loss allowance (\$\$)	-	-	(15)	-	(104,634)	(104,649)
2020						
Expected loss rate	0%	0%	5%	10%	100%	
Gross carrying amount (\$\$)	255,975	26,221	12,977	26,488	134,174	455,835
Credit loss allowance (\$\$)	-	-	(714)	(2,649)	(134,174)	(137,537)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

26. Financial risk management (continued)

(c) Liquidity risk

Prudent liquidity risk management includes maintaining sufficient cash and cash equivalents and the ability to close out market positions at a short notice. At the reporting date, assets held by the Group and the Company for managing liquidity risk included cash and short-term deposits as disclosed in Note 10.

The table below analyses non-derivative financial liabilities of the Group and the Company into relevant maturity groupings based on the remaining period from the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying amounts as the impact of discounting is not significant.

	One year or less S\$	Two to five years S\$
<u>Group</u>		
At 31 March 2021		
Trade and other payables	3,446,851	-
Lease liabilities	816,163	67,686
At 31 March 2020		
Trade and other payables	1,648,235	-
Finance lease liabilities	1,176,581	68,630
		One year or less S\$
<u>Company</u>		
At 31 March 2021		
Trade and other payables		240,946
At 31 March 2020		
Trade and other payables		90,811

(d) Capital risk

Management controls the capital of the Group in order to maintain a good debt to equity ratio, provide the shareholders with adequate returns and to ensure that the Group can fund its operations and continue as a going concern.

The Group's debt and capital includes ordinary share capital and financial liabilities, supported by financial assets.

There are no externally imposed capital requirements.

Management effectively manages the Group's capital by assessing the Group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distributions to shareholders and share issues.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

26. Financial risk management (continued)

(e) Fair value measurements

The table below presents assets and liabilities measured and carried at fair value and classified by level of the following fair value measurement hierarchy:

- (i) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- (ii) inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- (iii) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

	Level 1	Level 2	Level 3
	S\$	S\$	S\$
Group			
As at 31 March 2021			
Financial assets:			
Financial assets, at FVPL (quoted)	3,600,947	-	-
Financial assets, at FVOCI (quoted)	7,421	-	-
As at 31 March 2020			
Financial assets:			
Financial assets, at FVPL (quoted)	402,305	-	-
Financial assets, at FVOCI (quoted)	7,443	-	-

There were no transfers between levels 1 and 2 during the year.

The fair value of financial instruments traded in active markets (such as fair value through profit and loss and financial assets through other comprehensive income) is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in Level 1.

The carrying amount less impairment provision of trade receivables and payables are assumed to approximate their fair values.

(f) Financial instruments by category

	Group		Company	
	2021	2020	2021	2020
	S\$	S\$	S\$	S\$
Financial assets, at FVPL	3,600,947	402,305	-	-
Financial assets, at FVOCI	7,421	7,443	-	-
Financial assets at amortised cost	20,222,772	9,017,777	1,577,360	876,272
Financial liabilities at amortised cost	(4,188,565)	(2,686,411)	(240,946)	(90,811)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

27. Segment information

For management purposes, the Group is organised into geographical business units based on the management reporting structure and organisational set-up, in line with the main business divisions driving the growth of the Group. Geographically, management manages and monitors the business in two primary geographic areas namely Singapore and Malaysia, where the Company and certain subsidiaries operate. Based on the management reporting structure, management reviews the business segments' performance and to make strategic decisions.

The segment under the reporting model are as follows:

- i. **Financial Education:** involved in providing financial education in the discipline of value investing and supporting a community of value investors from 29 cities globally under the "VI" brand.
- ii. **Others:** included fintech business and subsidiaries that provided financial education and training in Taiwan and China.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which in certain respects, as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

27. Segment information (continued)

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2021

28. New or revised accounting standards and interpretations

Below are the mandatory standards, amendments and interpretations to existing standards that have been published, and are relevant for the Group's accounting periods beginning on or after 1 April 2021 and which the Group has not early adopted.

Amendments to FRS 1 Presentation of Financial Statements: Classification of Liabilities as Current or Non-current (effective for annual periods beginning on or after 1 January 2023)

The narrow-scope amendments to FRS 1 Presentation of Financial Statements clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant). The amendments also clarify what FRS 1 means when it refers to the 'settlement' of a liability. The amendments could affect the classification of liabilities, particularly for entities that previously considered management's intentions to determine classification and for some liabilities that can be converted into equity. The Group does not expect any significant impact arising from applying these amendments.

Amendments to FRS 16 Property, Plant and Equipment: Proceeds before Intended Use (effective for annual periods beginning on or after 1 January 2022)

The amendment to FRS 16 Property, Plant and Equipment (PP&E) prohibits an entity from deducting from the cost of an item of PP&E any proceeds received from selling items produced while the entity is preparing the asset for its intended use. It also clarifies that an entity is 'testing whether the asset is functioning properly' when it assesses the technical and physical performance of the asset. The financial performance of the asset is not relevant to this assessment.

Entities must disclose separately the amounts of proceeds and costs relating to items produced that are not an output of the entity's ordinary activities. The Group does not expect any significant impact arising from applying these amendments.

29. Authorisation of financial statements for issue

The financial statements for the financial year ended 31 March 2021 were authorised for issue by the Board of Directors on the date of the Directors' Statement.
