More than **advertising**

motio

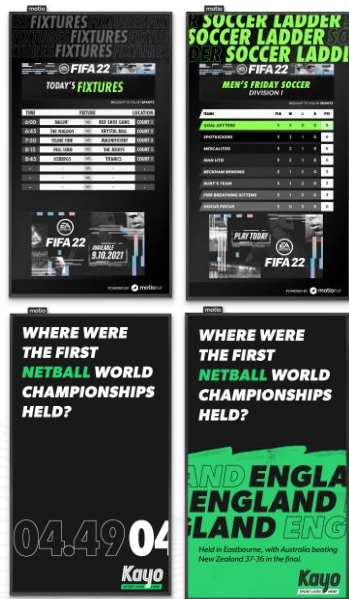

Location intelligence.

Motio has 4 key sources of First part data, among our other 3rd party data sources. Motio relies on this high quality source data to drive and enhance our media, programmatic and commercial utility program to assist in the driving of revenue across the business.

Utility based content

Incredibly important to our business is utility based content and advertising. It changes the relationship we have with our “landlords” offering displays that help communication, drive engagement and don’t rely on Facebook or email. This is an emerging support area of our business.
