MONTHLY UPDATE

For the month of May 2021, the KKR Credit Income Fund ("KKC" or the "Trust") recorded a total net return of +0.28%¹. As previously notified to the ASX, the A\$20m buy-back programme of KKC units began on 3 May 2021.

With regard to the market, US high yield bonds ("HYBs") reported a return of +0.33% and US senior loans had a positive return of +0.57%² during the month. Almost all sectors in the market had positive months with the exception of Utility, Cable and Telecom which had previously performed well due to employees working from home.

US HYB mutual funds reported a net outflow in May, the fifth of six months so far this year. Year to date, outflows for HY funds totaled -\$11.9bn (A\$15.4bn) which compares to inflows of +\$22.1bn (A\$28.7bn) over the first five months of 2020. Fund flows are an important metric to track as this creates demand for assets, impacting prices in the market.

The Yield to Maturity for the underlying assets in KKC (which is inversely impacted by an increase in price), stood at 7.7% as of May month-end³. The weighted average price of assets in the portfolio stands at 100.1%. The current yield of the underlying assets in the portfolio was 6.9% as at month end³. Prices for assets can move above 100% when there is sufficient demand for assets. This can quite often be seen in rising markets where investors will pay above par for assets generating higher cash coupons.

Some month to month changes in the underlying portfolio are as follows. All these movements reference the portfolio change between 30 April 2021 and 31 May 2021:⁴

- The number of issuers in the portfolio decreased from 198 to 181. This was due to a number of traded credit names repaying and others that had reached price targets and were sold;
- The concentration of the top 10 holdings was increased slightly to 22.6%. However, there were three new entrants to the top 10 holdings (Areas Worldwide – a global concession operator, Flora Foods – the Dutch plant based spreads business and NEP Broadcasting – a US privately owned tele-production services company). KKC's top 10 holdings are further detailed on the next page;
- The proportion of floating rate assets has remained stable at 60%. Loans and other floating rate assets can act as a natural hedge vs. rising rates as the coupons are generally based on 3-month LIBOR (i.e. quarterly rate reset or duration of ~0.25yrs). The portfolio is still intentionally overweight floating rate assets and the portfolio currently has a low duration of 1.4 years compared to ~4 years for the bond market as a whole;
- Consumer Discretionary and Industrials remain the two largest sectors at 28% and 23% respectively; and
- KKC's exposure to senior assets currently stands at 91%.

EDL had one new addition (a UK chilled food producer) and one realisation (a Dutch pound-shop operator - ~6% IRR and 1.11x multiple) during the month. EDL was ~42% net deployed (on a Cost basis) across 22 privately originated assets as at month end.

KKR Credit Income Fund (ASX:KKC)

Monthly Investment Update: As of 31 May 2021

KKC OVERVIEW

The Trust aims to provide investors with attractive, risk-adjusted returns and access to a diversified portfolio of income generating alternative credit investments through the Trust's investment across strategies managed by the credit investment teams of Kohlberg Kravis Roberts & Co. L.P. ("KKR").

These strategies comprise the Global Opportunistic Credit strategy and European Direct Lending strategy, which seek to take advantage of the attractive opportunities that KKR sees in the market. The Trust's investment objective is to provide an income stream as well as to achieve attractive long-term capital appreciation over a full market cycle.

The Trust seeks to deliver investors with a distribution yield of 4% - 6% per annum⁽⁶⁾, paid quarterly in arrears (moving to monthly in arrears in July 2021), and a medium-term average total return of 6% - 8% per annum⁽⁷⁾.

KKR OVERVIEW

Established in 1976, KKR is a leading global investment firm with industry-leading investment experience, in-depth industry knowledge, sophisticated processes for growing and improving businesses, and a strong culture committed to teamwork.

As of 31 March 2021, KKR had A\$481.6 billion of assets under management, of which A\$216.5 billion sits within KKR Credit.⁽⁸⁾

KKR has a global presence with offices in 20 cities across 4 continents, including Sydney, Australia.

Monthly Investment Update: As of 31 May 2021

FOOTNOTES

- (1) Distribution % calculated as the distribution per unit divided by the closing NTA of the previous month. The multi period calculations sum the dividend yields received and does not compound them.
- (2) Source: JP Morgan as of 31 May 2021. JP Morgan has not consented to the inclusion of this statement in this document.
- (3) This yield represents the views of KKR Credit as of 31 May 2021 regarding the likely current yields of investments in KKC's GCOF-style SMA and EDL over a full market cycle and is subject to change. There is no guarantee that the assumptions upon which estimated current yields are based will materialise as anticipated. These YTM and current yield figures exclude cash balances.
- (4) Based on look through to KKC's underlying funds. Represents GCOF strategy and EDL assets as of 31 May 2021.
- (5) Source: KKR as of 31 May 2021. Credit ratings are statements of opinion of a relevant credit agency about the likelihood of a borrower to meet its interest and principal payment and repayment obligations when they fall due. Credit ratings are not statements of fact or recommendations to purchase, hold or sell securities. Credit ratings do not address the suitability of securities or the suitability of securities for investment purposes, and should not be relied upon as investment advice.
- (6) Net of fees and expenses incurred by the Trust, but before tax, paid quarterly. The target distribution is only a target and may not be achieved.
- (7) Target medium-term average total return net of fees and expenses incurred by the Trust, before tax. The distribution yield over a given period may be lower than the total return in this period to the extent that the total return includes unrealised gains. Investors should review the Risk summary set out in Section 1 and Section 8 of the PDS for important information regarding Target Total Returns and the Trust's ability to achieve them. Past performance is not indicative of future results.
- (8) The KKR Credit group is comprised of KKR Credit Advisors (US) LLC, KKR Alternative Investment Management and KKR Credit Advisors (EMEA) LLP. AUM is updated quarterly in line with KKR's public filings.
- (9) This is a summary only – see section 9 of the PDS for more detail.

Important Information

GENERAL

This information has been prepared by KKR Australia Investment Management Pty Ltd ABN 42 146 164 454, AFSL 420 085 ("KKR" or "The Manager") and issued by The Trust Company (RE Services) Limited ABN 45 003 278 831, AFSL 235150 ("TTCRESL"). TTCRESL is the responsible entity and issuer of the KKR Credit Income Fund ARSN 634 082 107 ("Trust"). TTCRESL has appointed KKR to act as the manager of the Trust. This update is general information only and is not intended to provide you with financial advice or take into account your objectives, financial situation or needs. You should consider, with a financial adviser, whether the information is suitable for your circumstances. To the extent permitted by law, no liability is accepted for any loss or damage as a result of any reliance on this information. Past performance is not indicative of future performance. This information is believed to be accurate at the time of compilation and is provided in good faith. This information may contain information contributed by third parties. KKR and TTCRESL do not warrant the accuracy or completeness of any information contributed by a third party. Any term not defined in the document has the same meaning as defined in the PDS.

Before making any investment decisions you should consider the Product Disclosure Statement (PDS) for the Trust issued by TTCRESL and the Trust's other periodic and continuous disclosure announcements lodged with the Australian Securities Exchange (ASX), which are available at www.kkcaustralia.com.au or can be obtained by calling 1300-131-856 within Australia.

None of KKR, its affiliates or its related bodies corporate, or any company in the Perpetual Group (Perpetual Group means Perpetual Limited ABN 86 000 431 827 and its subsidiaries) guarantees the performance of the Trust or the return of an investor's capital. This information does not constitute an offer, invitation, solicitation or recommendation with respect to the purchase or sale of the Trust's units.

Information in this Document

This information is only as current as the date indicated, and may be superseded by subsequent market events or for other reasons.

This information may contain projections or other forward-looking statements and comments regarding future events, including targets or expectations regarding the Trust's business, plans and strategies. Forward-looking statements also include prospective financial information for the Trust. Forward looking statements can generally be identified by the use of forward looking words such as, "expect", "anticipate", "likely", "intend", "should", "could", "may", "predict", "plan", "propose", "will", "believe", "forecast", "estimate", "target" and other similar words that involve risks and uncertainties. Indications of, and guidance or outlook on, future earnings or financial position or performance are also forward looking statements. Forward looking statements involve inherent risks and uncertainties, both general and specific, and there is no assurance that such events or targets will be achieved. A number of important factors could cause the Trust's actual results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward looking statements, and many of these factors are beyond the control of TTCRESL and KKR. This information is not a promise or representation as to the future and past performance is not a guarantee of future performance. Statements or assumptions in this information as to future matters may prove to be incorrect and may be superseded by subsequent market events or for other reasons. You acknowledge that the circumstances may change and that this information may become outdated as a result.

You should make your own independent assessment of this information and seek your own independent professional advice in relation to the information and any action taken on the basis of the information.

Any term not defined in this document has the same meaning as defined in the PDS.
