

ASX Announcement

DELTA DRONE INTERNATIONAL ENTERS MALI TO DELIVER ADVANCED LIDAR SERVICES FOR BARRICK GOLD

HIGHLIGHTS

- **Delta Drone International expanding operations into Mali to deliver advanced LIDAR services for Barrick Gold (Holdings) Limited**
- **For the first time in the region, Delta Drone International will use advanced light detection and ranging (LIDAR) solutions to examine mining site expansion options through its mining specialist brand Rocketmine**
- **Expands Delta Drone International's footprint to 11 countries.**

15 July 2021 – Global drones-as-a-service provider, **Delta Drone International Limited (ASX: DLT)** will expand its enterprise mining operations into Mali after being appointed by Barrick Gold (Holdings) Limited (**Barrick Gold**), a subsidiary of multinational gold mining company Barrick Gold Corporation, for advanced light detection and ranging (LIDAR) services.

Rocketmine, Delta Drone International's dedicated enterprise mining brand, will provide a fully outsourced service to Barrick Gold through a fleet of mining specific drones and expert mining pilots, that will deploy advanced LIDAR capabilities to examine mining site expansion options in the region.

The one-week operation will deliver Barrick Gold the data required to guide decision making, while they continue to focus on their day-to-day mining operations. Rocketmine, will also manage the necessary requirements by Mali's local civil aviation authority, Agence Nationale de l'Aviation Civil to ensure all services conducted on the site are compliant.

Whilst small in dollar value (A\$25,000), the contract adds to Delta Drone International's list of countries of operations with 11 countries using Delta Drone International's services.

Delta Drone International CEO, Christopher Clark said:

"The addition of Mali to our growing global footprint speaks to the knowledge and value our team of mining experts at Rocketmine provide our customers."

"By understanding our customers' needs, the industry they work in, and their local drone rules and regulations, allows them to focus on their day-to-day business operations, while we provide the data required to guide high level decision making."

"We look forward to starting our partnership with Barrick Gold and showing them the magnitude of ways that drones can enhance operations in the enterprise mining sector."

This announcement has been authorised for release by the Board of Delta Drone International Limited.

About Delta Drone International

Delta Drone International is a multinational drone-based data service and technology solutions provider for the mining, agricultural and engineering industries. It provides aerial surveying and mapping, security and surveillance, and blast monitoring and fragment analysis through a fully-outsourced service with AI and fast data turnaround that allows enterprise customers to focus on operations on the ground while Delta Drone International takes care of everything in the air.

It has in-house enabling proprietary technology, an R&D and integration centre and specialist expertise in designing, developing and providing best-in-class autonomous safety systems for commercial drone deliveries, drone flights for crowd monitoring and in urban areas, as well as 'beyond visual line of sight' (BVLOS) missions.
