

26 July 2021
Australian Securities Exchange (ASX) Announcement

Sensera Quarterly Update and Appendix 4C

HIGHLIGHTS:

- **FQ4 revenue of US\$633k and cash receipts of US\$807k**
- **Abiomed FY22 demand confirmed at over US\$4M**
- **Cash position at US\$787k**

Sensera Limited (Company) (ASX:SE1) is providing Appendix 4C for the fourth quarter of the financial year 2021 (FY21). The Company achieved quarterly revenue of US\$633k up from US\$451k last quarter. There was also a material increase in cash receipts to US\$807k from US\$383k in FQ3.

The quarter ending cash position was US\$787k, as improved customer collections and cash generation from a warrant exercise drove cash flow in the quarter.

Abiomed, the company's largest volume customer, increased its sensor demand in the quarter. This is the start of a revenue ramp and demand is expected to continue to increase throughout FY22. Abiomed has indicated demand that is in excess of US\$4M for FY22 and has started placing orders to cover their near term requirements. The demand increase comes from the new sensor product production ramps that are now available as part of the industry leading Impella cardiac assist device.

NanoDiagnostics Incorporated ([NanoDX](#)) has continued to work towards production release of their SARS-CoV-2 detection system and until this work is complete it is not been in a position to seek FDA approval through the Emergency Use Authorization (EUA) process. As previously disclosed, whilst there is a risk that NanoDX may not satisfy the FDA's requirements for an EUA and/or the evaluation of NanoDX's EUA submission may take longer than expected, Sensera continue to work with NanoDX on the project.

The Company also engaged in two new sensor designs for customers in the quarter and has a robust pipeline of new opportunities that should help generate engineering based revenue and pre production builds during the coming quarters. This is a marked improvement in the new customer pipeline that had stalled as companies had been impacted by the pandemic for the past 18 months.

During FY20 and FY21 the Company received PPP of US\$1,242k in two separate loans of US\$621k

each. The first loan forgiven was recognised as income 1H'21 and this was officially confirmed during the quarter. The Company is also expecting the second loan to be fully forgiven and should obtain confirmation late in Q1 FY22 or Q2. As the Company enters into FY22, it is expected that there will be overall operational improvement. Some of this is predicated on a 60% improvement in corporate costs on a year over year basis. Topline revenue growth is also expected to grow by over 30% to improve overall financial performance.

Management expects the business to continue to improve and believes that it has made meaningful progress in building out a MEMS based sensor business that will be sustainable by simplifying and focusing the business while reducing costs. In what has clearly been a difficult market environment during COVID-19, the Company has also moved multiple customers and opportunities forward to lay the foundation for FY22.

This announcement was authorised for release by the Board of Directors.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
