- **Strong customer retention** with key renewals completed with GPT (APAC) and Nando's (EMEA)

Outlook

- Improving economic conditions in the northern hemisphere are delivering new opportunities and increased customer demand for our analytics platform which are driving an expanding business development pipeline
- Skyfii will focus on an accelerated investment into growth in FY22 via an expanded business development team, a focus on developing the cross-sale opportunities from the CrowdVision acquisition and new product development to drive top line revenue growth into FY22 and beyond
- With improving business sentiment, strong macro-tailwinds for venue analytics, computer vision and people counting technology across airports, stadiums, offices, universities, smart cities and commercial real estate, Skyfii remains focused on organic growth and new product development. The Company is anticipated to deliver another year of double-digit recurring revenue growth in FY22

Commenting on the June quarter, Skyfii CEO and Managing Director Wayne Arthur said:

"Skyfii has exited FY21 in an exceptionally strong position. Our ARR of \$14m, up 40% over the past 12 months, highlights the growth in our core business and our cash position of \$8.6m provides a strong and flexible balance sheet to support future growth activities.

The impact of COVID-19 has provided a strong macro-tailwind for our business delivering a significant opportunity to accelerate our growth efforts. The increasing global focus on venue density, crowd management and occupancy is driving elevated interest in our people counting & venue analytic products. We are taking advantage of this increased demand to fast track our growth initiatives by investing in our people, our products and our channel partnerships. The investment will drive an increased pipeline of opportunities, particularly internationally, delivering a step change in our recurring revenue base.

The recent acquisition of CrowdVision has provided a counter-cyclical ability to grow in the lucrative airports, stadiums, transportation hubs and large-scale resort hotels and casinos verticals. The cross-sell of products and services between Skyfii and CrowdVision's customer base provides further avenues for growth in our recurring revenues.

With a strong balance sheet, and a market leading product offering, we are in an exceptional position to accelerate our growth efforts to deliver a significant uplift in revenues in FY22 and beyond with the aim of moving to a cash flow positive position in FY23.

I look forward to updating you on our growth in coming quarters".

RECURRING REVENUE

Cash position

The Company maintained a strong balance sheet with \$8.6m of cash as at 30 June 2021. In addition, Skyfii has access to a \$2m loan facility, which remains undrawn.

During the quarter the company successfully completed a A\$10.0m Placement to institutional and sophisticated investors and a A\$0.7m Share Purchase Plan. The Company will use the funds raised for the acquisition of CrowdVision and is in a very strong position to continue to invest further into its resource base, particularly in its international markets, which will allow the Company to continue to convert new business opportunities as they arise as market conditions continue to improve.

Acquisition of CrowdVision

In April, the Company announced the acquisition of CrowdVision, a computer vision and AI video analytics company focussed on airports, stadiums, transportation hubs and large-scale resort hotels and casinos. The acquisition was completed post the end of the quarter on 6th of July.

The acquisition of CrowdVision provides Skyfii a leading presence in the global airport vertical. The timing of the transaction is strategically counter-cyclical and provides significant scope for Skyfii to generate revenue uplift. This is due to global air travel and airport infrastructure investment continuing to normalise with a rebound in regional domestic travel, post the impact of COVID-19.

CrowdVision generates a high proportion of its recurring SaaS revenues under long term contracts from a range of blue-chip airports including JFK, Heathrow, Narita, Chicago O'Hare and Miami.

28 July 2021

CrowdVision has significant opportunity to grow ARR via leverage into new verticals with similar use cases including Stadiums, Casinos, Rail/Transit hubs.

Skyfii's integration of CrowdVision has performed ahead of expectations with the technology platforms aligned and all staff fully onboarded to Skyfii's operating systems. The rapid integration and strong resourcing synergies between Skyfii and CrowdVision resulted in better than anticipated cost performance during the quarter.

Post-acquisition, the CrowdVision standalone annualized pipeline has grown from ~\$9m to ~\$11m as increased air travel is resulting in airports increasingly looking at crowd movement and density solutions within their venues. Over the past quarter, we have submitted responses to two requests for proposal (RFP) from major airport groups and we are in the process of submitting a third with the total contract value of these RFP's expected to exceed \$3m.

The integration and early stage business development activities has reinforced the very strong strategic and revenue opportunities resulting from the acquisition.

Corporate

Jon Adgemis announced his resignation as Non-executive Director, effective 31 May 2021, to pursue other business interests. Mr Adgemis was a foundational investor in the Company and was a member of the Board since 2018. The Board has commenced the search for a new independent Non-Executive Director.

As noted in Section 6 of the Appendix 4C, the amount stated was made to the Directors of the entity during the quarter, comprising salaries and fees for Executive and Non-Executive Directors. No other payments were made to any related parties or their associates of the entity.

Outlook

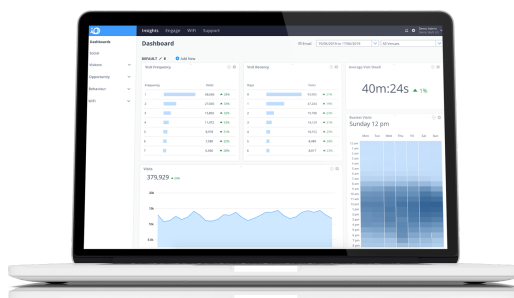

FY22 will be a year of investment into our operating model in order to drive organic growth in all markets which will be a catalyst for significant YoY revenue growth in FY22 and into FY23 and beyond. The key areas of focus for Skyfii's management team during FY22 include:

- Continued investment into marketing activities to drive quality leads across all markets and products
- Increased investment into Sales, Support and Services headcount to drive additional revenue growth in all regions
- Focus on near-term conversion across CrowdVision and Skyfii sales pipelines
- Expansion of our reach into the UAE region
- Significant focus on key verticals including Airports, Stadiums, Grocery, Corporate Offices, Universities, Schools and Municipalities
- Integration of the CrowdVision technology solution into the Skyfii offering and retirement of the legacy platform
