

ASX Announcement

Quarterly Activities Report and Appendix 4C for June 2021

- **First Quarter of revenues from the Hamilton (NZ) Hotel acquisition help to stabilise cash position**
- **Efforts to control operational costs also assisted to offset the pandemic-related loss of retail revenue**
- **New business development opportunities are being pursued to address the current challenges**

The Directors of **Mediland Pharm Limited** ("**Mediland**" or the "**Company**") are pleased to provide an update on its quarterly results for the period ended 30 June 2021. A copy of the Appendix 4C -Quarterly Cash Flow Report for the Quarter is attached.

The acquisition of the Heartland Ambassador Hamilton Hotel in New Zealand that was approved by our non-associated shareholders at the Extraordinary General Meeting held on 29 April 2021 pleasingly resulted in strong cash inflows to offset the ongoing impact of the Covid-19 pandemic. The Company's total cash position at 30 June was \$3.3m, down by \$729k from the previous quarter.

The Hotel operations traded at 78% average occupancy for the past two months (since its acquisition) resulting in revenue of \$430k. Overall, this contributed to reduce the Group's operational cash outflows by \$394k compared to the previous quarter. The hotel's profitability in the past two months further demonstrates its viability and capability to keep the Group's cash flows stable with increased certainty to operate as a going concern.

Overall operational costs increased as a result of the Hotel operations, in line with management's expectations. Payment made to Ixora Investments Pty (related party) for the purchase of the Hotel (total \$300k) was classified as cash outflows from investing activities.

The administration and corporate costs for the quarter include \$27k in payment of Non-executive Directors fees and Executive Director's remuneration.

All other head office costs and remaining retail business costs have been declining or were significantly lower compared to previous periods as a result of the exit of the three retail subsidiaries from the Group in December 2020.

With ongoing uncertainty, and continued suspension of trading activities within the group including its New Zealand store, the Australian subsidiary entities of the Group are being placed into liquidation. This does not have any material impact on Mediland's operations as these entities have not been trading.

The Company has now terminated its lease arrangements with respect to Ian's Health Lounge business and this has increased the leased assets costs in the operating cash flows in this quarter. The Group is currently negotiating with the existing landlords to exit the last remaining leases relating to New Zealand and the head office premises. With early termination of these three leases, it is anticipated that cash outflows on unproductive assets can be eliminated.

Management remains open to once again playing an active role in the "health and well-being" sector in the inbound Chinese tourist retail market as and when the tourism industry returns to some form of normality.

The Board and Management are appreciative of the ongoing support of our shareholders during these challenging times. The Board and Management are committed to diversifying the Company's revenue streams beyond retail and to focus on building shareholder value through business development and growth opportunities for the Group. The Hamilton Hotel acquisition is the first of a number of initiatives that the Company's Board and Management aim to implement to ensure that the Company can emerge from the pandemic in a stronger position.
