CHAIRMAN'S LETTER

2 August 2021

Dear Shareholder,

On behalf of Atrum Coal Limited, I am pleased to invite you to participate in a 2 for 11 accelerated non-renounceable entitlement offer of new fully paid ordinary shares (**New Shares**) in the Company at an offer price of A\$0.03 per New Share (**Offer Price**) to raise up to approximately A\$3.2 million (**Entitlement Offer**).

The Offer Price for the Entitlement Offer represents a discount of approximately 42.3% to the closing price of ordinary shares in the Company (**Shares**) on ASX on 30 July 2021 (being the last trading day before announcement of the Entitlement Offer), and a 38.3% discount to the TERP of A\$0.049¹.

The Entitlement Offer comprises:

- an institutional component (**Institutional Entitlement Offer**); and
- a retail component (**Retail Entitlement Offer**).

The Institutional Entitlement Offer will close on 3 August 2021 and is expected to raise gross proceeds of at least approximately A\$0.6 million.

Under the Entitlement Offer, Eligible Shareholders are entitled to acquire 2 New Shares for every 11 Shares held at 4 August 2021 (**Record Date**) (**Entitlement**). In addition, via a top-up facility there is the opportunity for Eligible Retail Shareholders to apply for additional New Shares at the same Offer Price to increase their holdings at an attractive price (refer to Section 3.4) (**Top-Up Facility**). Your Entitlement is set out in your personalised Entitlement and Acceptance Form which accompanies this Prospectus. It is important that you determine whether to take up in whole or part, or do nothing, in respect of your Entitlement (see Section 3).

Entitlements under the Entitlement Offer are non-renounceable and will not be tradeable on ASX or otherwise transferable. If you do not take up your Entitlement in full, you will not receive any value in respect of that part of the Entitlement that you do not take up.

New Shares issued under either component of the Entitlement Offer will rank equally with existing Shares.

The Retail Entitlement Offer closes at 5.00pm (Melbourne time) on 30 August 2021.

The Entitlement Offer is fully underwritten by Argonaut Capital Limited (**Underwriter**). The Underwriter has also entered into sub-underwriting arrangements with certain existing substantial Shareholders of the Company as detailed in Section 4.4.

Background and reasons for the Entitlement Offer

In February this year, the Alberta Government announced the reinstatement of the Alberta 1976 Coal Policy, which had been rescinded in mid-2020. It also announced the commencement of a stakeholder consultation process via an independent Coal Policy Committee with the stated objective of developing a new, modern coal policy. Key aims of

¹ The TERP is the theoretical price at which Shares should trade immediately following the ex-date for the Entitlement Offer assuming 100% take up of the Entitlement Offer. The TERP is a theoretical calculation only and the actual price at which Shares trade immediately following the ex-date for the Entitlement Offer will depend on many factors and may not be equal to the TERP. The TERP is calculated by reference to the Company's closing price of A\$0.052 per Share on 30 July 2021, being the last trading day prior to the announcement of the Entitlement Offer.

the new policy include providing greater certainty and facilitating development of metallurgical coal resources for steel-making in a responsible and sustainable matter. In addition to the reinstatement, the Alberta Energy Regulator has been directed that no mountaintop removal will be permitted on Category 2 lands and all future coal exploration approvals will be prohibited on these lands, pending widespread consultations on a new coal policy. The Company's Elan Hard Coking Coal Project (**Elan**) is located on Category 2 lands.

The Company halted exploration activities at its Elan Hard Coking Coal Project prior to April 2021 in order to direct maximum focus, effort and good faith to the stakeholder consultation process.

The Government of Alberta appointed the independent Coal Policy Committee with a mandate to deliver reports on:

- Albertan's understanding of coal development (due October 15); and
- Their recommendations with respect to a new Coal Policy (due November 15).

The Minister will then present a modern Coal Policy that we anticipate will outline the requirements and guidelines for responsible coal development in Alberta.

Science, technology, and the legislative and regulatory framework have greatly surpassed the intent, purpose and value of the coal categories created in the original Coal Policy about 45 years ago. In recognition of this dynamic, our initial submission to the Committee outlined the view that a new coal policy should be targeted to deliver three key aims:

- Rigorous protection of water and landscapes, reference to the modern regulatory framework and acknowledgment of industry advancements that support responsible development of resources.
- Establishment of confidence among Albertans that a robust regulatory construct is in place to ensure environmentally responsible development; and
- A simplified land category system that can potentially see more, rather than less lands, protected and fits more effectively into the current land use planning processes.

During the first half of 2021, we have focused our communications and efforts on informing the voices who have driven public opinion and on providing the facts about modern mining and environmental protection to interested Albertans. We believe this aligns well with the stated objective of developing a new, modern coal policy

Currently, we are focused on providing information on key issues such as water management and land reclamation so that we can present a clear, compelling and consistent voice in our fact-based campaign. We intend to maximise the use of scientific evidence and indigenous knowledge in presenting this information.

We have also been greatly encouraged by the support of First Nations groups and communities that are proximate to the Elan project site who advocate for responsible coal development that promotes environmental protection under the existing rigorous regulations and will result in the flow of significant benefits to all stakeholders.

Having considered a number of different funding options and structures, the Company is now seeking to raise capital to fund key activities over the next 12 months.

We believe the Elan Project holds substantial long-term value given its significant resource of high quality hard coking coal which is a critical ingredient in making steel, something that all societies need to function, grow and prosper, as well as a vital component of our global transition to a greener economy.

While the current Albertan consultation process in pursuit of a new, modern coal policy has created uncertainty, we are optimistic that in the end it will actually deliver greater metallurgical coal development certainty than might have existed previously. The Elan Project is a world-class hard coking coal resource and we are raising funds to ensure that we can both:

- allocate the appropriate resources to community engagement, stakeholder consultation and the independent Coal Policy Committee Process; and
- be in a position to recommence study work and site-based activity rapidly for the Elan project should that opportunity be available post the current process

Funds raised will also enable the continuation of activities to preserve the value and integrity of the asset including ongoing Elan environmental baseline studies, and to provide working capital and pay the costs of the offer.

The key risks facing the Company in the short to medium term are described in more detail in Section 5.

Further information

Further information on the Entitlement Offer and the Company's business is detailed in this Prospectus. You should read the entirety of this Prospectus carefully before deciding whether to participate in the Entitlement Offer. An investment in the Company and the New Shares, is speculative and subject to a range of risks, which are more fully detailed in Section 5. If any of these risks or other material risks eventuate, it will likely have a material adverse impact on the Company's future financial performance and position.

On behalf of the Directors and management team of Atrum Coal Limited, I invite you to consider this investment opportunity and thank you for your ongoing support.

Yours sincerely

Glen Koropchuk
Chairman

Going concern risk</p> <p>The last audited Financial Report of the Company, being for the year ended 31 December 2020, has been prepared on a going concern basis. The audit report to the annual financial statements for 31 December 2020, lodged with ASX on 30 March 2021, included a "Material uncertainty related to going concern", without qualification, in respect of the going concern disclosures included in Note 1(b) to the financial statements.</p> <p>6. Exploration</p> <p>There can be no assurance that exploration of the Company's tenements, or any other tenements that may be acquired in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.</p> <p>7. Pre-Feasibility Study</p> <p>The Company was undertaking a Pre-feasibility study program for its 100% owned Elan Coal Project until its pause earlier this year due to the coal policy consultation process. Pre-feasibility studies are an early stage analysis of a potential mining project. They typically give an overview of a mining project's logistics, capital requirements, key challenges and other information deemed important to the decision-making process. Many factors are involved in the analysis, including the achievement of satisfactory mineral resource estimates, the level of estimated metallurgical coal recoveries, capital and operating cost estimates and the estimate of future metallurgical coal prices. Capital and operating cost estimates are based upon many factors, including anticipated tonnage and grades of ore to be mined and processed, the configuration of the ore body, ground and mining conditions, expected</p>

	<p>recovery rates from the ore and anticipated environmental and regulatory compliance costs.</p> <p>Each of these factors involves uncertainties and as a result, the Company cannot give any assurance that its development or exploration projects will become operating mines. If a mine is developed, actual operating results may differ from those anticipated in the pre-feasibility study.</p> <p>8. Resource estimation</p> <p>Resource estimates are expressions of judgement based on knowledge, experience and resource modelling. As such, resource estimates are inherently imprecise and rely to some extent on interpretations made. Additionally, resource estimates may change over time as new information becomes available. Should the Company encounter mineralisation or geological formations different from those predicted by past drilling, sampling and interpretations, resource estimates may need to be altered in a way that could adversely affect the Company's operations.</p> <p>Other risks</p> <p>More detail on these and other risks are outlined in Section 5, including risks relating to the Group's other operations as well as risks specific to the jurisdictions in which the Group operates.</p> <p>The above risk factors ought not be taken as an exhaustive list of the risks faced by the Company or by investors in the Company's securities (including the New Shares). The above factors, and others not specifically referred to in Section 5, may in the future materially affect the financial condition or prospects of the Company and therefore the value of the New Shares offered under this Prospectus. Therefore, the New Shares to be issued under this Prospectus, carry no guarantee with respect to their value or price.</p>	

2 BACKGROUND TO AND REASONS FOR THE ENTITLEMENT OFFER

2.1 Update on operations of the Company

In February this year, the Alberta Government announced the reinstatement of the Alberta 1976 Coal Policy, which had been rescinded in mid-2020. It also announced the commencement of a stakeholder consultation process with the stated objective of developing a new, modern coal policy. Key aims of the new policy include providing greater certainty and facilitating development of metallurgical coal resources for steel-making in a responsible and sustainable matter.

In addition to the reinstatement, the Alberta Energy Regulator has been directed that no mountaintop removal will be permitted on Category 2 lands and all future coal exploration approvals will be prohibited on these lands, pending widespread consultations on a new coal policy. The Company's Elan Hard Coking Coal Project (**Elan**) is located on Category 2 lands.

The Company halted exploration activities at its Elan Hard Coking Coal Project prior to April 2021 in order to direct maximum focus, effort and good faith to the stakeholder consultation process. There is no indication as to when the stakeholder consultation process will be completed.

The Company has appointed an integrated team of employees and external advisors to focus on and execute the planned activities with respect to the stakeholder consultation process. Proactive outreach to stakeholders and participation in the consultation process continues. Information concerning modern mining practices is being rolled out to the public. In addition, a visit to the Elan Project site has been completed by members of the independent Coal Policy Committee after Atrum's initial submission on its vision for a new Coal Policy.

The objective of the Company is to be heard at all possible hearings and throughout the consultation process that the Alberta Government is organising. In addition, the Company is proactively raising awareness on responsible mining methods and evidence within communities and First Nations Groups

Having considered a number of different funding options and structures, the Company is now seeking to raise capital to fund the stakeholder consultation process, continue the Elan environmental baseline study, provide working capital and pay the costs of the offer.

The key risks facing the Company in the short to medium term are described in more detail in Section 5.

3 DETAILS OF THE ENTITLEMENT OFFER AND HOW TO APPLY

3.1 Entitlement Offer

The Entitlement Offer is an offer of approximately 105.8 million New Shares at the Offer Price of A\$0.03 per New Share, to raise up to approximately A\$3.2 million. All Eligible Shareholders are entitled to subscribe for 2 New Shares for every 11 Shares held at the Record Date, being 4 August 2021.

The proceeds of the Entitlement Offer will be applied principally to pursue external relations efforts, continue baseline environment studies, provide working capital and to pay the costs of the Entitlement Offer.

The Entitlement Offer has two components, namely:

- the **Institutional Entitlement Offer** – being an offer to Eligible Institutional Shareholders; and
- the **Retail Entitlement Offer** – being an offer to Eligible Retail Shareholders.

The Entitlement Offer is non-renounceable. Accordingly, Entitlements do not trade on ASX nor can they be sold, transferred or otherwise disposed of. New Shares issued under the Retail Entitlement Offer are to be issued at the same price as New Shares to be issued under the Institutional Entitlement Offer. In addition, Shareholders' Entitlements under the Institutional Entitlement Offer and the Retail Entitlement Offer are calculated based on the same ratio. New Shares issued pursuant to the Entitlement Offer will be fully paid and will rank equally with existing Shares on issue.

3.2 Institutional Entitlement Offer

The Company will conduct the Institutional Entitlement Offer during the period set out in the "Key Entitlement Offer Dates" Section, during which Eligible Institutional Shareholders have the opportunity to take up all or part of their Entitlement. The Lead Manager will provide Eligible Institutional Shareholders with the details of their Entitlements and how to apply under the Institutional Entitlement Offer at the commencement of the Institutional Entitlement Offer.

The Institutional Entitlement Offer will involve a bookbuild process to sell Entitlements not taken up by Eligible Institutional Shareholders under the Institutional Entitlement Offer. Any Shortfall under the Institutional Entitlement Offer will be allocated in accordance with the Shortfall Allocation Policy described in Section 3.6.

The New Shares offered under the Institutional Entitlement Offer, including the New Shares comprising the Shortfall of the Institutional Entitlement Offer, are expected to be issued on 12 August 2021. The Institutional Entitlement Offer is fully underwritten by the Underwriter.

3.3 Retail Entitlement Offer

Under the Retail Entitlement Offer, Eligible Retail Shareholders (as defined in the Glossary) are being offered the opportunity to subscribe for all or part of their Entitlement, being 2 New Shares for every 11 Shares held as at the Record Date, being 4 August 2021, at the Offer Price of A\$0.03 per New Share. The Retail Entitlement Offer is fully underwritten by the Underwriter.

The Retail Entitlement Offer opens on 9 August 2021. The Prospectus will be despatched on that same date, along with a personalised Entitlement and Acceptance Form, to Eligible Retail Shareholders. The Retail Entitlement Offer is expected to close at 5.00 pm (Melbourne time) on 30 August 2021.

If you are an Eligible Retail Shareholder that has received this Prospectus, the number of New Shares to which you are entitled (your Entitlement) is shown on the accompanying Entitlement and Acceptance Form. If you have more than one registered holding of Shares, you will be sent more than one personalised Entitlement and Acceptance Form and you will have separate Entitlements for each separate holding.

It is important for Eligible Retail Shareholders to read and understand the information on the Company and the Retail Entitlement Offer made publicly available by the Company prior to taking up all or part of their Entitlement. In particular, please refer to the materials enclosed in the Company's interim and annual reports, other announcements made available at www2.asx.com.au and all other parts of this Prospectus carefully before making any decisions in relation to your Entitlement.

3.4 Top-Up Facility

The Retail Entitlement Offer will also include a Top-Up Facility, which entitles Eligible Retail Shareholders who take up their full Entitlement to apply for Additional New Shares in excess of their Entitlement at the Offer Price. Applications under the Top-Up Facility will be capped at A\$500,000 in aggregate (subject to the Board's discretion to scale-back applications for Additional New Shares, including to the extent necessary to prevent the issue of Additional New Shares contrary to law). In particular, an Eligible Retail Shareholder will not be issued any Additional New Shares under the Top-Up Facility if the issue of such Additional New Shares would cause the Company or that Eligible Retail Shareholder to breach any applicable law, including but not limited to section 606 of the Corporations Act.

Additional New Shares under the Top-Up Facility will be issued to Eligible Retail Shareholders that have applied for Additional New Shares in priority to and before any allocation of the Shortfall is made to the Underwriter and any sub-underwriters, subject to the Board's discretion to scale-back applications for Additional New Shares.

Warburton and the Directors (and their associates) of the Company will not be permitted to participate in the Top-Up Facility.

There is no guarantee that those Eligible Retail Shareholders will receive the number of Additional New Shares applied for under the Top-Up Facility, or any. If Eligible Retail Shareholders apply for more Additional New Shares than are available under the Top-Up Facility, the Directors propose that Additional New Shares available under the Top-Up Facility be allocated to Eligible Retail Shareholders on a pro-rata basis.

If you apply for Additional New Shares under the Top-Up Facility and your application is successful (in whole or in part) your Additional New Shares will be issued at the same time that other New Shares are issued under the Retail Entitlement Offer. There is no guarantee you will receive any Additional New Shares under the Top-Up Facility.

Refund amounts (greater than \$5.00), if any, will be paid in Australian dollars. You will be paid either by cheque sent by ordinary post to your address as recorded on the Share register (the registered address of the first-named in the case of joint holders), or by direct credit to the nominated bank account as noted on the Share register as at the Closing Date.

3.5 Shortfall Offer

Any Entitlements not taken up pursuant to the Institutional Entitlement Offer or the Retail Entitlement Offer, and not otherwise allocated to an Eligible Retail Shareholder under the Top-Up Facility (**Shortfall Shares**), will form the Shortfall. The offer to issue Shortfall is a separate offer under the Prospectus (**Shortfall Offer**). The Shortfall will be on the same terms and conditions as the Entitlement Offer, except as set out in this Prospectus.

The Shortfall Offer is currently scheduled to close on or around 3 September 2021 but the Directors (subject to the agreement of the Underwriter) reserve the rights to extend that date that the Shortfall Offer closes by up to three months after the closing date of the Entitlement Offer, without prior notice.

The Shortfall Offer will involve a bookbuild process to place the Shortfall Shares to Eligible Institutional Shareholders and other institutional and professional investors as agreed by the Company and the Underwriter (**Shortfall Investors**). Warburton and Directors (and their associates) of the Company will not be permitted to participate in the Shortfall Offer. Any Shortfall Shares under the Shortfall Offer will be allocated in accordance with the Shortfall allocation policy described in Section 3.6.

3.6 Shortfall Allocation Policy

Unless otherwise agreed between the Company and the Underwriter, if there is a Shortfall, the Company will allocate Shortfall Shares according to the following priority:

(a) Shortfall Shares may be allocated to Shortfall Investors who have applied for Shortfall Shares under the Shortfall Offer. If there is an oversubscription for Shortfall Shares, the Company will scale back allocations of Shortfall Shares to Eligible Shareholders at the Board's sole and absolute discretion; and

(b) if following the allocation in paragraph (a), there remains a Shortfall, those unallocated Shortfall Shares will then be allocated to general sub-underwriters or the Underwriter.

3.7 Underwriting

The Entitlement Offer is fully underwritten by Argonaut Capital Limited. A summary of the key terms and conditions of the Underwriting Agreement is set out in Section 6.12.1.

The Company understands that Warburton, an existing Shareholder of the Company, has agreed with the Underwriter to sub-underwrite part of the Entitlement Offer. Details of the sub-underwriting fees are set out in Section 6.12.2 and details of the potential impact of the sub-underwriting arrangements on the shareholdings and control of the Company are set out in Section 4.5.

3.8 Your Entitlement

Your Entitlement is set out in the accompanying personalised Entitlement and Acceptance Form and has been calculated as two (2) New Shares for every eleven (11) existing Share you held as at the Record Date. If you have more than one registered holding of Shares, you will be sent more than one personalised Entitlement and Acceptance Form and you will have separate Entitlements for each separate holding.

If you decide to take up all or part of your Entitlement, or apply for Additional New Shares, please refer to the personalised Entitlement and Acceptance Form and apply for New Shares (and Additional New Shares, if applicable) pursuant to the instructions set out on the personalised Entitlement and Acceptance Form.

The Company reserves the right (in its absolute discretion) to scale back the number of New Shares allocated to Eligible Retail Shareholders or reject persons claiming to be Eligible Retail Shareholders if their claims prove to be incorrect or overstated or if they fail to provide information to substantiate their claims.

3.9 Nominees

The Retail Entitlement Offer is only being made to Eligible Retail Shareholders. The Company is not required to determine whether or not any registered holder is acting as a nominee or the

identity or residence of any beneficial owners of Shares (e.g. for the purposes of determining whether any such persons may participate in the Retail Entitlement Offer).

Where any holder is acting as a nominee for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Retail Entitlement Offer is compatible with applicable foreign laws. Any person that is in the United States with a holding through a nominee may not participate in the Retail Entitlement Offer and the nominee must not take up any Entitlement or send any materials into the United States or to any person it knows to be in the United States.

The Company assumes no obligation to advise you on any foreign laws.

3.10 No Rights Trading

There will be no trading of rights on ASX and you may not dispose of your rights to subscribe for New Shares under the Entitlement Offer to any other party.

3.11 Fractional Entitlements

Fractional entitlements will be rounded up to the nearest whole number of New Shares. For this purpose, holdings in the same name will be aggregated for the calculation of New Share entitlements, to the extent permitted by the ASX Listing Rules. If the Company considers that holdings have been split to take advantage of rounding, the Company reserves the right to aggregate holdings held by associated Shareholders for the purpose of calculating Entitlements, to the extent permitted by the ASX Listing Rules.

3.12 Risks of the Offers

As with any securities investment, there are risks associated with investing in the Company. Having regard to the risks applicable to the Company and its business, Eligible Retail Shareholders should be aware that an investment in the New Shares offered under this Prospectus should be considered speculative and there exists a risk that you may, in the future, lose some or all of the value of your investment.

Before deciding to invest in the Company, investors should read this Prospectus in its entirety, in particular the specific risks associated with an investment in the Company (detailed in Section 5) and should consider all factors in light of their personal circumstances and seek appropriate professional advice.

3.13 Options available to you

If you are an Eligible Retail Shareholder, you may take any one of the following options:

Option	Action
Take up all of your Entitlement	If you take up and pay for all of your Entitlement in accordance with the instructions below, before the close of the Retail Entitlement Offer, you will be issued your New Shares on 6 September 2021.
Do nothing	If you take no action or your application is not supported by cleared funds, your entitlement will lapse. If you allow all or part of your Entitlement to lapse, then your percentage holding in the Company will be diluted by your non-participation in the Retail Entitlement Offer. Entitlements will not be able to be traded on ASX or another financial market, or otherwise privately transferred.

<p>Take up part of your Entitlement</p>	<p>If you elect to take up and pay for part of your Entitlement in accordance with the instructions below, before the close of the Retail Entitlement Offer, you will be issued New Shares with respect to that part of your Entitlement on 6 September 2021.</p> <p>The balance of your Entitlement will lapse.</p>
<p>Take up all of your Entitlement and also apply for Additional New Shares in excess of your Entitlement under the Top-Up Facility</p>	<p>If you take up and pay for all your Entitlement, before the close of the Retail Entitlement Offer, you will be issued your New Shares on 6 September 2021.</p> <p>If you apply for Additional New Shares in excess of your Entitlement under the Top-Up Facility, subject to Additional New Shares being available and the Company's discretion to scale-back your allocation of Additional New Shares, you will also be issued with these Additional New Shares on 6 September 2021. The Company's decision on the number of Additional New Shares to be allocated to you will be final.</p> <p>Other than to the extent that Additional New Shares are issued to you, any surplus Application Monies received for more than your Entitlement will be refunded after the close of the Retail Entitlement Offer on or around early September 2021 (except for where the amount is less than \$5, in which case it will be donated to a charity chosen by the Company). Refunds will be made by sending a cheque in the post to the address on the Company's records on its share register for you on or around the Institutional Allotment Date or the Retail Allotment Date, as applicable. No interest will be paid to Eligible Retail Shareholders on any Application Monies received or refunded (wholly or partially).</p>

3.14 Eligible Retail Shareholders

The Retail Entitlement Offer is only available to Eligible Retail Shareholders, who are those holders of Shares who:

- are registered as a holder of Shares as at the Record Date;
- have an address on the Company's share register in Australia or New Zealand as applicable, other than the United States as at the Record Date;
- are not in the United States and are not a person in the United States or acting for the account or benefit of US Persons, to that extent;
- did not receive an offer (other than as nominee) under the Institutional Entitlement Offer and were not treated as an ineligible institutional Shareholder under the Institutional Entitlement Offer; and
- are eligible under all applicable laws to receive an offer under the Retail Entitlement Offer without a prospectus, disclosure document, product disclosure statement or any lodgement, filing, registration or qualification.

Retail Shareholders who do not satisfy each of these criteria (other than those who received an offer under the Institutional Entitlement Offer) are Ineligible Retail Shareholders. See Section 3.15.

The Company may (in its absolute discretion) extend the Retail Entitlement Offer to any Shareholder in other foreign jurisdictions (subject to compliance with applicable laws).

The Company, in its absolute discretion, reserves the right to determine whether a Shareholder is an Eligible Retail Shareholder and is therefore able to participate in the Retail Entitlement

Offer, or an Ineligible Retail Shareholder and is therefore unable to participate in the Retail Entitlement Offer. The Company disclaims all liability to the maximum extent permitted by law in respect of any determination as to whether a Shareholder is an Eligible Retail Shareholder or an Ineligible Retail Shareholder.

The Retail Entitlement Offer is not being extended to any Shareholders outside Australia or New Zealand as applicable, other than in the United States. By returning a completed Entitlement and Acceptance Form or making a payment by BPAY, you will be taken to have represented and warranted that you satisfy each of the criteria listed above. Eligible Retail Shareholders who are nominees, trustees or custodians are therefore advised to seek independent professional advice as to how to proceed.

The Company may (in its absolute discretion) extend the Retail Entitlement Offer to any institutional Shareholder that was eligible to participate in the Institutional Entitlement Offer but was not invited to participate in the Institutional Entitlement Offer (subject to compliance with relevant laws).

Please consider the Retail Entitlement Offer in the light of your particular investment objectives and circumstances.

Please consult with your stockbroker, accountant, financial adviser, taxation adviser or other independent professional adviser if you have any queries or are uncertain about any aspects of the Retail Entitlement Offer.

An investment in New Shares is subject to investment and other known and unknown risks, some of which are beyond the control of the Company. The Company does not guarantee any particular rate of return or the performance, nor does it guarantee the repayment of capital from the Company or any particular tax treatment.

3.15 Ineligible Foreign Shareholders

The Company has decided that it is unreasonable to make offers under the Retail Entitlement Offer to investors who are holders of Shares and who are in the United States or have registered addresses outside Australia or New Zealand as applicable, other than in the United States (**Ineligible Foreign Shareholders**), having regard to the number of such holders in those places and the number and value of New Shares that they would be offered and the cost of complying with the relevant legal and regulatory requirements in those places.

Ineligible Foreign Shareholders are not eligible to participate in the Retail Entitlement Offer. However, as described in Section 4.6, the New Shares that Ineligible Foreign Shareholders would otherwise have been entitled to will instead be issued to the Nominee, who will sell the New Shares and return the proceeds to Ineligible Foreign Shareholders.

3.16 How to apply

If you decide to take up all or part of your Entitlement, or take up all of your Entitlement and also apply for Additional New Shares in excess of your Entitlement, please:

- pay your Application Monies via BPAY; or
- complete and return the personalised Entitlement and Acceptance Form with the requisite Application Monies, by following the instructions set out on the personalised Entitlement and Acceptance Form.

The Company will treat you as applying for as many New Shares as your payment will pay for in full up to your full Entitlement. Amounts received by the Company in excess of your full Entitlement (**Excess Amount**), will be treated as an application under the Top-Up Facility for as many Additional New Shares as your Excess Amount will pay for in full, subject to any scale-

back that the Company may determine to implement in its absolute discretion in respect of Additional New Shares.

To participate in the Entitlement Offer, your payment must be received no later than the close of the Entitlement Offer, being 5.00 pm (Melbourne time) on 30 August 2021. Eligible Shareholders who wish to pay via cheque, bank draft or money order will need to also ensure that their completed personalised Entitlement and Acceptance Form is also received by that time using the reply-paid envelope provided with this Prospectus or otherwise.

3.17 Payment methods

3.17.1 Payment by BPAY

For payment by BPAY, please follow the instructions on the personalised Entitlement and Acceptance Form (which includes the biller code and your unique Customer Reference Number (**CRN**)). You can only make a payment via BPAY if you are the holder of an account with an Australian financial institution that supports BPAY transactions. Please note that should you choose to pay by BPAY:

- you do not need to submit the personalised Entitlement and Acceptance Form but are taken to have made the declarations on that personalised Entitlement and Acceptance Form; and
- if you do not pay for your full Entitlement, you are deemed to have taken up your Entitlement in respect of such whole number of New Shares as is covered in full by your Application Monies.

When completing your BPAY payment, please make sure to use the specific biller code and unique CRN provided on your personalised Entitlement and Acceptance Form. If you receive more than one personalised Entitlement and Acceptance Form (i.e. where you have multiple holdings), please only use the CRN specific to the Entitlement on that form. If you inadvertently use the same CRN for more than one of your Entitlements when paying by BPAY, you will be deemed to have taken up your Entitlement and applied under the Top-Up Facility for Additional New Shares over and above your Entitlement on that holding to which that CRN applies and your applications in respect of your other CRNs will be deemed to have been rejected and will lapse.

Should you choose to pay by BPAY it is your responsibility to ensure that your BPAY payment is received by the Share Registry by no later than 5.00pm (Melbourne time) on 30 August 2021. You should be aware that your financial institution may implement earlier cut-off times with regard to electronic payment and you should therefore take this into consideration when making payment. The company takes no responsibility for any failure to receive Application Monies or payment by BPAY before the Retail Entitlement Offer closes arising as a result of, among other things, delays in postage or processing of payments by financial institutions.

3.17.2 Payment by cheque, bank draft or money order

Should you choose to pay by cheque, bank draft or money order it is your responsibility to ensure that your payment is received by the Share Registry by no later than 5.00 pm (Melbourne time) on 30 August 2021. Cash payments will not be accepted. Receipts for payment will not be issued.

3.17.3 Confirmation of your application and managing your holding

You may access information on your holding, including your Record Date balance and the issue of New Shares or Additional New Shares from this Entitlement Offer, and manage the standing instructions the Share Registry records on your holding on the share registry website at www.automicgroup.com.au. To access the share registry, you will need your Security

Reference Number (**SRN**) or Holder Identification Number (**HIN**) as shown on your Issuer Sponsored/CHESS statements and you will need to pass the security challenge on the site. To log into Automic, the shareholder will need to use the user name and password that they have already established. If they do not have one they can contact the registry by phone fax or mail to update details but identification processes will need to be gone through.

Mail

To participate in the Retail Entitlement Offer, your payment must be received no later than the close of Retail the Entitlement Offer, being 5.00 pm (Melbourne time) on 30 August 2021. If you make payment via cheque, bank draft or money order, you should:

- mail your completed personalised Entitlement and Acceptance Form together with Application Monies to:

Automic Group, GPO Box 5193 Sydney NSW 2001

A reply-paid envelope is supplied.

Entitlement and Acceptance Forms and Application Monies will not be accepted at the Company's corporate offices, or other offices of the Share Registry.

3.18 ASX quotation and trading

The Company will apply for quotation of the New Shares on ASX within seven days of the date of this Prospectus. While the Company is not aware of any reason why quotation would be denied, there is no assurance that the application will be granted. If quotation is not granted, New Shares under the Retail Entitlement Offer will not be issued and Application Monies will be refunded to applicants without interest.

The fact that ASX may grant quotation of the New Shares is not to be taken in any way as an indication of the merits of the Company, or the New Shares issued under the Entitlement Offer.

It is expected that the quotation and trading of New Shares issued under the Retail Entitlement Offer will commence on or about 6 September 2021 (on a normal settlement basis).

Confirmation of issue of New Shares is expected to be sent in accordance with ASX Listing Rules. It is the responsibility of each Applicant to confirm their holding before trading in New Shares. Any Applicant who sells New Shares before receiving their confirmation of issue will do so at their own risk. The Company, the Share Registry and the Underwriter disclaim all liability in tort (including negligence), statute or otherwise, to any person who trades in New Shares before receiving their confirmation of issue, whether on the basis of a confirmation of issue provided by the Company, the Share Registry or the Underwriter, or otherwise.

3.19 CHESS

The New Shares will participate from the date of commencement of quotation in the Clearing House Electronic Sub-register System (**CHESS**), operated by ASX Settlement Pty Limited. These securities must be held in uncertificated form (i.e. no certificate will be issued) on the CHESS sub-register under sponsorship of a sponsoring participant (usually a broker) or on the issuer-sponsored sub-register. Arrangements can be made at any subsequent time following quotation to convert your holdings from the issuer-sponsored sub-register to the CHESS sub-register under sponsorship of a sponsoring participant or vice versa, by contacting your sponsoring participant.

3.20 No withdrawal or cooling-off rights

You cannot withdraw your application once it has been accepted. Cooling-off rights do not apply to an investment in New Shares.

The Company reserves the right to withdraw the Retail Entitlement Offer at any time before the issue of New Shares to Eligible Retail Shareholders, in which case the Company will refund any Application Monies already received in accordance with the Corporations Act and will do so without interest being payable to applicants.

3.21 Warranties made on acceptance of the Entitlement Offer

By completing and returning your personalised Entitlement and Acceptance Form or making a payment by BPAY you will be deemed to have acknowledged, represented and warranted that you, and each person on whose account you are acting:

4.6 Takeover prohibition

The Entitlement Offer is being conducted in reliance on item 10A of section 611 of the Corporations Act which provides an exception to the 20% takeovers prohibition in Australia. If Warburton's relevant interest in shares exceeds 20% following the Entitlement Offer there is no requirement for Warburton to make a takeover bid. Pursuant to section 615 of the

Corporations Act, the Company has appointed Argonaut Securities Pty Ltd as its Nominee to sell the New Shares that might have otherwise have been issued to Ineligible Retail Shareholders. The Company obtained ASIC approval for the appointment of the Nominee on 30 July 2021, as required by section 615 of the Corporations Act.

The Nominee will subscribe for the New Shares which Ineligible Retail Shareholders would be entitled to if they were eligible to participate in the Entitlement Offer (**Nominee Shares**). The Nominee will then sell the Nominee Shares and remit the net proceeds from the sale of the Nominee Shares (if any) to the Ineligible Retail Shareholders in proportion to their respective shareholdings. The Nominee will have the absolute and sole discretion to determine the timing and price at which the Nominee Shares must be sold and the manner of any such sale. Any interest earned on the proceeds of the sale of the Nominee Shares will firstly be applied against expenses of the sale, including brokerage and any balance will form part of the proceeds payable to the Ineligible Retail Shareholders (if any).

The Company will forward the proceeds of the sale of the Nominee Shares (if any) as soon as reasonably practicable to the Ineligible Retail Shareholders in proportion to their respective shareholdings (after deducting the subscription price, brokerage commission and any other expenses). If any such net proceeds of sale are less than the reasonable costs that would be incurred by the Company for distributing those proceeds, such proceeds may be retained by the Company. Notwithstanding that the Nominee must sell the Nominee Shares, Ineligible Retail Shareholders may nevertheless receive no net proceeds if the subscription price plus costs of the sale is greater than the sale proceeds.

5 RISK FACTORS

5.1 Introduction

This Section 5 outlines some of the potential risks associated with an investment in the Company.

The Group's business is subject to risks, specific to its business activities, the jurisdictions within which it operates and of a more general nature. Each of the risks set out below, if they eventuate, could have a material adverse impact on the Group's business and prospects, financial condition, results of operation, cash flows and on the value of the Company's Shares. While the Board endeavours to manage these risks to prevent adverse outcomes, many of the circumstances giving rise to these risks are beyond the control of the Company, its Directors and its Management.

Investors should note that the risks outlined in this Section 5 are not exhaustive and are not the only risks associated with an investment in the Company, now or in the future. Additional risks that the Company is unaware of or that it currently considers to be immaterial may also potentially have a material adverse impact on the Group's business, financial condition and the value of its Shares. All or part of an investment in the Shares may be lost.

An investment in the Company should be considered speculative. Before deciding whether to invest in the Company, you should read the entire Prospectus and satisfy yourself that you have a sufficient understanding of these potential risks and should consider whether an investment in the Company is suitable for you having regard to your own investment objectives, financial circumstances and taxation position. If you do not understand any part of the Prospectus or are in any doubt as to whether to invest in the Company, you should seek independent professional advice from your stockbroker, accountant, lawyer or other professional adviser.

5.2 Risks related to the Group's existing business and its current projects

5.2.1 Coal policy Alberta

The Government of Alberta is working on a new Coal Policy that will impact directly on the Elan Project. There is no indication whether the New Coal Policy will be more advantageous than the previous policy, or if will allow Atrum Coal to continue its activities at the Elan Project either in part or at all. There is no indication as to the content or when the new coal policy will be implemented.

The Company is following closely the development and is contributing fully in order to arrive at a solution that will benefit all stakeholders.

5.2.2 Regulatory Process

The development of coal resources in Alberta is already subject to a robust regulatory process that is administered by respective Provincial and Federal agencies, namely the Alberta Energy Regulator and the Impact Assessment Agency (Canada) and begins before a mine is built and continues after mining is complete.

Even if a new Coal Policy allows Atrum Coal to continue its exploration and development activities at the Elan Project, a positive regulatory outcome cannot be guaranteed with respect to gaining a permit to mine.

5.2.3 Additional requirements for capital

The Company's ongoing activities and growth through development will require substantial expenditures. There can be no guarantee that the Company will be able

to access the funds necessary to finance its future activities and successfully achieve all the objectives of the Company's overall business strategy on terms acceptable to the Company, or at all. Any equity financing may be dilutive to shareholders and any debt financing, if available, may involve restrictive covenants, which may limit the Company's operations and business strategy. The Company's failure to raise capital, if and when needed, could delay or suspend the Company's business strategy and could have a material adverse effect on the Company's activities.

5.2.4 Coronavirus (COVID-19)

The outbreak of the coronavirus disease (COVID-19) is impacting global economic markets. The nature and extent of the effect of the outbreak on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by COVID-19. Further, any governmental or industry measures taken in response to COVID-19 may adversely impact the Company's operations and are likely to be beyond the control of the Company.

The Directors are monitoring the situation closely and have considered the impact of COVID-19 on the Company's business and financial performance. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain. In compliance with its continuous disclosure obligations, the Company will continue to update the market in regard to COVID-19 and any adverse impacts on the Company. If any of these impacts appear material prior to close of the Offer, the Company will notify investors.

5.2.5 Going Concern risk

Shareholders should note that the last audited Financial Report of the Company, being for the year ended 31 December 2020, has been prepared on a going concern basis. The audit report to the annual financial statements for 31 December 2020, lodged with ASX on 30 March 2021, included a "Material uncertainty related to going concern", without qualification, in respect of the going concern disclosures included in Note 1(b) to the financial statements.

The ability of the Company to continue as a going concern and to meet planned and committed expenditure requirements is subject to the Company successfully raising further equity. Should the Company not be successful in obtaining adequate funding or cash inflows are not as planned, there is material uncertainty as to the ability of the Company to continue as a going concern and to realise its assets and extinguish liabilities as they arise. The Company's failure to raise capital, if and when needed, could delay or suspend the Company's business strategy and could have a material adverse effect on the Company's activities.

5.2.6 Exploration

There can be no assurance that exploration of the Company's tenements, or any other tenements that may be acquired in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

5.2.7 Operations

The operations of the Company may be affected by various factors, including failure to locate or identify coking coal deposits, failure to achieve predicted volumes and quality in exploration and mining, operational and technical difficulties encountered in mining, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which

may affect extraction costs, adverse weather conditions, industrial and environmental accidents, industrial disputes and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.

No assurances can be given that the Company will achieve commercial viability through the successful exploration and/or mining of its tenement interests. Until the Company is able to realise value from its projects, it is likely to incur ongoing operating losses

5.2.8 Pre-Feasibility Study

The Company was currently undertaking a Pre-feasibility study program for its 100% owned Elan Coal Project until its pause earlier this year due to the coal policy consultation process. Pre-feasibility studies are an early stage analysis of a potential mining project. They typically give an overview of a mining project's logistics, capital requirements, key challenges and other information deemed important to the decision-making process. Many factors are involved in the analysis, including the achievement of satisfactory mineral resource estimates, the level of estimated metallurgical coal recoveries, capital and operating cost estimates and the estimate of future metallurgical coal prices. Capital and operating cost estimates are based upon many factors, including anticipated tonnage and grades of ore to be mined and processed, the configuration of the ore body, ground and mining conditions, expected recovery rates from the ore and anticipated environmental and regulatory compliance costs.

Each of these factors involves uncertainties and as a result, the Company cannot give any assurance that its development or exploration projects will become operating mines. If a mine is developed, actual operating results may differ from those anticipated in the pre-feasibility study.

5.2.9 Resource estimation

Resources estimates are expressions of judgement based on knowledge, experience and resource modelling. As such, resource estimates are inherently imprecise and rely to some extent on interpretations made. Additionally, resource estimates may change over time as new information becomes available. Should the Company encounter mineralisation or geological formations different from those predicted by past drilling, sampling and interpretations, resource estimates may need to be altered in a way that could adversely affect the Company's operations.

5.2.10 Additional requirements for capital

The Company's ongoing activities and growth through development will require substantial expenditures. There can be no guarantee that the Company will be able to access the funds necessary to finance its future activities and successfully achieve all the objectives of the Company's overall business strategy on terms acceptable to the Company, or at all. Any equity financing may be dilutive to shareholders and any debt financing, if available, may involve restrictive covenants, which may limit the Company's operations and business strategy. The Company's failure to raise capital, if and when needed, could delay or suspend the Company's business strategy and could have a material adverse effect on the Company's activities.

5.2.11 Coking Coal market prices

If the Company's projects are developed to production, the Company's revenue will come from the sale of product. Therefore, its earnings will be closely related to the price and arrangements it enters into for selling of its products. Product prices fluctuate and are affected by factors including the relationship between global supply and demand

for gold, forward selling by producers, the cost of production and general global economic conditions, such as inflation, interest rates and currency exchange rates.

In particular, fluctuations in coking coal prices will significantly affect the Company's future operations and profitability. Should the Company be successful in developing its existing projects and bringing them into production, if the market prices for those commodities fall below the Company's production costs and remain at such levels for any sustained period of time, it may not be economically feasible to commence or continue production. This would materially and adversely affect production, profitability and the Company's financial position. The Company may, against a decline in the coking coal prices, experience losses and may determine to discontinue operations or development of a project or mining at one or more of its properties. If the relevant price drops significantly, the economic prospects of the projects in which the Company has an interest could be significantly reduced or rendered uneconomic.

A decline in the market prices of relevant commodities may also require the Company to write down its coal resources which would have a material and adverse effect on its earnings and profitability. Should any significant write-down in resources be required, material write-down of the Company's investment in the affected mining properties and increased amortisation, reclamation and closure expenses may be required.

Fluctuations in commodity prices may have an adverse effect on the Company's exploration, development and production activities as well as its ability to fund those activities.

5.2.12 Dependence on key management personnel

The operating and financial performance of the Company is largely dependent on its ability to retain and attract key management personnel. Whilst the Company makes every effort to retain key management personnel, there can be no guarantee that it will be able to do so. Any loss of key management personnel could adversely affect the Company's business, results of operations or financial conditions and performance.

5.2.13 Development and infrastructure risk

The discovery of coal deposits is dependent on a number of factors, including the technical skill of the exploration personnel involved and the success of the adopted exploration plan. In addition, there can be a time lag between the commencement of drilling and, if a viable coal deposit(s) is discovered, the commencement of commercial operations. Reasons for this include the need to build and finance significant infrastructure.

5.2.14 Departure from assumptions

The expected exploration and development costs in relation to the Elan Project are based on certain assumptions with respect to the method and timing of exploration and development. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

The actual expenditure and exploration work undertaken will depend on the results generated. As such, actual expenditure may differ from budgeted expenditure.

5.2.15 Water supply

The Company will be required to apply for and obtain water use licences from the relevant governmental authorities. The process for obtaining a water use licence may be a lengthy one and the Company's operations may be adversely affected in the event that the relevant licences are not obtained in a timely fashion. An inadequate water supply would negatively impact any of the Company's proposed projects.

5.2.16 Infrastructure

In order to access coal fields and connect coal fields to export ports and customers, infrastructure access is required. In some cases, no infrastructure exists in terms of roads, rail, power, communications, accommodation, etc. and various permits and capital expenditure are required in order to ensure site and customer access is obtained. The process for obtaining the relevant permits and securing the capital and approvals necessary may be lengthy and the Company's operations may be adversely affected in the event that a permit or capital is not obtained in a timely fashion.

5.3 Risks related to the Offer and an investment in the Shares

5.3.1 Control and liquidity

Following the completion of the Entitlement Offer and depending on various Entitlement, Top-Up Facility and Shortfall Offer take-up, up to a maximum 27.9% of the Shares of the Company may be held by Warburton, which may also impact liquidity (see Section 4.5.1 for further information). The absence of any sale of Shares by these Shareholders may cause, or at least contribute to, limited liquidity in the market for Shares, which could affect the prevailing market price at which Shareholders are able to trade Shares and the volumes they are able to trade. If any of these Shareholders decided to sell a significant part or all of their Shares, the increase in the liquidity in the market for Shares could have a negative effect on the prevailing market price for Shares.

5.3.2 Prices of Shares may fluctuate significantly in the future

The Company is a publicly-listed company on ASX and is subject to the general market risk that is inherent in all securities listed on a stock exchange. This may result in fluctuations in its Share price that are not explained by the fundamental operations and activities of the Group.

The price at which Shares are quoted on ASX may increase or decrease due to a number of factors. These factors may cause the Shares to trade at prices below the Offer Price. There is no assurance that the price for the Shares will increase following their quotation on ASX, even if the Group's earnings increase.

Factors which may affect the price of the Shares include fluctuations in the domestic and international market for listed stocks, general economic conditions, including interest rates, inflation rates, exchange rates, commodity and oil prices, changes to government fiscal, monetary or regulatory policies, legislation or regulation, inclusion in or removal from market indices, the nature of the markets in which the Group operates and general operational and business risks.

5.3.3 An active market may not develop for the Company's Shares

There can be no guarantee that an active market will develop or the price of the Shares will increase. There may be relatively few potential buyers or sellers of Shares on ASX at any given time. This may increase the volatility of the market price of the Shares and may prevent Shareholders from acquiring more Shares or disposing of Shares. It may also affect the prevailing market price at which Shareholders are able to sell their

Shares. This may result in Applicants receiving a market price for their Options that is less or more than the Offer Price.

5.3.4 Currency movements could adversely impact the Group's results of operations

The Group currently conducts business in Canada and reports its financial statements in Australian dollars. Adverse movements in the exchange rate between those currencies, which may or may not be freely convertible, and any other foreign currencies as a result of future international expansion, may cause the Group to incur foreign currency losses. Such losses may impact and reduce the Company's profitability, ability to pay dividends and ability to service debt obligations it may take on in the future.

5.3.5 Taxation reform may adversely impact the Group

Any changes to the current rate of company income tax in the markets in which the Group operates may impact Shareholder returns. Any changes to tax laws applicable to the Group, the way they are interpreted and applied, or the current rate of taxes may have an adverse effect on the Group's financial performance or results. In addition, any change in tax rules and tax arrangements could have an adverse effect on the level of dividend imputation or franking and Shareholder returns.

5.3.6 Risk of Shareholder dilution

If Eligible Shareholders elect not to take up their Entitlement or only take up part of their Entitlement, they will be subject to dilution as a result of the issue of Shares under the Entitlement Offer. In addition, Ineligible Retail Shareholders will be subject to dilution under the Entitlement Offer.

Further, in the future, the Company may elect to issue Shares to engage in fundraisings including to fund acquisitions that the Group may decide to make or to fund its future strategies in general. While the Company will be subject to the constraints of ASX Listing Rules regarding the percentage of capital it is able to issue within a 12-month period (other than where exceptions apply), Shareholders may be diluted as a result of such issues of Shares and fundraisings.

5.3.7 The Group is exposed to changes in general economic conditions

The operating and financial performance of the Company is influenced by a variety of general domestic and global economic and business conditions that are outside its control, including long-term inflation rates, exchange rate movements, interest rate movements and movements in the general market for ASX and internationally listed securities. A prolonged deterioration in general economic conditions may have a material adverse impact on the financial performance, financial position, cash flows, dividends, growth prospects and share price of the Company.
