Operating Cash Flow^{1, 2} (\$m)

Cumulative Free Cash Flow (\$m)^{3, 4}

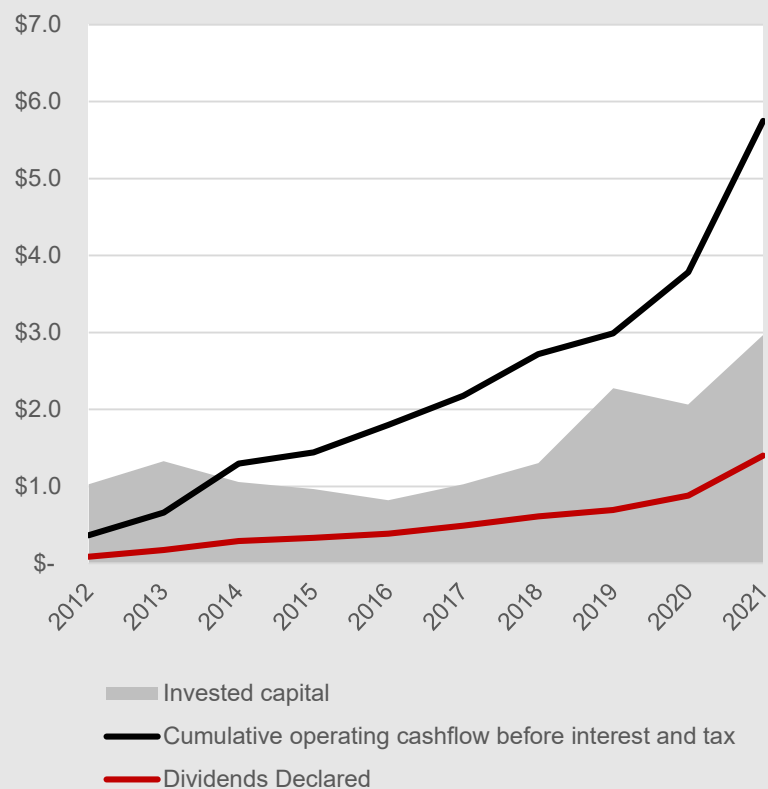

1. FY19 includes \$163m working capital cash outflow from inventory build at Koolyanobbing iron ore and Wodgina spodumene concentrate projects to allow ramp-up in production and exports. Subsequent to inventory build, Wodgina was placed in care & maintenance.
2. Operating cash flow excludes tax paid of \$79m and \$333m in FY20 and FY21 respectively on sale of 60% interest in Wodgina Lithium Project.
3. Cumulative Free Cash Flow tracks the cumulative cash flow from Operating and Investing activities from FY17 onwards.
4. FY20 Free Cash Flow has been adjusted to include tax paid of \$333m in FY21 on sale of 60% interest in Wodgina Lithium Project. This adjustment ensures that all Wodgina proceeds and tax paid are included in the same period. FY21 Free Cash Flow therefore excludes \$333m of Wodgina tax paid.

OPERATING SEGMENTS

- Mining Services growth in FY21 continued to be driven by growth in the iron ore hubs and new external contracts won during the year
- Commodities growth in FY21 was driven by record iron ore exports and higher iron ore revenues per tonne
- Costs for centralised services are allocated to projects monthly based on usage and are included in the Mining Services and Commodities segments. Unallocated costs remain in Central. As reported in 1H21, \$13M of Central costs including costs relating to COVID-19 are considered to be non-recurring.
- Inter-segment EBITDA represents Mining Services EBITDA earned on MRL's commodity projects where the underlying commodity has not yet been sold, which has increased with the growth in the Commodities volumes
