# Operational Summary and Outlook

Full Year Ended 30 June 2021

Tony Caruso CEO & Managing Director Brett Maff Chief Financial Officer

# We Are Becoming a Different Business

Mine operations and hard rock change the outlook of the business

### Mine Operations

#### FY22 \$80m FY23 and beyond \$150m+

- Brings a material shift around control of projects
- Shifts MYE in the value chain to become a strategic partner for the mine owner
- Our Order Book now provides longer term visibility and stability in earnings and profit
- Multiple large-scale contracts bring revenue diversity and de risks financial outcomes
- Contract Mining provides the opportunity to materially improve margins through performance

### Contracting

#### Historically runs at between \$200-\$300m PA

- Operating for 25 years
- Long standing tier 1 clients
- Average 10+ year relationships
- Contracts tied to production activities making them less likely to swith off
- Commercially low risk contracts
- Diversified client base all in the bottom quartile for production cost
- +95% metallurgical coal projects

### Hard Rock

#### Brings strong commodity diversification

- Organically diversifying adjacent hard rock sector
- Synergistic with Mastermyne contracting business
- Focusing on East Coast market
- Specialising in underground only
- Progressing acquisition opportunities

### **Other Services**

### Wilson Mining and Mynesight

- Wilson Mining specialist ground consolidation business providing niche services to the underground sector
- Mynesight registered training organisation which provides internal services to Mastermyne and external services to a range of clients

### **FY21 Summary of Operational Performance**

#### Contracting business performed well despite some headwinds

- · Challenging year stemming from low coal prices and temporary mine closures in Qld
- Anglo's Aquila Longwall Project has largely offset contraction on other projects for MYE
- First full year of operating Wilson Mining business with very strong results
- Acquired remaining shareholding in Mynesight RTO business and now taking full control
- Contracts extended on Integra, Broadmeadow, Moranbah North Chemicals and Tahmoor
- Labour market for underground coal remains stable with no major resourcing issues to date

#### FY21 Workforce Numbers

### Crinum Mine Operations Contract

#### Executed with work already commenced on site

- Work on site commenced and tracking to schedule and budget
- First production coal to be delivered late HY2022
- Mastermyne capex requirement \$20m-\$25m over FY22 and FY23 funded from cash reserves and existing facilities
- Re-establishment works progressing on plan
- Key personnel engaged and in place with strong pipeline of candidates to build the workforce
- All equipment secured and currently undergoing overhauls in preparation for mining to commence early in H2

Contract executed for ~ 7 year term to reestablish and operate underground mine at Crinum

Total Contract Value of \$600-660 million, delivering \$80-\$100 annual revenue

180 full time personnel at full production

> 11 million tonnes of ROM

# Second Mine Operations Contract Announced at Cook Colliery

#### Early works started and mining contract being finalised

- Located in Central Queensland producing high quality metallurgical coal
- Low risk approach through selective mining method and locations
- OCoal is a very experienced and well-regarded mining organisation currently operating highquality assets across the Bowen Basin
- Stage 1 works have commenced to bring the operation out of care and maintenance and transitioning back into production
- In parallel to the Stage 1 works, the parties will finalise a Mining Services Contract with a commercial model commensurate with the risk profile
- Contract term expected to be similar to Crinum
- Key personnel engaged for Stage 1 from within MYE business supported by external recruitment
- Equipment will come largely from MYE fleet supported by new equipment purchased through OEM's

# **Mitigating Execution Risk**

### Investing in our people development and sourcing the right equipment

- Expanded management team in place in readiness for Mine
  Operations contracts at Crinum and Cook
- Investment in our people through our 70/20/10 Rule of Thumb for Development
- Significant investment in Asset Lifecycle Management to manage larger more complex fleet of production equipment
- Additional Management Systems implemented to support mine operations contract
- Significant investment on internal people development 70/20/10
- Large fleet of bespoke equipment acquired through the low point of the cycle

Acquired full ownership of Mynesight RTO business to support training and onboarding of workforces

stronger values, greater results

### **myne**sight

# **Hard Rock Mining Diversification**

### We are clear on our delivery strategy

Formed new business division for Mastermyne Hard Rock division

Recruitment of key management roles is complete with candidates for other key positions now shortlisted

Submitted tenders with aggregated value in excess of \$100 million

• Tendering pipeline has grown to >\$250 million

Engaging with OEM's and key plant & equipment suppliers to form strategies to resource projects when secured

- Building a workforce database of suitable hard rock employees
- Acquisition strategy is being progressed in parallel with an organic strategy

# FY22 Guidance

#### \$250m of FY22 revenue now locked in

- FY22 Revenue guidance \$300-\$320m (approx. 85% of guidance secured)
- FY22 EBITDA guidance \$28-\$32m
- FY22 is largely establishment and production ramp up phases at Crinum and Cook with full run rate for these projects occurring in FY23
- Recurring purchase order revenue \$30-\$40m pa
- Tendering pipeline at \$2.3b, \$0.6b contracting business, \$1.5b mine operations and \$0.25b hard rock
- Contracting revenue stable with upside in FY22 from tenders already submitted
- Price recovery has accelerated a number of projects and tenders that had been slowed
- Finalised mine operations contract agreement with Bengal Coal and moving through conditions precedent

# **Outlook Supports Growth and Diversification**

#### Commodity prices are driving increasing opportunities

### **Crinum and Cook Revenue Ramp Up**

#### FY22 Ramp Up Year

Crinum mine re-establishment work through to December followed by staged ramp up to three production panels

#### **Booked Revenue Tenure**

# **Commodity Prices Outlook**

Recovery has been substantial and outlook is positive

stronger values. greater results

- Metallurgical coal prices have strengthened returning to historical averages moving from ~\$US 100/tonne to ~\$US 220 since December
- Long term fundamentals are very strong for met coal (95%+ of Mastermyne revenue exposure)
  - Currently no near term viable substitution for met coal in the steel making process
  - Australia remains one of the lowest cost coal producers in the world
  - Very few countries have suitable reserves of high quality met coal
  - Asian steel demand forecasts remain robust
  - 20 of Australia's 22 closest neighbours are developing nations and still have significant steel and power requirements
- MYE contracting revenue is supported by volumes exported more so than price
- Stronger pricing in key metals (copper, nickel and gold) driving increase volume in the pipeline
