

EPA Approves 24 Hour Trucking - Riley Iron Ore Mine

Venture Minerals Limited (**ASX:VMS**) ("Venture" or the "Company") is pleased to advise that it has received approval from the Tasmanian Environment Protection Authority (EPA) to move to a 24 hour trucking operation to transport iron ore from its Riley Iron Ore mine to the port of Burnie. A final approval is still pending Federal Government (EPBC) sign off.

Venture has also received notice of a judicial review against the EPA's decision to vary the permit to 24 hour trucking. **This action does not affect the Company's current operations or existing approvals, which sees Venture continue to truck ore to the port of Burnie during daylight hours.**

Authorised by the Board of Venture Minerals.
