Potential investors should be aware that subscribing for New Options in the Company involves a number of risks. The key risk factors of which investors should be aware are set out in Section 6 of this Prospectus. These risks together with other general risks applicable to all investments in listed securities not specifically referred to, may affect the value of the New Options and the Company's Shares in the future. Accordingly, an investment in the Company should be considered highly speculative. Investors should consider consulting their professional advisers before deciding whether to apply for New Options pursuant to this Prospectus.

2.5 Overseas Investors

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and therefore persons into whose possession this document comes should seek advice on and observe any such restrictions. Any failure to comply with these restrictions constitutes a violation of those laws. 3. DETAILS OF THE OFFER

3.1 Offer

Under this Prospectus, the Company invites investors identified by the Directors to apply for up to 100 New Options at an issue price of \$0.015 per Option to raise up to \$1.50 (before expenses).

The Offer will only be extended to specific parties on invitation from the Directors. Application Forms will only be provided by the Company to these parties.

The full terms and conditions of the New Options to be offered under this Prospectus are set out in Section 5.1. Subject to the Company being able to satisfy ASX of the requirements for quotation as per Chapter 2 of the Listing Rules, the New Options will form a new class of quoted securities of the Company.

3.2 Objective

The Company is seeking to raise only a nominal amount of \$1.50 under this Prospectus and, accordingly, the purpose of this Prospectus is not to raise capital.

The primary purpose of this Prospectus is to remove any trading restrictions that may have attached to Options in the same class as the New Options issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the Closing Date (including prior to lodgement of this Prospectus) so that, following quotation of the Options in the same class as the New Options, any on-sale of Options in that class issued before the Closing Date does not breach section 707(3) of the Corporations Act.

Relevantly, section 708A(11) of the Corporations Act provides that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that are quoted securities of the body;
- (b) either:
 - (i) a prospectus is lodged with the ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
 - (ii) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and
- (c) the prospectus is for an offer of securities issued by the body that are in the same class of securities as the relevant securities.

Options in the same class as the New Options are not currently in a class of quoted securities. However, the Company will apply for quotation of the New Options (including Options on issue in the same class of the New Options) within 7 days following the date of this Prospectus and the issue of New Options under the Offer is conditional upon ASX granting Official Quotation to the New Options and Options on issue in the same class as the New Options.

3.3 Application for New Options

Applications for New Options must be made by investors at the direction of the Company and must be made using the Application Form accompanying this Prospectus.

Payment for the New Options must be made in full at the issue price of \$0.01 per New Option.

Completed Application Forms and accompanying cheques must be mailed or delivered to the Company as follows:

| Delivery by hand | Delivery by post |
|---|--------------------------------|
| Suite 9, 330 Churchill Avenue, SUBIACO WA 6008 | PO Box 866, SUBIACO WA 6904 |

Cheques should be made payable to "**Frugl Group Limited – New Option Offer Account**" and crossed "**Not Negotiable**". Completed Application Forms and cheques must reach the address set out above by no later than the Closing Date.

3.4 Minimum subscription

There is no minimum subscription.

3.5 Issue of New Options

As noted in Section 3.2, the primary purpose of the Offer is to remove any trading restrictions that may have attached to Options issued by the Company without disclosure under Chapter 6D of the Corporations Act prior to the Closing Date of the Offer (including prior to the date of this Prospectus).

If the Directors decide to issue New Options under the Offer, the issue of New Options under the Offer will take place as soon as practicable after the Closing Date. Application moneys will be held in a separate subscription account until the New Options are issued. This account will be established and kept by the Company in trust for each Applicant. Any interest earned on the application moneys will be for the benefit of the Company and will be retained by the Company irrespective of whether any New Options are issued and each Applicant waives the right to claim any interest.

The Directors will determine the recipients of all the New Options. The Directors reserve the right to reject any application or to allocate any Applicant fewer New Options than the number applied for.

Where the number of New Options issued is less than the number applied for, the surplus moneys will be returned by cheque as soon as practicable after the Closing Date. Where no issue of New Options is made, the amount tendered on application will be returned in full by cheque as soon as practicable after the Closing Date. Interest will not be paid on moneys refunded.

The Company's decision on the number of New Options to be allocated to an applicant will be final.

Holding statements for New Options issued under this Prospectus will be mailed to the investors under the Offer.

3.6 ASX listing

Application for Official Quotation of the New Options offered pursuant to this Prospectus will be made within 7 days of the date of this Prospectus. If ASX does not grant Official Quotation of the New Options offered pursuant to this Prospectus before the expiration of 3 months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any New Options.

The fact that ASX may grant Official Quotation to the New Options is not to be taken in any way as an indication of the merits of the Company or the New Options now offered for subscription.

3.7 Restrictions on the distribution of the Prospectus

The distribution of this Prospectus outside the Commonwealth of Australia may be restricted by law.

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

Residents of countries outside Australia should consult their professional advisers as to whether any government or other consents are required, or whether any formalities need to be observed should they wish to make an application to take up New Options on the basis of this Prospectus. The return of a duly completed Application Form will be taken to constitute a representation and warranty that there has been no breach of such laws and that all approvals and consents have been obtained.

3.8 Enquiries

Any questions concerning the Offer should be directed to Andrew Bickley, Company Secretary, on +61 8 6489 1600.

ensure that an offer for sale of the Shares does not require disclosure to investors; and

- (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the Options.

If a notice delivered under (g)(ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(h) **Shares issued on exercise**

Shares issued on exercise of the Options rank equally with the then issued shares of the Company.

(i) **Reconstruction of capital**

If at any time the issued capital of the Company is reconstructed, all rights of an Optionholder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

(j) **Participation in new issues**

There are no participation rights or entitlements inherent in the Options and holders will not be entitled to participate in new issues of capital offered to Shares holders during the currency of the Options without exercising the Options.

(k) **Change in exercise price**

An Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the Option can be exercised.

(l) **Transferability**

The Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

5.2 Shares

The following is a summary of the more significant rights and liabilities attaching to Shares that may be issued pursuant to this Prospectus and subject to exercise of the Options. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) **General meeting and notices**

Each member is entitled to receive notice of, and to attend and vote at, general meetings of the Company and to receive all notices, accounts and other documents required to be sent to members under the Constitution, the Corporations Act or the Listing Rules.

(b) **Voting rights**

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at a general meeting of the Company every holder of fully paid ordinary shares present in person or by an attorney representative or proxy has one vote on a show of hands and one vote per share on a poll.

Where there are 2 or more joint holders of a share and more than one of them is present at a meeting and tenders a vote in respect of the share, the Company will count only the vote cast by the member whose name appears first in the Company's register of members.

(c) **Issues of further Shares**

The Directors may, on behalf of the Company, issue, grant options over unissued shares to any person on the terms, with the rights, and at the times that the Directors decide. However, the Directors must act in accordance with the restrictions imposed by the Constitution, Listing Rules, the Corporations Act and any rights for the time being attached to the shares in any special class of those shares.

(d) **Variation of Rights**

Unless otherwise provided by the terms of issue of a class of shares and subject to the Corporations Act, the rights attached to the shares in any class may be varied or cancelled only with the written consent of the holders of at least three-quarters of the issued shares of the affected class, or by special resolution passed at a separate meeting of the holders of the issued shares of the affected class.

(e) **Transfer of Shares**

Subject to the Constitution, the Corporations Act and Listing Rules, Shares are freely transferable.

The Shares may be transferred by a proper transfer effected in accordance with the ASX Settlement Operating Rules, by any other method of transferring or dealing with Shares introduced by ASX and as otherwise permitted by the Corporations Act or by a written instrument of transfer in any usual form or in any other form approved by either the Directors or ASX that is permitted by the Corporations Act.

The Directors may decline to register a transfer of Shares (other than a proper transfer in accordance with the ASX Settlement Operating Rules) where permitted to do so under the Listing Rules. If the Directors decline to register a transfer, the Company must, within 5 Business Days after the transfer is delivered to the Company, give the party lodging the transfer written notice of the refusal and the reason for the refusal. The Directors must decline to register a transfer of Shares when required by law, by the Listing Rules or by the ASX Settlement Operating Rules.

(f) **Dividends**

The Directors may fix the time for distribution and the methods of distribution. Subject to the terms of issue of shares, the Company may pay a dividend on one class of shares to the exclusion of another class.

Each share carries the right to participate in the dividend in the same proportion that the amount for the time being paid on the share (not credited) bears to the total amounts paid and payable (excluding amounts credited) in respect of such shares.

(g) **Dividend reinvestment and Share plans**

Subject to the requirements in the Corporations Act and the Listing Rules, the Directors may implement and maintain dividend reinvestment plans (under which any member may elect that dividends payable by the Company be reinvested by way of subscription for fully paid shares in the Company).

(h) **Capitalisation of profits**

Subject to the Listing Rules and any rights or restrictions attaching to any class of shares, the Company may capitalise profits. Members are entitled to participate in a capital distribution in the same proportions in which they are entitled to participate in dividends.

(i) **Winding-up**

Subject to the rights of holders of shares with special rights in a winding-up and the Corporations Act, if the Company is wound up all monies and property that are to be distributed among Shareholders on a winding-up, shall be distributed in proportion to the Shares held by them respectively, irrespective of the amount paid-up or credited as paid-up on the Shares.

(j) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(k) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

6. RISK FACTORS

6.1 Introduction

The New Options offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for New Options pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this Section 6, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the New Options.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

6.2 Company specific

(a) Working capital

The Company may need to seek funding from various sources to progress its proposed operations. Failure to obtain sufficient financing for the Company's proposed activities will result in delay and indefinite postponement of technology development. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Company and might involve substantial dilution to Shareholders.

(b) Technology development and product commercialisation

The success of the Company is impacted by the successful development and commercialisation of its technologies, specifically the Frugl Groceries App and InFocus Analytics Platform.

The Frugl technology is comprised of the following components:

- (i) consumer facing mobile applications and supporting systems; and
- (ii) a data environment for the collation and enrichment of data,

both of which are required for commercialisation activities. These components have undergone considerable development however they will require ongoing development to ensure they continue to meet the needs of users and business customers.

The InFocus Analytics technology is in the early stages of product commercialisation. Should customer feedback require product enhancements, bug fixes or general improvements, or should the results of further testing indicate technology performance is below market requirements, the Company will have to expend additional time and resources to ensure the products are viable and able to be properly commercialised which will delay the commercialisation of the technology.

The Company's technologies are designed for behavioural insight gathering. As with any technical projects or products, there are risks with the utilisation of third-party technology suppliers and vendors, third party networking environments and the individual performances of company employees, and in the general execution and delivery of the technology services offered.

Whilst the Company has endeavoured to ensure that top tier technology suppliers and network vendors, subject matter experts and senior employees are engaged, and that accepted technology processes and procedures are implemented, there remain risks that the technology solutions offered by the Company fail to meet customer demands and expectations. Further, changing customer usage patterns and behaviours may also render any technology developments the Company offers obsolete.

(c) **Reliance on core information technology and other systems**

The availability of the Frugl and InFocus Analytics technologies and apps are dependent upon the performance, reliability and availability of the Company's IT and communication systems. This includes its core technologies such as computer servers and back-end processing systems. These systems may be adversely affected by a number of factors including major events such as acts of terrorism or war, a breakdown in utilities such as electricity and fibre optic cabling and even pandemics. Events of that nature may cause one or more of those core technologies to become unavailable. There are also internal and external factors that may adversely affect those systems and technologies such as natural disasters, misuse by employees or contractors or other technical issues. The Company may not adequately address every potential event and it may suffer loss or damage as a result of a system failure.

Any damage to, or failure of, the Company's key systems can result in disruptions in the Company's ability to operate the Family Insights and Frugl technologies and apps. Such disruptions have the potential to adversely affect the Company's and the Company's financial position and financial performance, reduce the potential to attract and/or retain users, impact user service levels and damage the Company's and the Company's reputations. This could adversely affect the Company's ability to generate new business and cause it to suffer financial loss.

(d) **Reliance on access to internet**

The Company will rely on the ability of its users to access the internet. Access is provided by various classes of entities in the broadband and internet access marketplace. Should any of these entities disrupt, restrict or affect the cost of access to the Company's products, usage of the Company's products may be negatively impacted.

(e) **Execution of Commercialisation Strategies**

Success of the Company's operations is dependent on user uptake of the Frugl mobile application and the success of Frugl business to business commercialisation strategies, as well as subscription growth in customers.

Frugl's "Business to Business" growth of commercial data products requires successful engagement with potential business customers and the successful delivery of products and services to generate income.

Slower than expected uptake of business customers may affect the Company's earning ability.

(f) **Trading Price of the Company's Securities**

The Company's operating results, economic and financial prospects and other factors will affect the trading price of the Company's quoted securities. In addition, the price of the Company's quoted securities are subject to varied and often unpredictable influences on the market for equities, including, but not limited to general economic conditions including the Australian dollar and United States dollar performance on world markets, inflation rates, foreign exchange rates and interest rates, variations in the general market for listed stocks in general, changes to government policy, legislation or regulation, industrial disputes, general operational and business risks and hedging or arbitrage trading activity that may develop involving the Company's quoted securities.

In particular, the share prices for many companies have been and may in the future be highly volatile, which in many cases may reflect a diverse range of non-company specific influences such as global hostilities and tensions relating to certain unstable regions of the world, acts of terrorism and the general state of the global economy. No assurances can be made that the Company's market performance will not be adversely affected by any such market fluctuations or factors.

(g) **Third Party Relationship Risk**

The Company is dependent in part upon its relationships and alliances with industry participants. Some of the Company's partners do, or may in the future, assist the Company in the development of its products through testing, research and development, contract manufacturing, supplier or teaming arrangements. If any of the Company's existing relationships with partners were impaired or terminated, or if the Company was unable to implement additional partnering arrangements it may require from time to time, the Company could experience significant delays in the development of products, and would incur additional costs. Additionally, the Company may take a credit risk with regard to parties to whom it supplies products. In the event of such parties failing to meet its obligations to the Company on time or at all, the Company may be adversely affected.

(h) **Reputational Risk**

Any negative publicity regarding the Company, or its Board, officers or employees, or the performance of its products, will adversely affect the Company's ability to generate revenue.

(i) **Regulatory Risk**

The Company is subject to government regulation which may require it to obtain additional licenses and could limit its ability to sell their products. Failure to obtain the requisite licenses (if such licenses are required), meet registration standards or comply with other government export regulations, may affect the Company's ability to export such products or to generate revenues from the sale of products outside Australia, which could have a material adverse effect on the Company's business, financial condition and results of operations. Compliance with government regulations may also subject the Company to additional

fees and costs. The absence of comparable restrictions on competitors in other countries may adversely affect the Company's competitive position.

6.3 Industry specific

(a) Competition and new technologies

The markets within which the Company operates is competitive, with both the commercial data market and parental control market containing established competitors with existing customer bases and greater capital resources. Some of the Company's competitors may have significantly greater financial, technical, human, research and development and marketing resources than are currently available to the Company. The Company's competitors may develop technologies and products that perform better and/or have greater market acceptance. Whilst the Company's products are unique in their customer proposition, competitors do offer alternatives that customers may choose instead of the Company's products. The Company's performance could be adversely affected if competitors limit the Company's Family Insights subscriber growth via product improvements, improved service offerings, competitive marketing activity and aggressive pricing strategies.

The industries in which the Company operates are subject to rapid change. The Company will have no influence over the activities of its competitors, whose activities may negatively affect the operating and financial performance of the Company. For example, new technologies could overtake the Company's products, in which case the Company's revenue and profitability could be adversely affected.

While the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, whose product developments, activities or actions may positively or negatively affect the operating and financial performance of the Company's projects and business.

(b) Unforeseen expenditure risk

Expenditure may need to be incurred that has not been taken into account. Although the Company is not currently aware of any such additional expenditure requirements, if such expenditure is subsequently incurred, this may adversely affect the expenditure proposals of the Company and the Company's and its business.

(c) Protection of intellectual property rights

The Company's business is substantially reliant on its ability to protect and maintain its intellectual property interests and/or trade secrets. The ability of the Company to obtain and sustain patents, maintain trade secret protection and operate without infringing proprietary rights of third parties is an integral part of the Company's business.

The Company, holds the following Patents and Trade Marks:

- (i) Innovation Patent 2015101887, "Online Shopping System and Method"

- (ii) Trade Mark 1791475 (classes 9, 35), "Frugl"
- (iii) Trade Mark 1708221 (classes 9, 35), "My Local Savings" and

The granting of protection, such as a registered patent, does not guarantee that the rights of others are not infringed, that competitors will not develop technology to avoid the patent or that third parties will not claim an interest in the intellectual property with a view to seeking a commercial benefit from the Company or its partners.

Legal standards relating to the validity, enforceability and scope of protection of intellectual property rights are uncertain. Effective patent, trademark, copyright and trade secret protection may not be available to the Company in every country in which the Company's technologies may eventually be launched. Accordingly, despite its efforts, the Company may not be able to prevent third parties from infringing upon or misappropriating its intellectual property.

The Company may be required to incur significant expenses in monitoring and protecting its intellectual property rights or defending against claims it has infringed on a third party's patent or other intellectual property rights. It may initiate or otherwise be involved in litigation against third parties for infringement, or to establish the validity, of its rights. Any litigation, whether or not it is successful, could result in significant expense to the Company and cause a distraction to management.

(d) **Failure to deal with growth**

The Company has the potential to grow rapidly. If that occurs and the Company fails to properly manage that growth, then that failure could harm its business. Any failure to meet user demand properly could adversely affect the business, including demand for the technology, products and services, revenue, customer satisfaction and public perception.

(e) **Security breaches**

The Company is heavily reliant on the security of its network environment, vendor environments, websites and mobile applications. Breaches of security including hacking, denial of service attacks, malicious software use, internal IP theft, data theft or other external or internal security threats could put the integrity and privacy of customers' data and business systems used by the Company at risk which could impact technology operations and ultimately customer satisfaction with the Company's products, leading to lost subscribers and Company revenue. The impact of loss or leakage of customer or business data could include costs for potential service disruptions, litigation and brand damage which may potentially have a material adverse impact on the Company's reputation as well as its profitability. Furthermore, any such historical and public security breaches could impact the Company's ability to acquire future customers and revenue. In addition, substantial costs may be incurred in order to prevent the occurrence of future security breaches.

Whilst the Company has established risk management systems to prevent cyber-attacks and any potential data security breaches, including firewalls, encryption of customer data (storage and transmission) and a

privacy policy, there are inherent limitations on such systems, including the possibility that certain risks have not been identified. There can be no guarantee that the measures taken by the Company will be sufficient to detect or prevent data security breaches.

(f) **Shareholder dilution**

In the future, the Company may elect to issue Shares or other securities. While the Company will be subject to the constraints of the ASX Listing Rules regarding the issue of Shares or other securities, Shareholders may be diluted as a result of issues of Shares or other securities.

(g) **Strategies**

There are no limits on strategies that the Company may pursue. The strategy discussed in this Prospectus may evolve over time due to, among other things, market developments and trends, technical challenges, the emergence of new or enhanced technology, changing regulation and/or industry practice, and otherwise in the Company's sole discretion. As a result, the strategy, approaches, markets and products described in this Prospectus may not reflect the strategies, approaches, markets and products relevant to, or pursued by, the Company at a later date.

Further, a change in strategy may involve material and as yet unanticipated risks, as well as a high degree of risk, including a higher degree of risk than the Company's strategy in place as of the date hereof.

(h) **Contracts in general**

There are a number of risks associated with contracts entered into by the Company, including the risk that those contracts may contain unfavourable provisions, or be terminated, lost or impaired, or renewed on less favourable terms.

(i) **Product Liability**

As with all new products, there is no assurance that unforeseen adverse events or manufacturing defects will not arise in the Company's products. Adverse events could expose the Company to product liability claims or litigation, resulting in the removal of regulatory approval for the relevant products and/or monetary damages being awarded against the Company. In such event, the Company's liability may exceed the Company's insurance coverage, if any.

6.4 **General risks**

(a) **Coronavirus (COVID-19)**

The outbreak of the coronavirus disease (COVID-19) is impacting global economic markets. The nature and extent of the effect of the outbreak on the performance of the Company remains unknown. The Company's share price may be adversely affected in the short to medium term by the economic uncertainty caused by COVID-19. Further, any governmental or industry measures taken in response to COVID-19 may adversely impact the Company's operations and are likely to be beyond the control of the Company.

The Directors are monitoring the situation closely and have considered the impact of COVID-19 on the Company's business and financial performance. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain. In compliance with its continuous disclosure obligations, the Company will continue to update the market in regard to the impact of the coronavirus on its revenue channels and adverse impact on the Company. If any of these impacts appear material prior to close of the Offer, the Company will notify investors under a supplementary prospectus.

(b) **Additional Requirements for Capital**

The Company's ability to effectively implement its business and operations plans in the future, to take advantage of opportunities for acquisitions or other business opportunities and to meet any unanticipated liabilities or expenses which the Company may incur may depend in part on its ability to raise additional funds. The Company may seek to raise further funds through equity or debt financing or other means. Failure to obtain sufficient financing for the Company's activities and future projects may result in delay and indefinite postponement of technology development. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Company and might involve substantial dilution to Shareholders.

Loan agreements and other financing rearrangements such as debt facilities, convertible note issue and finance leases (and any related guarantee and security) that may be entered into by the Company may contain covenants, undertakings and other provisions which, if breached, may entitle lenders to accelerate repayment of loans and there is no assurance that the Company would be able to repay such loans in the event of an acceleration. Enforcement of any security granted by the Company or default under a finance lease could also result in the loss of assets.

(c) **Potential acquisition risk**

As part of its business strategy, the Company may make acquisitions of, or significant investments in, complementary companies or prospects although no such acquisitions or investments are currently planned. Any such transactions will be accompanied by risks commonly encountered in making such acquisitions.

(d) **Economic**

General economic conditions, introduction of tax reform, new legislation, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

(e) **Market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic and political outlook;

- For personal use only
- (ii) introduction of tax reform or other new legislation;
 - (iii) interest rates and inflation rates;
 - (iv) changes in investor sentiment toward particular market sectors;
 - (v) the demand for, and supply of, capital; and
 - (vi) terrorism or other hostilities.

The market price of quoted securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and technology stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(f) **Reliance on Key Management**

The Company's ability to develop and manage the growth of its businesses is dependent largely on the skills of the Company's management team. Changes in the management team may require appointment of new members, who have not yet been identified.

Despite the Company's best efforts to attract and retain key personnel (including by entering into services agreements and offering performance-based equity incentives), there is no assurance that the Company will be able to retain the services of such persons. The Company's ability or inability to attract and retain key personnel could have a material effect upon the Company's business, results of operations and financial condition.

(g) **Taxation Risk**

The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Shares under this Prospectus.

(h) **Regulatory risk**

Changes in relevant taxes, legal and administration regimes, accounting practice and government policies may adversely affect the financial performance of the Company.

(i) **Insurance risk**

Insurance against all risks associated with information technology security is not always available or affordable. The Company will maintain insurance where it is considered appropriate for its needs however it may not be insured against all risks either because appropriate cover is not available or because the Directors consider the required premiums to be excessive having regard to the benefits that would accrue.

(i) **General economic and political risk**

Changes in the general economic and political climate in Australia and on a global basis may impact on economic growth, interest rates, the rate of inflation, taxation and tariff laws, domestic security which may affect the value and viability of any activities that may be conducted by the Company.

(i) **Litigation Risks**

The Company is exposed to possible litigation risks including intellectual property disputes, product liability claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position.
