Preliminary financial statements
Compliance statement

1. Company Details

Name of reporting entity: DGL Group Limited ABN: 71 002 802 646

Reporting period: 1 July 2020 - 30 June 2021 Prior corresponding reporting period: 1 July 2019 - 30 June 2020

The Group was listed on the ASX on 24 May 2021

2. Results for announcement to the market

				\$.000
Revenue from ordinary activities	Up	51%	to	154,477
Profit from ordinary activities attributable to members	Up	1081%	to	47,165
Net comprehensive income for the year attributable to members	Up	1490%	to	68,423

No dividend has been paid during the financial year or in the previous corresponding period. No dividend has been proposed or declared since the end of the financial year.

On 15 March 2021, a debt amounting to \$40.275 million to DGL Commercial Limited, now known as Rapaki Property Group Limited (an entity that is not part of the DGL consolidated group and a related party of Simon Henry) was forgiven and all rights to call for repayment were unconditionally rescinded by Rapaki Property Group Limited and Simon Henry.

The forgiveness of the debt is treated as revenue and is non-taxable income for the Group.

Review of Operations

The Group comprises three operating segments: Chemical Manufacturing, Warehousing and Distribution and Environmental Solutions.

A description of the operating segments are set out below.

Chemical Manufacturing

/		
4		DGL's Chemical Manufacturing division produces its own range of specialty chemicals and undertakes advanced
1	Segment description	formulation and contract manufacturing on behalf of third parties. The division provides a versatile, end to end
4	Segment description	solution for its customers. Operations are focused on deriving chemicals from complex reactions in controlled
		environments.
		In January 2021, DGL acquired the Chem Pack business, expanding the Chemical Manufacturing division's
		manufacturing capabilities. Chem Pack has a long history in chemicals manufacturing, having been established in
		1993, and holds strong relationships with many customers across several market segments. With the knowledge,
) [experience and intellectual property gained, the division is now able to offer a turn-key solution across more
4		industries and markets. The Chem Pack business has been successfully integrated into the DGL Group and is
	Key activities	performing in line with management's expectations. The business has been leveraged to and continues to benefit
1		from excellent growing conditions across Australia's agricultural regions.
N		
		DGL has also progressed its expansion into the New Zealand market, providing storage for its chemicals products for
1		the first time abroad. It is developing distribution relationships for its products, with a view to bringing
		manufacturing capacity onshore over the long-term.

Warehousing and Distribution

Segment description	The Warehousing and Distribution division offers transport, logistics and warehousing services focusing on				
	hazardous goods across Australia and New Zealand. Key components of the services provided by the division				
	include freight forwarding, inventory management, warehousing, and transport. DGL has developed an in-house				
	stock management system that enables integration with customer supply chain systems, creating a one-stop-shop				
4	management system for dangerous goods through to food-grade products.				
Key activities	The period also saw a positive take-up from customers as additional services were provided. The approach is a key				
	part of DGL's strategy to achieve Total Product Management for customers and divisional cross-sell of services.				
	DGL's plan to expand its inter-state transport and bulk tanker network in Australia saw it purchase a road tanker in				
	NSW which will bring synergies and greater control over NSW distribution. Additional services include the				
	commencement of swing lift services in Victoria.				

Environmental Solutions

Segment desc	ription	The Environmental Solutions division undertakes resource recovery and hazardous waste management activities. Its core activities comprise liquid waste treatment, ULAB recycling, lead smelting and refining.
Key activit	ties	In New South Wales, DGL operates a wastewater treatment plant to process liquid waste generated from its end-of-
		life lead acid batteries (ULABs) recycling plant and third-party clients. The wastewater treatment plant processed
		53,000 tonnes of liquid waste in FY21, ahead of the prospectus forecast of 50,000m3. Plans for a new state-of-the-
		art liquid waste treatment plant on the same site are underway.

3. Net tangible assets

Net tangible asset backing per ordinary share at 30 June 2021, 64.55 cents.

NOTES TO THE PRELIMINARY FINANCIAL STATEMENTS For the year ended 30 June 2021

Note 1:

Summary of Significant Accounting Policies

Basis of Preparation

The preliminary financial statements on which the Financial Information has been based is in accordance with the Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board and International Financial Reporting Standards as issued by the International Accounting Standards Board. The Company is a for-profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of the Financial Information are presented below and have been consistently applied unless stated otherwise.

The Financial Information except for cash flow information, has been prepared on an accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Other than adopting Accounting for Common Control Acquisitions noted below, there have been no material changes in the Company's application of its significant accounting policies as presented in the Company's IPO Prospectus. Readers of this report should refer to Appendix A of the Company's IPO Prospectus for details of those accounting policies.

Accounting for Common Control Acquisitions

Where the acquisition of entities that are deemed to be under common control occurs, the pooling of interest method is adopted for business combinations under common control.

Existing book values for assets and liabilities at the date of acquisition will be recognised and fair value adjustments including new intangibles or goodwill will not be recognised. Any premium between the fair value of consideration paid and the book value of net assets is debited to a separate category of equity.

The Group operates in 3 segments, Environmental Solutions, Chemical Manufacturing and Warehousing and Distribution.

Note 10

Events Subsequent to Reporting Date

Other than the following, the directors are not aware of any significant events since the end of the reporting period.

On 5 July 2021, the Company announced it was acquiring 100 % of Labels Connect. Labels Connect is the main supplier of packaging labels to DGL's Chem Pack business. The total purchase consideration is \$1,549,900 and comprises of:

- cash payment of \$550,000; and
- issuance of 909,000 fully paid ordinary shares at an issue price of \$1.10 per share.

The shares will be issued on 1 October 2021 and will be held in escrow until 1 January 2022.

On 12 July 2021, the Company announced it was acquiring a property, 120 Fulton Drive, Derrimut, Victoria for a total consideration of \$5.5 million.

The property houses the head office of Chem Pack Pty Ltd and includes warehouse facilities purpose built for the formulation and storage of chemicals.

Under the acquisition of Chem Pack, the Company obtained an option to purchase various properties that Chem Pack leases and operates from in Fulton Drive. After completion of relevant due diligence, 120 Fulton Drive was selected as the property that is most crucial to the business of Chem Pack and most complimentary to the broader DGL Group.

This transaction is a related party transaction. The vendor of 120 Fulton Drive is Belbrae Investments Pty Ltd. Sheamus Sushames is a director of Belbrae Investments Pty Ltd and is the original owner of Chem Pack. His son Robert Sushames is a director of DGL Group Limited.

On 15 July 2021, the Company announced it had acquired a multi-purpose chemical facility in Townsville, Queensland for \$2.45 million.

The facility, which the Company had previously leased as a storage hub, will be turned into a chemicals formulation and storage facility, ensuring the Company can produce agricultural, mining and waste and water treatment chemicals at the site to distribute to customers across North Queensland. These products were previously formulated in New South Wales and transported to North Queensland customers.

NOTES TO THE PRELIMINARY FINANCIAL STATEMENTS For the year ended 30 June 2021

Note 10: Events Subsequent to Reporting Date (continued)

The acquisition will require a capital investment of around \$5 million to turn the property into a processing facility, and once completed and fully operational, is expected to generate revenue across a number of manufacturing opportunities, including the manufacturing of aluminium chloralhydrate, shotcrete accelerator and liquid fertiliser blending, as well as toll manufacturing for a major customer.

On 4 August 2021, the Company announced the strategic acquisition of Opal Australasia ("Opal") for \$8.6 million.

Opal is a specialist contract formulator and packaging business based in the Kwinana Industrial Area, one of Western Australia's most important strategic industrial areas. The company has been operating profitably for nearly 20 years, and is one of only two independent agricultural chemical toll manufacturing companies in WA. The acquisition will provide the Company with access to a suite of agricultural customers on Australia's west coast and increase the Company's manufacturing capacity to in excess of 150,000 tonnes p.a.

The acquisition price of \$8.6 million, includes property valued at approximately \$4.3 million. The acquisition will be funded by both cash and shares, with the share component valued at \$1.9 million.

The Company has entered into other business acquisition agreements which are currently subject to a due diligence period and are therefore conditional on the satisfactory completion of due diligence. The terms of the agreements remain confidential to all parties until they become binding and unconditional. The potential acquisitions are in line with the use of funds commentary as disclosed in the Company's IPO Prospectus and the company's strategy.

Note 11 Interest in Subsidiaries

(a) Information about Principal Subsidiaries

The subsidiaries listed below have share capital consisting solely of ordinary shares or ordinary units which are held directly by the Group. The proportion of ownership interests held equals the voting rights held by the Group.

¹ DGL Manufacturing Pty Ltd, DGL Warehousing & Distribution Pty Ltd and DGL Industries Pty Ltd were acquired on 31 March 2021. The acquisition effective date has been treated as 1 July 2019 under the pooling of interests method.

² DGL (NZ) Limited, DGL Manufacturing Limited and DGL Warehousing (NZ) Limited were acquired on 1 April 2021. The acquisition effective date has been treated as 1 July 2019 under the pooling of interests method.

NOTES TO THE PRELIMINARY FINANCIAL STATEMENTS For the year ended 30 June 2021

Note 11: Interest in Subsidiaries (continued)

(b) Acquisition of subsidiary under AASB 3: Business Combinations

On 1 January 2021, the Company acquired 100% of Chem Pack Pty Ltd. Chem Pack operates a contract formulation and packing business based in Victoria. It has facilities required to manufacture, fill and/or blend liquid products used in the agriculture industry. It can manage many product ranges and provide all forms and pack sizes of chemical Liquids including aerosol cans.

The total acquisition price was \$25,247,852. A further payment of \$13,186,735 is payable for net working capital and other completion adjustments as per the Chem Pack Contract.

Note 12 Contingent liability

The Group currently has one open ligitation matter in relation to the 100% owned subsidiary, DGL Manufacturing Limited.

DGL Manufacturing Limited has sued a vendor for breach of vendor warranties in respect of the sale of chemical tanks which it is claimed do not comply with the *Weights and Measurements Act* (if used in public trade). The relief sought is approximately \$590,000, being the estimated costs of bringing the tanks to a compliance standard.
